## MRS. KYLE JUSTIFIED

Verdict of the Jury "Not Guilty" in Killing Magee.

When Verdict Was Announced Judge MacMahon Announced Concurrence, and, Turning to the Accused, Said: "You Are Discharged." Whereat the Large Audience Present Spontaneously Applauded.

Woodstock, Oct. 4.—After three hours' deliberation the jury in the Kyle case returned a verdict of not guilty at 9 o'clock last evening. "We believe the woman was perfectly justified in doing what she did," were the words of the foreman.

"I thoroughly concur in your finding," said Judge MacMahon, who, turning to the accused, said: "You are discharged." With spontaneous applause the large audience present showed their approval of the verdict.

Throughout the entire day Mrs. Kyle faced the ordeal with calm, almost defiant air, but the verdict brought to her face a look of relief.

The trial presented no sensational features. Magee was proven to be a worthless character and a betrayer of women.

It was shown that he had taken liberties in the Kyle home and had received no encouragement from Mrs. Kyle.

Judge MacMahon's address was strongly in favor of acquittal.

### BURNED BY LIGHTNING.

Three Erin Men Have a Very Narrow Escape From Being Killed.

Guelph, Oct. 4.—During the thunderstorm Monday morning Ronald Letich, Erin, narrowly escaped being killed by lightning.

He, his father and the hired man were on the stoop of the house watching the storm, when all at once the three were prostrated from a shock of electricity.

Ronald suffered most. The fluid ran down his back, burning it severely, tearing the boots off both feet and one of his socks.

The other two men, although stunned for a time, are not, it is supposed, seriously injured.

The lightning ran into the cellar and made a big hole there.

TO A COMMISSION OF THREE. Newfoundland Premier's Choice For Boundary Settlement. London, Oct. 4.—Sir Robert Bond, in the course of an interview, stated that the Newfoundland Government had not yet considered the despatch from the Canadian Government regarding a decision upon the Labrador boundary line being left to the Privy Council, consequently the statement made that the matter was left to the Privy Council was incorrect.

Personally he is of opinion that the course agreed upon at the Halifax conference in 1892 would be preferable, or it might be more satisfactory to submit the question to a commission of three, one to be appointed by each of the contending parties, and the third by His Majesty's Government.

WESTMAN BROS. Big Hardware

## OPINION OF SCHOOL BOARD

Continued from Page One.

an account from McCall Bros. for oil. He thought being that we have a local dealer in oil, W. W. Scane, that purchases should be made from him.

Mr. Robertson replied that he had given the order to McCall Bros. and it was merely an oversight that it was not ordered from Mr. Scane. The oil that had been purchased from Mr. Scane barely did the work in the Central and more oil had to be purchased in order to oil the floors in the McKeough school.

A letter was received from the secretary of the Library Board quoting \$5 a month as the rental for the library auditorium where one of the classes of the Central school is being held—Fyler.

CENTRAL SCHOOL DRAINS. Mr. Robertson for the special committee on improvements to the Central school drainage, reported that in times gone past the drains have been flooded with each heavy down pour of rain. A new system of drainage has been installed by Mr. Besset, and it is, in Mr. Robertson's opinion, one of the best systems ever put down in the city. There has not been one drop of water in the basement since it was placed in running order. The committee also asked power to tint certain walls in the school.

The report was adopted. The report was adopted to grant the Central school \$25 for music during their fair.

The invitation to meet the Minister of Education, who comes to Chatham to present The Planet Junior essay medals and open the Central School Fair on October 24th, was accepted.

Tenders were received for heating the new addition to the Central.

Mr. McArthur objected to awarding the contract until the committee which was appointed to meet the Steam Heating Company made their report.

Mr. Bensen for this committee reported having met the company, who were willing to lay their pipes to the school and heat the addition this year by metre providing the School Board will accept a reasonable tender for heating the whole school the year following. It would not pay them to lay down their pipes to heat the addition alone.

The tenders had been opened by the Central school managers and Mr. McArthur objected to this irregularity, as they should have been opened at the Board meeting.

It was decided not to make the figures in the tenders public and to call a special meeting of the Board Wednesday night (to-night) to deal with the heating of the Central school.

Mr. Robertson recommended that Mr. Edwards, janitor of the Central, receive an increase in salary from \$23.80 a month to \$30 a month.

Mr. McArthur objected to this, as he understood the janitor devoted only part of his time to attending to duties at the Central, while a

janitor who devoted all of his time at the McKeough school only received \$10 more a month. He thought men should be well paid, not the scale for paying them should be made as fair as possible. This matter was also laid over until to-night.

The inspector's report was read and adopted.

PAINT ABOUT THE HIPPS. It is a common complaint with women. The right treatment is Nerviline, which penetrates to the source of the pain immediately. Nerviline warms and soothes the affected parts, draws out the irritation and pain, allows the patient ease after one rubbing. No liniment so economical and safe. Nearly fifty years in use, and the demand immensely greater every day! Nerviline must be good.

IT HEALS THE LUNGS. When the antiseptic vapor of Catarrhoxone is inhaled it spreads through the breathing organs, carrying healing and health to the sore spots. An irritable throat "Catarrhoxone" cures in five minutes, bronchitis, it soothes instantly, weak lungs are fed and quickly nourished back to health. To be free from colds and coughs, to avoid catarrh and bronchitis—use Catarrhoxone; it is prescribed by more than twenty thousand physicians in America alone, and used by the people of nine nations.
