WILL CURE YOU

Dyspepsia is an advanced stage of indigestion, arising from the stomach refusing to perform its normal functions. Digestion consists in the changing of foods from an insoluble form, so that they may pass through the walls of the alimentary canal and become part of the blood. The stomach keeps the food in almost constant motion for a considerable time to accomplish this purpose, and should this organ not be kept in good condition, indigestion results, to be followed in due course, if not relieved, by dyspepsia. You can keep the stomach performing its functions, and even relieve and cure dyspepsia if you get a Box at 50c from

WATERFORD

(From our own Correspondent.)
Mr. Art. McKimmon and a friend have been visiting at his father's here for a few days.

Mr. McKimmon enlisted with the 168th and went overseas two years ago. While there he was in hospital from sickness, and at last sent home. He has now been honorably discharged from the service. He has a brother "over there," Ernest, who went over about the same time, and has been at the front almost all the time.

Everything is very quiet in Waterford, and all one hears talked about is the flu. The high, public and Terrace Hill schools are closed, also the churches. We are told that the disease is dying out, somewhat around here—and that there are no serious cases developing. There have been five deaths from it so far. The first to go was Mr. Charles Updegraff, who died on Sunday, Oct. 13.

Mr. Updegraff's home had always been in Waterford until a few months ago he moved out to the country, and had only been back to Waterford a few weeks when he was taken sick. He was only about 26 years old, and his sympathy is felt for his wife and parents.

The second death from the influenza was that of Mr. Mike Matthews on Wednesday, Oct. 17, at the age of 22 years. The funeral was on Friday from his home here to Greenwood cemetery. Mr. Matthews was a Sergeant, Matthews, and went overseas with the 133rd, Norfolk's Own. He was in France for some time, and was wounded at Vimy Ridge. For a long time he was in hospital in England, and afterwards sent back home. A short time ago he received his discharge. Since his return he has been living at his home here. Among others he got influenza, but with him it developed into pneumonia, and soon caused his death. He leaves to mourn him his wife, father, mother and two brothers, Clarence, of Waterford and Percy of St. Thomas. The sympathy of many friends is extended to them.

The funeral of Mr. David Edward Howey took place from the residence of his parents, Mr. and Mrs. J. W. Howey on Sunday, Oct. 20th, 1918, to Greenwood cemetery. The deceased was 26 years old, and had always lived in Waterford, and was well known and respected. The funeral services were conducted at the house and grave by Rev. J. B. Moore. The pall bearers were members of Waterford lodge, I. O. O. F., of which deceased was a member. The flowers were numerous, among which were wreaths from I. O. O. F., sprays from wife and son, father and mother, brother Arthur and family, auntie Lily and uncle Will Cotton, Esther and Tom Cheevers, Mr. and Mrs.

Word has been received by friends here that Pte. William Shaw, of Waterford, had received a gunshot wound in the back, and was now in 23 casualty clearing station.

Mrs. Jones also received a cablegram on Thursday last that her husband, Pte. Abraham Jones had been killed in action on Sept. 30. He leaves his wife and four small children.

Mrs. Harvey Kalar has been spending a couple of weeks with friends at Windsor, Detroit and other places on a visit.

Mr. and Mrs. Odin Series have returned home after visiting friends at Mt. Pleasant, Paris, Burford and other places.

Miss Beatrice Alway of the Hospital, Hamilton, has been spending a few days at her home here. (We are glad to report that Dr. Alway is improving nicely after his recent illness.)

Mrs. Ross Hunter of Morristown, N. Y., is visiting her parents, Mr. and Mrs. James Boomer here for a short time.

Mr. Harry Cline still continues to improve after being seriously ill with pneumonia.

LONDONERS RAPID FOR ADVERTISING ZEAL.
The military authorities reject the name "Londonview" proposed to be given the new million dollar hospital to be erected south of the city, and a committee will now make a selection from a list of battle names. The military folk object to the institution being made to serve advertising purposes.

Tells How to Stop a Bad Cough
Surprising results from this famous old home-made syrup. Easily prepared and costs little.

If you have a severe cough or chest cold accompanied with soreness, throat tickle, hoarseness or difficult breathing, or if your child wakes up during the night with croup and you want quick help, try this reliable old home-made cough remedy. Any druggist can supply you with 2½ ounces of Pinex (50 cents worth). Pour this into a bottle and fill the bottle with plain granulated sugar syrup. Or you can use clarified molasses, honey, or corn syrup, instead of sugar syrup. If desired, this makes 16 ounces of a really remarkable cough remedy. It tastes good, and in spite of its low cost, it can be depended upon to give quick and lasting relief.

You can feel this take hold of a cough in a way that makes business men loosen and raises the phlegm, stops throat tickle and soothes and heals the irritated membranes that line the throat and bronchial tubes with such promptness, ease and certainty that it is really astonishing.

Pinex is a special and highly concentrated compound of genuine Norway pine extract, and is probably the best known means of overcoming severe coughs, throat and chest colds.

There are many worthless imitations of this mixture. To avoid disappointment, ask for "2½ ounces of Pinex" with directions and don't accept anything else. Guaranteed to give complete satisfaction or money promptly refunded. The Pinex Co., Toronto, Ont.

BLOOD-MAKING MEDICINE

It took centuries for medical science to discover that the blood is the life. Now, it is known that if the blood were always abundant, rich and pure, very few people would ever be ill. It was not until the end of the 19th century that an instrument was invented for measuring the red part of the blood. Then doctors could tell just how anaemic a patient had become, and with medicine to make new blood the patient soon got well.

