

A MESSAGE TO MEN WHO ARE WEAK AND AILING.

The failure of medicine, of quacks, and even of other so-called electric belts is no argument against Dr. McLaughlin's Electric Belt. No other treatment, no other belt, is in the same class with it. Everything else may fail, but Dr. McLaughlin's Belt will cure. It HAS cured thousands who tried other remedies without success.

Here's an Offer

less Drugging,
Come Now.

Do You Want
to be

"A Man
Among
Men?"

WRITE
TO-DAY

This is a message to men. It is to men who want to feel like men, to look like men and act like men. This is to men who lack courage, whose nerves are shaken, whose brains are muddled, ideas confused, sleep restless, confidence gone, spirits low and easily depressed, who are backward, hesitating, unable to venture because they are afraid of failure, who want somebody to decide for them, who are weak, puny and restless. It is to men who have part or all of those symptoms and want new life, new force, new vigor.

DR. McLAUGHLIN'S ELECTRIC BELT

is no longer an experiment. It is hailed by thousands with loud praise, because it has cured them. "It cured me. I am well and strong as ever. What more could one ask?" writes a man with a heart full of gratitude.

Do not be in error. This grand appliance is like no other. It is new. It has all the good points that are known in electricity. It gives a powerful current, but does not burn or blister, because my special cushion electrodes make the current a warm, gentle glow, which exhilarates and relieves at once.

Dear Sir,—I am fully satisfied with the result of your Belt. It is fully as good as you claim. It has made a new man of me. I have gained both weight and strength. Every word turned out to be true. I could not believe at first myself that your Belt was as good as it is. My friends tried to make me believe that your Belt was no good, but I was strong-headed, and got the Belt. After wearing it for seven weeks, I knew that the Belt was good, and in two months' time I was completely cured. Now all my friends believe in the Belt, but none stronger than I do. I have recommended your Belt far and wide.—ALEX. McDONALD, Dunmore, N. S.

Dear Sir,—I have great pleasure in writing to you to say that, after a fair trial of your Belt, it has accomplished wonders in so short a time. The indigestion is gone, and I can eat a good, hearty meal now (what I have not done for a long time), and the pain in my back is about gone. In fact, I feel like a new man, and will say that I am well satisfied with my bargain.—JOHN BEATTIE, Mina, Ont.

Dear Sir,—You will excuse me for not writing before, but I was in the lumber woods, and did not return until this month. Yes, sir, my back is all right. It is better and stronger now than it has been for thirty years. It is a permanent cure. My head don't bother me; nerves are strong; I am better all over. You can use my name to certify that your Belt is all you claim for it.—GEORGE STANLEY, Perth, Victoria Co.

My case has certainly been a very serious one, and one of long standing. I had latterly and so long been unable to do any work at all. Your Belt has worked wonders in my case, as I am working steady now. It is well known here that it is your Belt that has put me on my feet again, and, no doubt, will be the cause of other sales for you.—WILLIAM J. BYERS, Nipissing, Ont.

Your Belt has certainly done me a great deal of good in every way, and I shall always recommend your Belt to anyone I know that is in need of it.—ROBERT DICK, Kimberley, Ont.

I write to let you know that my health is very good. My back is about cured. The benefit I received from the Belt is well worth the price I paid for it. The advice alone is worth the money twice over. My friends tell me that I am looking fine. I tell them I don't know whether I am looking fine or not, but I can tell them I am feeling more than fine. I shall speak well of what you have done for me with your Belt and advice. Wishing you every success, I remain, yours very truly, W. H. BELDING, Chance Harbor, N. B.

I know no better way to prove my confidence in the wonderful curative power of my Belt than to cure you before I ask my pay. Can anything be fairer than that?

My confidence in my method enables me to offer the Belt on trial, and one who can offer me reasonable security can use my Belt at my risk and—

PAY WHEN YOU ARE CURED.

I have a nicely-illustrated book which every man should read. I will send it, closely sealed, FREE.

FREE BOOK. If you cannot call, then fill out this Coupon, mail it to me, and I will mail you, free, sealed, and in plain envelope, my Book, which contains many things you should know, besides describing and giving the price of the appliance and numerous testimonials. Business transacted by mail, or at offices only.—No agents.

Now, if you suffer, do not lay this aside and say you will try it later. Act to-day—NOW.

Put your name on this Coupon and send it in.

DR. M. S. McLAUGHLIN, 112 Yonge St., Toronto, Can.

Send me your Free Book, closely sealed, and oblige.

QUESTIONS AND ANSWERS. Miscellaneous.

LICE ON CATTLE.

Can you tell me of anything that will kill the nits of lice on cattle, and how long it takes them to hatch under ordinary circumstances, as I have been told they become grandmothers in forty-eight hours, and begin to believe it, as we have used a great many dollars' worth of recommended louse killers, and spent days in trying to exterminate them the last two years, but have a nice crop of the large blue ones yet? If any of your correspondents have ever entirely exterminated these, without taking hide and hair off or burying the critter, I hope they

will kindly give it to the readers of "The Farmer's Advocate." G. H. C.

Ans.—Any application that would destroy the germ of life in the nits, would doubtless injure the skin and the roots of the hair. We have no knowledge of the history or fecundity of the insect, but in an extended experience have never failed in ridding cattle of lice by the simple methods. It is good practice to clip or cut the hair short on back and neck, then treat by sprinkling with sifted hardwood ashes, or dry cement, mixed with insect powder (pyrethrum). We recall a case of a bull purchased, which was covered with blue lice, and with one application of insect powder was completely rid of the nuisance. Oil or grease of any kind will kill lice; but if coal oil is used,

it should be mixed with twice the quantity of other oil, otherwise it will blister.

PREPARING TOBACCO DIP— CAPONIZING.

1. How should tobacco dip for lice be prepared?

2. How and when is the operation of caponizing cockerels performed? J. D.

Ans.—1. Take one or more pounds of cheap plug tobacco, according to quantity of solution required; cut and pull to pieces, and boil in a pot on stove, then add water, testing the strength on live vermin, and increasing water as long as strength of solution is sufficient to kill.

2. Caponizing is quite an art, not to be undertaken by an amateur, and not yet considered profitable in Canada.

MAP OF ONTARIO.

Will you kindly tell me, through the columns of your paper, where I can get a map of the Province of Ontario, showing the counties, towns and small places in the farming part of the Province?

A READER.

Ans.—Address Mr. Thomas Southworth, Parliament Buildings, Toronto, Ont.

DESTROYING HORSE-RADISH.

How can horse-radish be killed?

J. H. B.

Ans.—We know of no other means than that of digging it up. There will, no doubt, be portions of the roots left, which will grow and come up to the surface, but by cutting these off as soon as seen, destruction will soon be completed.
