A special train was run over the B. & W. on Monday, having on board Mr. James G. Leiper, of Philadelphia, Pa., president of the company. Mr. Reed A. Williams, also of Philadelphia, one of the leading shareholders on the road, Mr. Leiper and the Misses Leiper, Superintendent Money was in charge of the party. The run to Westport was made in one hour and thirty-two minutes, with two stops en route. On their return the party stopped at Junctown and took calls to Charleston Lake.

The past few days have wrought a great change in the face of the country and the prospects of the farmers. For two weeks the intense heat following the previous moisture produced a very rapid growth of all vegetation, but the dry, dry and exceptional hot spell was beginning to tell on the pasture lands and on the different crops. The copious rain of Sunday night, coming just in the nick of time, and the cool cloudy days succeeding it have revived everything and will do much to fill the fields and granaries. The hay crop will be short, for although many meadows are turning out even larger yields than usual yet in much the larger area of grass land the yield is much below the average. The corn, wheat and root crops are looking well. During the very hot weather the production of milk fell of considerably, but with refreshing rains and cooler weather a great increase in the products of the dairy is assured.

Development Work.

On Monday the Reporter had an interesting interview with Mr. A. N. Sherman, who is conducting mining operations at Charleston Lake. He has now sunk two shafts, each to a depth of eight or seventeen feet, and the vein has opened out in a highly satisfactory way. From a vein of only one foot at the surface, the vein has widened to four feet, and the ore thrown up by the last shot is apparently the richest and in every respect the most promising yet exploited.

Sherman had with him several samples of gold-bearing quartz, one of which showed small flakes of the pure metal on the surface. This piece was subjected in our presence to the most severe test known to prospectors at the conclusion of the interview the gold was unaffected while the metallic substances surrounding them were utterly destroyed. Mr. Sherman is now conducting more elaborate tests and we will be able to announce results in a few days.

B. W. & S. Ste. M. Ry. Co.

The adjourned annual shareholders meeting of the B. W. & S. Ste. M. Ry. Co. was held yesterday. There were present: Jas. G. Leiper, president; Reed A. Williams, Col. W. H. Cole, vice-pres; W. C. On July 29th there will occur an annual eclipse of the sun, visible through the United States and Canada as a partial eclipse, beginning in Washington at 8 h. 43 m., and ending at 11 h. 2 m., a.m.

The great Epworth League convention held in Toronto last week was one of the greatest gatherings which ever convened there, about 25,000 delegates being in attendance. Rev. J. Scanlon and Mr. Lewis Knowlton represented the Athens League.

The falling of a tree against it brought down the other day the old mill building at the Gamble Hotel. The old mill building was all that remained of the old homestead on the Chrysler farm, around which, on the 11th of November, 1813, a handful of British and Canadians fought and defeated an American army of invaders, setting at naught their plans for the capture of Montreal.

Mr. H. G. McDowell, humorist, comedian and actor at the Gamble Hotel, on Tuesday evening very acceptably rendered a number of comic songs in highly pleasing style. Mr. McDowell was in this section about twenty-five years ago as an agent for musical instruments and took the order for the delivery of the first piano that entered the village of Athens. It was purchased by Mr. Coleman Lewis.

Mr. A. S. MacIntyre, divinity student in charge of the Presbyterian mission at Morton, favored the Reporter with a pleasant call yesterday and arranged for advertising a concert to be held under the auspices of the United States at Morton on the 30th inst. The program will be contributed largely by members of the K. U. of Kingston, now in camp at Jones' Falls. This Union contains some of the very best musical talent in the province.

Mr. Rhodes will also be present. The programme promises a rich musical treat, and there will no doubt be a large attendance.

Registered Letters.

If you register a letter in Canada, and the letter goes astray, you lose your money. The only value of registering it is to help the government trace the thief. Whether the letter is caught or not makes no difference to your pocket. There is something a little one-sided in paying 5 cents for a register stamp merely to help the government trace a thief.

In the United States a more just law has gone into force. In future the government will pay any amount up to \$10 lost in registered letters. This is practically insurance of all registered letters. Few contain more than ten dollars.

The Late Wm. Beatty.

The Canada Presbyterian contains the following reference to the late William Beatty, of Landowne: "Mr. William Beatty died at his home, Landowne, Ont., on 28th June. He was born in Glasgow, Scotland. The family came to this country when he was fifteen years of age, and settled at first in Ramsay, county of Lanark. A few years later they removed to the township of Yonge, Leeds county. In 1835 Mr. Beatty married Miss Ellen Armstrong of the same township, and they removed to Landowne in 1862. God blessed them with a large family of sons and daughters. The eldest son is M.P.P. for Leeds, and William is M.P.P. for Parry Sound. Dr. Eliza R. Beatty is well known as one of our first and most successful medical missionaries to India. From the effects of the climate upon her health she was forced to retire from the work she loved a few years ago, and is now practicing her profession in Bradford, Ont. Another daughter is Mrs. Scott, the widow of the late W. A. Scott, of Bathurst. In 1870 Mr. Beatty was ordained an elder in the church which he has done so much to build up. He took an active interest in all local affairs; was first president of the Agricultural Society, for many years president of the Bible Society, and ever faithful and devoted in the discharge of all his duties as an elder in the church. In 1893 Mr. Beatty died, and since then his health gradually declined, until, at last, he entered into his rest—an old man and full of years, having reached the advanced age of 91 years. His children arise up and call him blessed."

Geo. Pips, son of Mr. L. Pips, fractured his arm by a fall he received on Wednesday last.

Pure, rich blood feeds the nerves. That is why Hood's Sarsaparilla, the great blood purifier, cures nervousness.

Mr. and Mrs. K. H. Redmond of New York are spending vacation in this section, guests of Mrs. Jan K. Redmond.

Mr. T. H. Morrison, graduate of the Brockville Business College, has a position as bookkeeper with the Hawkebury Lumber Co., Hawkebury, Ont.

The second week in August is looked forward to in Winnipeg as the beginning of the Manitoba harvest. It is reported that there will be a great demand for harvest hands this season.

It is said that a farmer who lives out near the mountain to the north-west of Aylmer, has discovered gold in his farm. He picked up a handful of nuggets the other day and took them to Ottawa to see if they were all right. He was told by the expert who examined his find that he had in his possession about \$4,000 worth of the genuine article. He is now waiting for the gold to be assayed.

The Eastern Telegraph Co. has been successful in its attempt to secure the control of the cable between Vancouver and Australia. The proposed cable threatened one of its most profitable monopolies, and promised to release the British colonies from the thrall of the Eastern Telegraph Co. EASTERN TELEGRAPH CO.

New York, July 18.—A London despatch to The Sun today says: "Reference was made in this correspondence a couple of months ago to the fact that the cable octopus, the Eastern Telegraph Company, had one of its heavy arms upon the Pacific cable project. When the scheme of laying a cable between Vancouver and Australia was first mooted the Eastern Telegraph Company swore that the thing should not be done. The proposed cable threatened one of its most profitable monopolies, and promised to release the British colonies from the thrall of the Eastern Telegraph Co. The Eastern Telegraph Co. was compelled to change its tactics."
