GOSSIP.

USHER & SON'S SHORTHORNS.

Messrs. Isaac Usher & Son, on their 350-acre farm at Queenston, Ont., where they quarry and grind the famous Queenston cement at the rate of 400 barrels a day, have established a strong herd of about 70 head of registered Shorthorn cattle, at the head of which is the choice roan 3-year-old bull, Lord Gloster =28995-s, sired by the champion prize bull, Abbotsford, son of the imported Cruickshank cow, Village Blossom, dam of Young Abbotsburn, champion bull of all beef breeds at the World's Fair at Chicago. The dam of Lord Gloster is Gaiety, of the Cruickshank Duchess of Gloster family, and she was got by Prince Albert, a son of the famous Barmpton Hero, who was himself a championship winner and sire of many champions. He was a pure Cruickshank bull, his sire and dam being bred at Sittyton, the latter being a daughter of Champion of England, the greatest bull ever used in the Cruickshank herd.

Among the females of the herd are representatives of many well-known and favorite families of the dual purpose class, the cows as a rule being good milkers, and all of the good-feeding sort, which put on flesh rapidly when dry. The top crosses in their-pedigrees show the names of many noted Scotch-bred bulls, such asthe Kinellar-bred Killerby =6377=.imp.; Cavalier =22603=, by the Cruickshank sire, Sittyton Chief, by Hospodar: Imp. Blue Ribbon =17095= bred at Kinellar; Strathelyde =20078=, a Strathallan, by Imp. Duke Lavender; Crimson Chief, a Kinellar Crimson Flower, by the famous Imp. Indian Chief, bred by Cruickshank; Imp. Guardsman, noted as a sire of prizewinners; Mysie's Chief, a Kinellar Mysie, by a son of Indian Chief; and Mina King, a Kinellar Mina. Such an array of noted bulls figuring in the breeding of a herd must necessarily have made a strong impression in shaping the type of their offspring, and their influence is plainly seen in the general character of the cattle. In the large new barns, with cement concrete walls from floor of basement stables to eaves of roof, provision is made for the healthy housing of a

This is the dairy breed for ordinary farmers. Large, vigorous, and hardy, giving plenty of rich milk. Several fine young bulls for sale at very nable prices. A few heifers can be spared

AFTER EFFECTS OF GRIP

Are Often More Serious Than the Grip Itself.

Physicians and grip sufferers alike are agreed that the after-effects of the disease are more to be feared than the acute attack; you can never be sure that the disease has left the system completely.

La Grippe naturally attacks the weakest organ, and

the disease has left the system completely.

La Grippe naturally attacks the weakest organ, and leaves it still weaker.

Not only pneumonia, consumption, bronchitis and throat trouble follow the grip, but kidney, liver and stomach troubles are just as liable to result, provided any of these organs should happen to be in a weak condition at the time of attack.

To get rid of the grip germ, to get it entirely out of the system and blood, few remedies are so good and none safer than Stuart's Catarrh Tablets. They are not a compound of powerful and dangerous drugs, but a pleasant, palatable, convenient remedy in tablet form, composed of the wholesome antiseptic principles of Eucalyptus bark, bloodroot, and similar germicide remedies which are perfectly wholesome and harmless to the system, but death to the germs of grip, catarrh, consumption and diseases of the throat and air passages.

Mrs. Chas. Gornley, of Memphis, says: "Last winter an attack of the grip left me with weak back, a persistent cough, and loss of flesh and appetite, and after using various remedies for several months, with little or no improvement, I finally bought a 50 cent package of Stuart's Catarrh Tablets at my drug store, and as they were pleasant and convenient to take, I used them at all times of day or night, and I was astonished to secure such fine results from so pleasant and convenient a medicine. In two weeks my cough disappeared, my appetite returned. I improved in flesh and color, and no one would now think that I had ever had such a thing as the grip. My druggist told me he had sold more of Stuart's Catarrh Tablets, for the cure of grip, colds, and catarrh, than any other similar medicines —Advt.om

WHERE ARE THE BEST HOLSTEINS? Have you read of Lilith Pauline DeKol's wonderful record? Her sire was bred here. Have you read of Susie DeKol's record? She was sired by a son of our great cow, DeKol 2nd. We can give our customers more of the blood of the greatest producers than can be found in any other herd. Look over official reports and see where the sires of the great producers were bred. We have over 30 young bulls for sale, and a large number of females. Animals shipped to Canada are accompanied by certificate of health, and are subject to no duties or quarantine. If you want the best, write or visit. want the best. st, write or visit— BROOKSIDE HERD.

Matthew Moody & Sons

(Factory and Head Office, Terrebonne, P. Q.),

Rakes, Mowers, Reapers, Binders, Threshing Machines, Ensilage Gutters, Etc.

TERREBONNE, July 16, 1900.

TERRESONNE, July 16, 1990.

I, the undersigned, Geo. Belanger, manager for M. Moody & Sons, have bought for Mr. Heary Moody's account two (2) Alpha No. 1 Separators, from the Canadian Dairy Supply Co.; after a test of the Alpha De Laval Separator against the "U. S." machine, held on the 10th and 11th of July.

July.

In the results obtained by both tests of machines, the difference was large enough to warrant me buying the two Alpha Separators, and I recommend all buttermakers thinking of purchasing a eparator to get an Alpha, as no other will give such satisfaction from the work. (Signed) G. W. BELANGER, Mgr.

Milk received.

TERREBONNE, January 5, 1901. GENTLEMEN,-Yours of the 2nd inst. to hand. The two Alpha Separators which we bought from you during the past season have been in constant use, and have given us every satisfaction. both as to their capacity and as to the quality and quantity of product. Yours truly

M. MOODY & SONS.

THE TEST.

Here are the results of the test, under Inspector Corbeil's Supervision:

11th July, 1900. 10th July, 1900. Alpha No. 1.

Average temperature
Per cent, of fat in milk.
Duration of skimming.
Amount skimmed per hour.

3.80 per cent. 3 hrs. 50 mln. 2.464 lbs

9,571 lbs.
72 deg. F.
3.80 per cent.
2 hrs. 50 min.
3,378 lbs. 6,400 revolutions. 0.03.

THE CONCLUSION.

Butter-fat saved by the Alpha on 9,571 lbs. milk, as compared to the U.S. Equal to finished butter.....

Also saved by the Alpha, as compared to additional time occupied by the run of the U. S.:

And this economy will be a daily occurrence during the lifetime of the Alpha, and will be increased as the season goes on and milk is harder to skim.
