Chronic Catarrh

Always Catching Cold

No Return in 14 Years

PSYCHINE

(PRONOUNCED SI-KEEN)

A CANADIAN REMEDY

HOME CURES

MRS. WILLIAM GARRATT, SUDBURY, N.S.

"My daughter, when she was 5 years
old, was troubled with a very bad cold
for over six months.
She was short of breath, and seemed
to be choked up all the time.
The doctor said it was catarrh of
the head, nose, throat, lungs,
and stomach. He gave her
medicine for it, but it gave no relief.
Seeing Psychine advertised, I decided
to try it, and before she had finished
the first bottle she was as well as ever.
The catarrh never returned, although
14 years have passed away since then,
and she is now grown to young woman-
hood."—Mrs. Wm. Garratt.

The first stages of catarrh are com-
monly called catching cold. It may
begin in the head, nose, throat, lungs,
or stomach. In the majority of cases
no attention is paid to a cold until
serious complications set in. Neglect
is a sin against yourself, your friends,
and loved ones. Symptoms of catarrh,
coughs, or colds are often cured with
only one bottle of Psychine. Psychine
can be purchased at any drug store, at
\$1.00 per bottle.

RUBBER PAVEMENTS.

But for their expenseiveness it is
probable that pavements of india-
rubber would be largely used in city
streets. That, at least, is the inference
to be drawn from experience
with rubber pavements in London.
In 1881 the two roads under the hotel
at Euston Station were paved with
rubber two inches thick. This pave-
ment under heavy traffic, remained
in continuous use for 21 years. In
1902 it was renewed, having been
worn down to about half its original
thickness. Lately a rubber pavement
has been laid in the court-yard of
the Savoy Hotel, London. The cost
for covering an area of 75 by 60
feet was nearly \$3,000.

CATARRH IS CERTAINLY CURABLE.

In fact it is one of the most curable
diseases if fragrant, healing Cat-
arrhazone is used. No matter how
long you have suffered with catarrh
you can be properly cured by inhaling
the antiseptic vapor of Catarrhazone,
which strikes at the foundation of
the trouble and establishes such a
healthy condition in the system that
catarrhal germs simply can't exist.
"I suffered from catarrh of the nose
and throat for years," writes S. H.
Downie, of Plattsville. "My nostrils
were always stuffed up and I had a
most disagreeable hacking cough. Cat-
arrhazone cured me completely." Cat-
arrhazone never fails. Two months
treatment \$1.00; trial size 25c.

SEX PECULIARITIES.

A man will run as fast as he can to
cross a railroad track in front of a
train. Then he will wait until it goes
out of sight. Then he will walk
leisurely away. He seems to be all
right and probably is. That is a
man.
A woman in a street car will open a
satchel and take out a purse, take
out a dime and close the purse, open
the satchel, put in the purse, close
the satchel and look both ends. Then
she will give the dime to the conduc-
tor, who will give her a nickel back.
Then she will open the satchel and
take out the purse, put in the nickel,
close the purse, open the satchel and
look both ends. Then she will feel
for the buckle at the back of her belt.

A REMARKABLE RECORD.

Chamberlain's Cough Remedy has a
remarkable record. It has been in
use for over thirty years, during
which time many million bottles have
been sold and used. It has long been
the standard and main reliance in the
treatment of croup in thousands of
homes, yet during this time no case
has ever been reported to the manu-
facturers in which it failed to effect
a cure. When given as soon as the
child becomes hoarse or even as soon
as the croupy cough appears, it will
prevent the attack. It is pleasant to
take, many children like it. It con-
tains no opium or other harmful sub-
stances, and may be given as confi-
dently to a baby as to an adult.

AN AMILLERY DUEL.

The Fighting Will Continue Up to the
Walls of Mukden.

With the Russian Eastern Army,
via Mukden, Oct. 28.—The heavy firing
Wednesday night and yesterday
morning was only the artillery ex-
changing shots. Both firing lines are
now facing each other without out-
posts.

No Fight Since Oct. 26.

St. Petersburg, Oct. 28.—General
Sakharoff telegraphs that no general
fighting occurred since Oct. 26.

Artillerymen Fighting.

Mukden, Oct. 28.—There was an ar-
tillery fight on the night of Oct. 26
on the north shore of the Shakhe
River, directly south of Mukden. The
cannonading, which was heavy, was
continued yesterday. The Russians at-
tacking the Japanese unsuccessfully.
The fighting, it is believed, will con-
tinue up to the walls of Mukden.

Southeast of Mukden.

Mukden, Oct. 28.—Fighting began
at 10 o'clock Wednesday evening
southeast of Mukden. The Japanese
have advanced to the village of Jer-
dagan, which they are reported to
have captured after a fight lasting
until yesterday morning.

SHOOTS AT OLD EMPLOYER.

