HE FEELS LIKE  
A NEW MAN

He Tells How Dodd's Dyspepsia Tablets Braced Him Up, Cured His Indigestion and Made a New Man of Him.

"If I could only live without eating I should be perfectly happy," says the poor dyspeptic, "but the moment I put a morsel of food in my stomach the trouble begins." That's just it. So long as the stomach is empty there is no pain, but the moment it is filled with food, then all the trouble begins. Now this is just where Dodd's Dyspepsia Tablets score. They assist in digesting the food, thereby giving the tired, worn out stomach a rest. "I was bothered with indigestion for years," writes Mr. Charles W. McBeth, of Ripples, Sheffield, Sunbury Co., N. B., "and could find nothing to cure it. Everything I ate seemed to lie like a weight on my chest and made me feel restless. But I was advised to try Dodd's Dyspepsia Tablets and I found them a wonderful medicine for they cured me completely."

## Wreck at Merriton.

St. Catharines, April 25.—Merriton, about 2 o'clock yesterday afternoon, was again the scene of an accident on the Grand Trunk Railway. While no lives were lost the wreck was disastrous so far as the rolling stock is concerned.

## WHEN SEVEN MEN DIE,

You know at least one of them had Consumption. At first it was only a cough, but it grew worse. When Catarrh comes so quickly it is foolish to suffer—it is a shame to keep on sniffling and hawking. Very pleasant, and safe, too; get Catarrh gone from your druggist to-day.

Some doctors go so far as to say that this is the national disease of America. There is but one national remedy for indigestion and that remedy is Dr. Hamilton's Pills, which accelerate the action of the gastric glands and give tone to the digestive organs. ## THE TONIC OF HEALTH

Must be more than a stimulant—must be a food as well. There is one medicine that is both a food and a tonic—it aids digestion, promotes assimilation, converts food into nutriment that builds up nerves, blood, brain and bone. That tonic is Ferronine, which contains exactly what a run-down system needs. Ferronine supplies oxygen to purify the blood, phosphorus to develop the brain, iron to harden the muscles. No wonder it makes such vigorous men and women. You'll eat, sleep, think and feel better by using Ferronine; try it—now. Fifty cents buys a box of fifty chocolate coated Ferronine tablets, at all dealers.

## MACKAY CHIEF CRITIC

Most Contentious Clauses of Mines Bill Held Over.

New Mining Bill, However, Is Practically Passed in the Committee of the Whole House—Hon. Frank Cochrane Reaffirms Government's Position That There Will Be No Royalties—Money-Raising Bill.

Toronto, April 25.—The Government's mining bill was taken up in committee of the Legislature yesterday afternoon.

Mr. Mackay objected vigorously to the passing of clauses dealing with the conditions under which patent rights would be granted, arguing that the question of the right of the province to receive certain profits could not be clearly defined until the other mining bill was brought down.

Hon. Mr. Cochrane replied that no one with experience in mining would invest capital in a mine unless some title was held.

No Royalties. "I may say there will be no royalties" was his answer to Mr. Mackay's objection that while this exemption would be all right for struggling prospectors, it would be a disaster to the province should revenue be lost in the case of a man who stumbled upon a million dollar deposit. The Government should get a substantial share.

Mr. Whitney intimated that the provisions of the supplementary bill relating to patents would be along the lines of the one before the House.

At the request of Mr. Gamble, who had doubts of its merits, the clause allowing free public inspection of alleged discoveries of deposits before an official certificate had been granted, was allowed to stand.

The formal reading of the bill in committee was concluded, a number of the more contentious clauses remaining over.

Third Readings. The following bills were read a third time: Respecting the Town of Port Hope (Preston); to amend the Ontario Medical Act (Beck); respecting local municipal telephone systems (Beck).

Second readings were given Hon. Dr. Fry's bill respecting the education department, and to amend the Public Schools Act.

On the House going into committee on Col. Matheson's bill for raising money on the consolidated revenue fund of Ontario, Mr. Harcourt advised making the bonds payable, both in England and in Canada. The Treasurer replied that the intention was to make them payable in Canada only.

He also said that the bonds would not be liable for death duties in England, but they would be liable to income taxes.

Kakabeka Dispute Ends. Toronto, April 25.—The Wegg-Jenkinson combination has finally won out in its battle with the Cleggus interests over Kakabeka Falls water-power, the private bills committee of the Legislature yesterday threw out, by a large majority the Kakabeka Falls Land & Electric Co.'s bill.

