and no remedy has ever before been abscavered that wil CURE CONSUMPTION.

The most strongly marked and developed cases of Pulthe most pringly marked at a developed case of Pai-monry Consumption, where the lungs have become dis-cased and alcerated, and the case so saterly hopeless, as to have been pronounced by Physicians and friends, to be past all possibility of recovery, have been cured by this wonderful remedy, and are now as well and hearty as ever. It is a compound of medications which are pecu-liarly adopted to and essentially necessary for the cure of COUGHS AND CONSUMPTION.

Its operation is mild, yet efficacious; it loosens phiegis which creates to much difficulty, relieves the cough, and assists fragree to expel from the system all diseased matter by expectoration, producing a descinifical diseased in the breathing and chest, and this, after the pre-scriptions of the very best needed men and the laven-tions of kind and sorrowing freeds and Nurses, have int-ed to give the smallest relief to the Consumptice sufferer.

THOUSANDS OF CONSUMPTIVE persons have been deceived repeatedly in buying medi-cines which were said to be infellible cures, but which have only proved pullistives, but this medicine is not only a patintive but a cure for ulcerated lungs. It wontons no detectrious dregs, and one trial will prove its aston-baing efficacy better than any assertions or certificates in curing consumption and all diseases of the Longs, such as Spitting of blocd, coughs, pain in the side, night sweats,

About 1000 certificates atalmost miraculous cures, per About 1000 certificates of simost miraculous cures, performed by this medicine, from some of the first Doctors, Clergymen, and Metchairs, have been sent us for this medicine, but the publication of them looks too much like Quackery. The benefit of the mutual system in Life Assurance is very apparent, and is most favourable to all Policy holders in this Society, inasmuch as they receive a portion of each year's profits yearly, being deducted from the Premiums then payable, which are lower than any of the English Companies and not subject to stamp duty—all the particulars of which are fully set forth in the Pamphlets which he Agent has for distribution, who furnishes all Blanks and every necessary information, tegether with the Medical Examiner's Certificate gratis.