Bullet Missed Its Mark and Would Be
Murderer's Suicide.

Montreal, Oct. 28.—An extraordi-
nary tragedy occurred in John Drys-
dell's wholesale hardware store on
Craig street yesterday morning.
John Whitefield, an American from
Whitefield, Mass., who has been a
clerk in Drysdell's store for eight
months, and was recently discharged
owing to a bad reputation, walked
into the shop yesterday morning,
and, pulling a revolver, demanded
money from Mr. Drysdell.

Drysdell lost no time in moving to
the safe, but in passing whispered to
a clerk to give the alarm.

Whitefield, seeing this, at once fired
at Drysdell, and missed him. Seeing
this, the ex-clerk at once turned
round and blew his brains out, dying
immediately.

Alleged Firebugs Arrested.

Toronto, Oct. 28.—Charged with
being the perpetrators of incendiary
depravations which have for the past
year terrorized the farmers of King
township, Thomas Godson and Jo-
seph Godson, father and son, Mrs.
Hamilton Bateman, daughter of the
elder Godson, and Hamilton Bateman,
her husband, were arrested yester-
day morning. The allegation is
that they are responsible for six con-
secutive fires which since July 10th,
1903, have destroyed all the build-
ings and stacks on the farm of
James Bell, east half of Lot 23,
10th concession, King, and which in
December last were the cause of a
fruitless investigation conducted by
Government Detective Rogers and
Mr. H. H. Dewar, then Crown At-
torney of the County of York. They
were brought here and lodged in
jail. They will appear before the
magistrate to-day.

Spurned and Will Die.

Kearney, N.J., Oct. 28.—Walter
Buchanan of Winnipeg, who was
recipient of honors during the Box
war, returned here yesterday to
claim his cousin as his bride. She
spurned him and in despair he drank
poison. The dose will be fatal and
death is momentarily expected.

What He Feared.

Wife—Why, John, what do you mean
by burning our old love letters? Hus-
band—I have been reading them, my
dear. After I die some one who wish-
ed to contest my will might get hold
of them and use them to prove I was
mad.

Japs From Hull.

There is reason to believe that the
British Embassy was acquainted with
information which reached the Rus-
sian authorities some time ago of
the arrival at and subsequent de-
parture from Hull of twenty Japanese, mention of which
was made in these despatches of Oct.
25. It is pointed out that the origi-
nal version of the incident as re-
cited by the captain of the trawler
Moulinec coincides closely with Ro-
jestvensky's report.
The captain said that while the
squadron was passing he suddenly
noticed two torpedo boats which ap-
proached so near that he thought
they intended boarding him when they
saw the Russian flag. He ordered the
squadron to back for the boats, and
the boats immediately after the
squadron opened fire. According
to an account of Rojestvensky's re-
port it specifically states that there
were no torpedo boats with the
squadron when the accident occurred.
If this is true the statement of the
captain of the Moulinec would com-
pletely corroborate Rojestvensky's.

Chased By a Russian.

Stockholm, Oct. 28.—The skipper
of the Swedish steamer Aldebaran,
from Hull, England, which arrived
yesterday at Gelfo, Sweden, says his
vessel was chased in the Skagerrak
during the evening of Friday, Oct.
21, by a foreign cruiser, apparently
Russian, which threw its searchlight
on her. The cruiser, increasing her
speed, passed the Aldebaran and fired
a shot which had no effect. The
Aldebaran thereupon hoisted her flag
and the cruiser again threw her
searchlights on the steamer, and a
few minutes later hailed her and
round the Aldebaran without, how-
ever, hitting her. The Aldebaran's
skipper then ordered the steamer to
be stopped, and with his crew sought
refuge below. The foreign warship
thereupon disappeared in the dark-
ness.

What Sulphur Does

FOR THE HUMAN BODY IN

HEALTH AND DISEASE.

The mention of sulphur will recall
to many of us the early days when
our mothers and grandmothers gave
us our daily dose of sulphur and mo-
lasses every spring and fall.

It was the universal spring and
fall "blood purifier," tonic and cure-
all, and mind you this old-fashioned
remedy was not without merit.

The idea was good, but the remedy
was crude and unpalatable, and a
large quantity had to be taken to
get any effect.
Nowadays we get all the beneficial
effects of sulphur in a palatable,
concentrated form, so that a single
grain is far more effective than a
tablespoonful of the crude sulphur.

In recent years, research and ex-
periment have proven that the best
sulphur for medicinal use is that ob-
tained from salicin (Calcium Sul-
phide) an solid in form, under the
name of Stuart's Calcium Wafers.
They are small chocolate coated pel-
lets and contain the active medicinal
principle of sulphur in a highly con-
centrated, effective form.