## CAZAR TO OPEN PARLIAMENT

Will Leave Shelter of Tsarsko-Selo On Writ of Habeas Corpus—General Amnesty For Political Prisoners.

St. Petersburg, April 25.—After much hesitation, Emperor Nicholas has finally decided to convoke the Duma and personally open the first Russian Parliament, May 10. His Majesty's decision comes as a surprise, as it was supposed that after his long absence from the capital, he would not dare to leave the shelter of the Palace of Tsarsko-Selo. But Premier Witte and other advisers urged that it would be a great blunder to miss such an opportunity.

It is rumored that the Emperor, in greeting Parliament, will announce general amnesty for political prisoners.

## MADE FROM NATIVE ROOTS.

## SAFE AND RELIABLE.

That the roots of many native plants, growing wild in our American forests, possess remarkable properties for the cure of human maladies is well proven. Even the untutored Indian has learned the curative value of these roots.

He taught the early settlers their uses. The Indian never liked work so he wanted his squaw to get well as soon as possible and he taught her the use of the roots.

Therefore, he dug "papoose root" for her, for that was their great remedy for female troubles. Dr. Pierce uses the same root—called Blue Cohosh—in his "Favorite Prescription," skillfully combined with other agents that make it more effective than any other medicine.

## PRELUDE TO REVOLUTION.

Fears Expressed Over Coming May Day at Paris, France.

Paris, April 25.—The gravity of the strike movement throughout the country momentarily has improved, but the people have been wrought up to a state of apprehension concerning the imminence of a crisis. May 1, when all the ranks of labor will make a gigantic eight-hour demonstration.

The garrison at Paris is being rapidly strengthened, and it is expected that 10,000 troops will be available here May 1.

In the mining regions there is another camp in which an army corps is ready for eventualities.

The labor organizations do not conceal the fact that it is their intention to make a supreme effort.

Some of the newspapers freely assert that the movement is the prelude of a revolution in which the proletariat intends to overthrow the existing regime.

## "DON'T KICK THE CORPSE."

Opposition Magnanimous in Face of Government's Backdown on North Atlantic Trading Co. Contract.

Ottawa, April 25.—After the ignominious backdown of the Government Friday night, several members called out "Don't kick the corpse," as F. D. Monk (Jacques Cartier) rose yesterday to reply to the Minister of the Interior. At the time, Mr. Monk appeared to realize that humanity required him to withhold his hand and he contented himself with saying that the announcement which the Minister of the Interior had made reminds me a little of the story told in one of his novels by Charles Dickens. When a witness was asked, "Were you ever kicked down stairs?" he replied, "I was once pushed rudely at the head of the stairs and came down a little faster than usual; that is all." Hence the debate was adjourned without further comment.

Yesterday it was decided to hold a postmortem partly to accommodate Mr. Ross, Liberal (Yale-Caribou), who insisted that life was not extinct, and protested against the North Atlantic Trading Co. being buried alive. The Opposition seized the opportunity thus afforded them, but when the debate was finished, Mr. Ross protested against premature burial. It is the Government now who want the matter hushed up, but the committee on public accounts has subpoenaed Mr. Preston and the end is not yet.

"Bring in the Government." When the House convened for recess last night not a single Minister was in his seat.

"Bring in the Government," cried Mr. Taylor (Leeds), the Conservative whip. Some one suggested that the "Government" was lost. At 3:15 Hon. Mr. Oliver entered the House amid ironic cheers from the Opposition.

Mr. Northrup resumed his address on the trading company's grant, and was followed by Mr. Bole of Winnipeg, Mr. Perley (Argenteuil) and Mr. Bureau, Liberal (Three Rivers and St. Maurice). The Lord's Day Act.

The transportation interests appeared yesterday morning before the Lord's Day Act committee in opposition to the strictures which the measure would impose. David McNeil, vice-president of the C. P. R.; F. H. McGuigan, fourth vice-president of the Grand Trunk; C. W. Spencer, of the Canadian Northern; Mr. Stout, manager of the Dominion Express Co.; Francis King, Kingston, representing the Dominion Marine Association; Mr. Meredith, Montreal, for the shipping federation of Canada, and C. J. Smith of the Richelleu and Ontario Navigation Co., were the speakers. Dr. Black, M. P., urged that a day of rest be established for sanitary reasons. The committee adjourned until to-day.

Supplementary Estimates. Just before the House adjourned last night Mr. Fielding, Minister of Finance, presented supplementary estimates amounting to \$2,345,382.

This brings the total estimates for the year ending June 30, 1906, to about ninety million dollars.
