Dated at thens this 28th day of February,

That is exactly what we are giving in merchandise to

our customers during this month's clearing sale. If you will but stop to consider that our goods, at regular prices, are always the lowest in price, and in many instances sold for less than their real value, you will readily perceive that this twenty-five cents rebate on every dollar's worth of goods means more to you than a casual glance might indicate. If we were offering you old goods or clothing hastily put together for bargain sale purposes, then such a reduction as we offer would mean nothing to the economical buyer But, when you can purchase high grade clothing at an actual saving of one quarter, then you are really getting One Dollar for Seventy-five Cents.