Few people are aware of the value
of this form of sulphur in restoring
and maintaining bodily vigor and
health. Sulphur acts directly on the
liver, and excretory organs and puri-
fies and enriches the blood by the
prompt elimination of waste mater-
ial.

Our grandmothers knew this when
they dosed us with syrup and mo-
lasses every spring and fall, but the
crudity and impurity of ordinary
flowers of sulphur were often worse
than the disease, and cannot com-
pare with the modern concentrated
preparations of sulphur, of which
Stuart's Calcium Wafers is undoubt-
edly the best and most wisely used.

They are the natural antidote for
liver and kidney troubles and cure
constipation and purify the blood in a
way that often surprises patient
and physician alike.
Dr. R. M. White while experiment-
ing with sulphur remedies soon found
that the sulphur from Calcium was
superior to any other form. He says
"For liver, kidney and blood troubles
especially when resulting from con-
stipation or indigestion, five days' use
of Stuart's Calcium Wafers, will
bring the skin clear and smooth. Al-
though Stuart's Calcium Wafers is a
proprietary article, and sold by drug-
gists, and for that reason tabooed
by many physicians, yet I know of
nothing so safe and reliable for con-
stipation, liver and kidney troubles
and especially in all forms of skin
disease as this remedy."

"At any rate people who are tired
of pills, cathartics and so-called blood
"purifiers" will find in Stuart's Cal-
cium Wafers, a far safer, more palat-
able and effective preparation."

TO RETAIN YOUTH.

Simply refuse to grow old by not
counting your years or anticipating
old age.

Keep in the sunlight. Nothing
beautiful or sweet grows or ripens
in the darkness.

Avoid fear in all its varied forms
of expression. It is the greatest en-
emy of the human race.

Avoid excesses of all kinds. They
are injurious. The long life must be
a temperate, regular life.

Cultivate the spirit of contentment.
All discontent and dissatisfaction
bring age furrows prematurely to the
face.

Don't be too ambitious. The crank
of an overvaulting ambition has
eaten up the happiness of many a
life and shortened its years.—Success.

WHEN LIFE'S NOT

WORTH LIVING

Your Stomach is Out of Order and
Needs Dodd's Dyspepsia Tablets—
Story of Isaac Jenkins.

Are you afraid to eat for fear of
the consequences? Do you have pains
and aches, a feeling of despondency
or sour stomach or heartburn? Are
you restless and irritable? Is your
work a burden? Are you troubled
with sleeplessness, or is your night
filled up with bad dreams?
If you have any of these symptoms
you needn't rush off to a doctor.
Just procure a box of Dodd's Dys-
pepsia Tablets. They will fix up your
stomach and make life worth living
again. They've done it for others.
Isaac Jenkins, 116 Dundas St., Tor-
onto, says:

"I was troubled with Dyspepsia for
one year and could get no relief.
I would have sour stomach and heart-
burn and could eat no rich food. I
used just half a box of Dodd's Dys-
pepsia Tablets and am cured."

REFLECTIONS OF A BACHELOR.

Getting married is an heroic way
way to cut off the expense of being
engaged.

What in the world is it makes
a girl put on her best stockings to
have her picture taken?

When a man has to tend his own
furnace the devil gains not only a
permanent resident but an experi-
enced worker.

It's no use to get mad because
a woman is wrong in an argument,
for then she will cry and make you
say she was right.

It's the unreasonable of a woman
not to want you to hold her hand
before she is married to you and to
want you to after she is.—New York
Press.

TOMB OF CONFUCIUS.

One of the Chief Spots of Interest in
the Orient.

The city of Chufufien, the Mecca of
the believers in Confucianism, is in the
province of Shantung, one of the most
populous districts of the Orient. Here
Confucius was born, and here his
sacred bones lie buried. The tomb,
which is located in one of the largest
cemeteries in the province, about three
miles out from the city above men-
tioned, is one of the most imposing in
the whole empire.

The grave itself is surrounded by an
earth mound about twelve feet in
height, the whole surrounded by a
cluster of gnarled oaks and stately cy-
press trees. Before the mound is a
tablet about six feet broad and twenty
feet high, upon which are inscribed the
names and deeds of the great founder
of Confucianism, a religion adhered to
by over 400,000,000 human beings. The
burden of this inscription, according to
reliable translation, is "Perfect One,"
"Absolutely Pure," "Perfect Sage,"
"First Teacher," "Great Philosopher,"
etc.

The avenue which leads up to the
philosopher's tomb is even more inter-
esting than the actual place of burial
itself. On each side of the avenue are
rows of figures of huge animals cut
in stone—lions, tigers, elephants and
horses, besides numerous mythical
creatures, such as animals half dog
and half fox, beasts with four legs
and twice as many wings, besides a
multitude of unnamable monsters that
never lived on the earth, to the water
or in the air. Taken altogether, the
burial place of Confucius is one of
the chief spots of interest in the or-
ient.