All the blood in the body is nourished and kept rich and red by the food taken daily, but when, for any reason, a person is run down and cannot make sufficient blood from the food to keep the body in health, then a blood-making medicine is required. The simplest and very best of blood-makers suitable for home use by anyone, is Dr. Williams' Pink Pills.

When a course of these pills is taken, the good action is soon shown in an improved appetite, stronger nerves, a sound digestion and an ability to master your work and enjoy leisure hours.

For women there is a prompt relief of, or prevention of ailments which make life a burden. As an all-round medicine for the cure of ailments due to weak, watery blood no medicine discovered by medical science can equal Dr. Williams' Pink Pills.

You can get these pills through any dealer in medicine, or by mail at 50 cents a box, or six boxes for \$2.50, from The Dr. Williams' Medicine Co., Brockville, Ont.

Bert Pettit and Laurel, Mr. and Mrs. James Burns. A wife and son are left to mourn their loss. Father and mother, one sister, Mrs. H. B. Grass of Aylmer, two brothers, Arthur M., of Brantford and J. Berkey of Aylmer, are the sympathizers of many friends.

On Oct. 20, 1918, the death from influenza took place of Mr. Stafford Smith at the home of his father in this place. Stafford was only sick a few days, and in spite of all that loving care could do, pneumonia developed, and death soon came. He was the only child of Mr. and Mrs. George Smith, and leaves besides his parents, a wife and two small children, for whom much sympathy is expressed. The funeral services on Tuesday were conducted by the Rev. E. Dale of Boston, assisted by Rev. J. B. Moore and Rev. H. Caldwell. The floral remembrances were beautiful. Interment took place at Greenwood cemetery. Mr. Smith was only in his 25th year.

The fifth and last death to date from influenza was that of Mr. John Ammerman, which occurred on Monday, Oct. 21. Mr. Ammerman had not been well for some time. He was 67 years old, and so was not very strong to combat the disease. The deceased was born in Beverly township, Wentworth county, but moved here when a child, and his home has been here ever since. Rev. Frank Anderson conducted the funeral services on Wednesday. Interment at Round Plains. He leaves behind a widow, one sister, Mrs. L. Sovereign of Bellingham, and two brothers, Albert of Lynville and Edward of Ronawanda, N. Y., who have sympathy of all.

Mr. and Mrs. Webster Smith of Willsboro, spent Sunday with their daughter, Mrs. Clark Cunningham at Waterford.

Mrs. Clara Tench, who has been visiting friends in Chicago for some time, has returned to her home here. Mr. and Mrs. John Renner have returned from Buffalo where they have been visiting their grandson, Mr. E. Appleton.

We are glad to report that Mr. Peter McMartin is improving. He expects to be able to sit up in a few days.

Mr. Will Barber of Hamilton brought the remains of his little daughter here for burial on Sunday last. Mr. Barber, who is well known to Waterford friends (she was formerly Miss Margaret Evans), is very ill with tuberculosis in the sanitarium at Hamilton. Much sympathy is expressed for them in their trouble.

Mr. R. D. Gibson is working as baggageman in the absence of Mr. Roy Dunbar, who is sick with influenza.

Mrs. Wiggins, mother of Mrs. P. J. Pearce, died at Pontiac, Ill., on Saturday, Oct. 12. Mrs. Wiggins had been an invalid for a number of years and has made her home here with her daughter. A few weeks ago they went to live at Pontiac. Mrs. Wiggins caught cold on the trip, and owing to her feeble state was unable to recover.

Word has been received by friends here that Pte. William Shaw, of Waterford, had received a gunshot wound in the back, and was now in 23 casualty clearing station.

Mrs. Jones also received a cablegram on Thursday last that her husband, Pte. Abraham Jones had been killed in action on Sept. 30. He leaves his wife and four small children.

Mrs. Harvey Kalar has been spending a couple of weeks with friends at Windsor, Detroit and other places on a visit.

Mr. and Mrs. Odin Series have returned home after visiting friends at Mt. Pleasant, Paris, Burford and other places.

Miss Beatrice Alway of the Hospital, Hamilton, has been spending a few days at her home here. (We are glad to report that Dr. Alway is improving nicely after his recent illness.)

Mrs. Ross Hunter of Morristown, N. Y., is visiting her parents, Mr. and Mrs. James Boomer here for a short time.

Mr. Harry Cline still continues to improve after being seriously ill with pneumonia.

SAVE YOUR HAIR!

A SMALL BOTTLE STOPS DANDRUFF

Save Your Hair Every Bit of Dandruff, Disappears and hair stops coming out. Try this! Your hair appears glossy, abundant, wavy and beautiful. Thin, brittle, colorless and scraggy hair is mute evidence of a neglected scalp; of dandruff—that awful scour.

There is nothing so destructive to the hair as dandruff. It robs the hair of its lustre, its strength and its very life; eventually producing a few shaggy and itching of the scalp which if not remedied causes the hair roots to shrink, loosen and die—then the hair falls out fast.

A little Dandergin to-night—any time—will surely save your hair. Get a small bottle of Knowlton's Dandergin from any drug store or toilet counter for a few cents, and after the first application your hair will take on that life, lustre and luxuriance which is so beautiful. It will become wavy and fluffy and have the appearance of abundance; an incomparable gloss and softness; but what will please you most will be after just a few weeks' use when you will actually see lots of fine, downy hair—new hair—growing all over the scalp.

Dandergin is to the hair what fresh showers of rain and sunshine are to vegetation. It goes right to the roots, invigorates and strengthens them. Its exhilarating and life-producing properties cause the hair to grow long, strong and beautiful.