AFTER ALL.

The apples are ripe in the orchard.
The work of the reaper is done,
And the golden woodlands redden
In the blood of the dying sun.

At the cottage door the grandsire
Sits pale in his easy chair,
While the gentle wind of twilight
Plays with his silver hair.

A woman is kneeling beside him:
A fair young head is pressed,
In the first wild passion of sorrow
Against his aged breast.

And far from over the distance
The faltering echoes come
Of the flying blast of trumpet,
And the rattling roll of the drum.

And the grandsire speaks in a whis-
per:
"The end no man can see:
But we gave him to his country
And we give our prayers to thee."

The violets star the meadows,
The rosebuds fringe the floor,
And over the grassy orchard
The pink-white blossoms pour.

But the grandsire's chair is empty,
The cottage is dark and still:
There's a nameless grave in the bat-
tle field,

And a new one under the hill.
And a pallid, tearless woman
By the old hearth sits alone,
And the old clock in the corner
Ticks on with a steady drone.

—William Winter.

ETIQUETTE OF DATE.

Mr. Depew's humorous speeches
read so well that nobody misses one
of them if he can help it; but it is
impossible for cold type to suggest
the inimitable manner with which
they are given. A mature maiden
once called upon him at an hour
when his time was worth about a
dollar a second and asked his advice
about buying a certain bit of real
estate. He evasively answered that
there was two things of which he
knew absolutely nothing; they were
women and real estate.

This amused her so greatly that she
lingered instead of going away, and to
prolong her stay, she asked about a
mutual acquaintance—"Where is Mr.
Blank, Mr. Depew?"

"Is still in the city."
"Does he stammer as much as he
did?"

"Oh, yes; worse I believe."
"Strange he never married."

"No, it was not strange, my dear
maiden. Blank married a lovely girl
—he told me of it years afterwards
—and this is the way he proposed."
Then Mr. Depew looked soulfully at
his visitor and stammered—"D-d-
dear A-a-angel, I-I-I-I-I love y-you
and the woman replied—"You need
not proceed further, Mr. Blank. I
do not care to be wooed on the in-
stalment plan." But the visitor had
fled too rapidly to get the benefit
of the joke.

WHAT SYMPATHY IS.

To be truly sympathetic we should
be able to identify ourselves with
the interests of others that we can
have a thorough appreciation of their
point of view, and can understand
their lives clearly, as they appear to
themselves; but this we can never
do if we are immersed in the fog-
either of their personal selfishness or
our own. By understanding others
we can talk in ways that are, and
seem to them, rational, and gradu-
ally lead them to a higher stand-
ard.

If a woman is in the depths of de-
spair because a dress does not fit, I
should not help her by telling her the
truth about her character, and lectur-
ing her upon her folly in wasting
time upon trifles when there are so
many serious troubles in the world.
From her point of view, the fact that
her dress does not fit is a grief.
But if I keep quiet and let her see
that I understand her disappointment,
and, at the same time, hold
my own standard, she will be fed
much more easily and more truly to
see for herself the smallness of her
attitude. First, perhaps, she will be
proud that she has learned not to
worry about such a little thing as a
new dress; and, if so, I must remem-
ber her point of view, and be willing
that she should be proud.—Leslie's
Monthly.

A THEORY PROVED

A NEW IDEA WHICH MEANS A
GREAT DEAL IN THE TREAT-
MENT AND CURE OF DISEASE.

Dr. Leonhardt, of Lincoln, Neb., the
foremost physician of the Western
States, has put forward a new theory
as to the cause of disease. He says—
"There can be no doubt, from the
evidence at hand, that the stomach
is and has always been the first cause
of ninety per cent of all the illness of
mankind. The failure of the stomach
to digest the food properly results in
fermentation and decomposition, and
the poisons arising from the foul and
rotting mass get into the blood and
tissues and nerves and breed diseases
of every kind."

Dr. Leonhardt has found a remedy
for indigestion, Dyspepsia, Bilious-
ness and Constipation. He has tried
it in thousands of cases without a
single failure.
He calls it Anu-Yill. It is sold at
50c. by all druggists, or The Wilson-
Fyle Co., Limited, Niagara Falls, Ont.

LIFE'S MIRROR.

There are loyal hearts, there are
brave,
There are souls that are pure and
true,
Then give to the world the best
you have,
And the best shall come back to
you.

Give love, and love to your heart will
flow.
A strength in your utmost need:
Have faith and a score of hearts
will show
Their faith in your word and deed.

For life is the mirror of king and
slave,
'Tis just what you are and do;
Then give to the world the best
you have
And the best will come back to
you.

The fellow who loses his temper
doesn't have to advertise for it.

The average man is apt to think
that he is a little above the average.
