

Dreaded Form
Kidney Disease

I Brown, English River, Ont. for three years I suffered from blood, partaking of the nature of the bladder, or gravel, and which I endured as a steady ailment. I was unable to do any work, and I received no relief, and at last I would never be able to do so.

This condition I was advised to take Dr. Chase's Kidney-Liver Pills, and I had no faith in them I gave them a fair trial. After taking five boxes I feel as if I had no more discharge of blood, and I am able to do my work as usual. I received five boxes of Dr. Chase's Kidney-Liver Pills, one box at a time, at all dealers, Bates & Co., Toronto.

Her without even a greenish man. I had no faith in them I gave them a fair trial. After taking five boxes I feel as if I had no more discharge of blood, and I am able to do my work as usual. I received five boxes of Dr. Chase's Kidney-Liver Pills, one box at a time, at all dealers, Bates & Co., Toronto.

The Four-leafed Clover.

You wish to know the legend of the little four-leafed clover?

And why it brings good luck to her who wears it in her shoe?

Well, listen, then, I'll tell you, for I've thought the matter over—

Thank you—I'll take that mackerel beside the fire and heat it.

When Hope, and Faith, and Charity, three sisters happy-hearted,

Went roaming through this land of ours from distant sea to sea,

Beneath their hasting feet the little three-leafed clover started

To thring, and grow, and blossom over hill and daisy lea.

A leaf for each, you see, my dear, trifling emerald things,

As fresh and bright and beautiful as ever they could be.

But now came one more lovely fair, a fair and radiant being,

Whose form and feature far outshone the beauty of the three.

With outstretched wings of rainbow hues and eyes that glowed all unceasing

Were bright as Hope's and clear as Faith's and kind as Charity's.

He scarcely touched the verdant fields as he went flying over

The wide, wide world from east to west, to find the maiden three;

But where he stopped, now here, now there, a knowing little clover

Added a leaf named "Love" to Hope and Faith and Charity!

And that is why (because the leaf belongs to all true lovers)

That, should you wear it, dear, within your dainty little shoe,

'Twill be a magic talisman whereby you may discover

The one you are to love, the best—the one who will be true to you.

But, dear, the most mysterious thing about this four-leafed clover

Is that not one, but every leaf, must always be true to you.

Unless you lose the charm it lost, so think the matter over—

To keep Love, enter into sweet Hope and Faith and Charity!

The Professor's Way.

Professor Sweetzer, naturalist for a certain New England college, was a little man.

He was round shouldered, and he wore goggles for his eyes.

He was arrived at the age of fifty-five without having loved.

As between bugs and beetles and wasps, he was only on rare occasions and when under the stress of excitement that he took the slightest notice of the other sex.

Even when he did sit up and take notice of half an hour later what he said or whether he had red hair or black.

On a certain day it came to the ears of Professor Sweetzer that a portion of the vertebrae of a whale had been found on a farm in Connecticut.

He arrived on the spot next day and verified the find.

On an occasion thousands of years before an old bull whale had decided to take a trip inland and through some error of judgment had left his bones in a gravel pit.

A piece of the backbone six feet long had been uncovered.

The professor wanted to excavate for the rest. Where there is six feet of whale you can take it that there is more.

He engaged board at the Widow Webb's and hired a man to wield the pick and shovel and thus went to work.

The Widow Webb was fat and forty and childless. She was worth a stony farm and \$600 in cash.

A still older sister lived with her, and the farm work was done by a hired man with the good old-fashioned name of Hiram Stebbins.

Hiram was thirty-five and drank nothing stronger than cider, but he thought deeply. One of them was if he married the widow he would become the possessor of the farm and \$600.

DON'T FORGET THE "ACADIAN,"

Wolfville, FOR POSTERS.

THE DOZEN BUMBLEBEE had been hopping mad and calling each other names for the two days.

The cover was no sooner off when they swarmed to get room to square off.

As they caught sight of the professor and the widow, however, the hatchet was instantly buried.

There was a wild swoop followed by wild yells. Old seven spot led in the fray.

He was who lifted the professor over the veranda rail and let him drop among the hollyhocks while the rest were paying the widow attentions.

The professor ran and was followed, the widow shrieking and was stung again and again.

It was not until Hiram rushed out with smoke and flame that she was rescued and a neighbor woman sent for to treat the lumps and bumps and put her to bed.

The professor returned not. Old seven spot wouldn't let him. No news came from him as the hours of the night wore on, and Hiram wondered, but the next morning the widow received a note reading:

"My dear child, please send my satchel by bearer. I'm off after more bones. The turtle, as I meant to have told you, is utterly without ambition."

"Waal," said Hiram to himself as he worked in the cornfield that day, "there was the professor and me and the widder and the bumblebees, and if I hadn't come out top o' the heap, who has?"

Anxious Moments. THOUSANDS OF LITTLE ONES DIE DURING THE SUMMER MONTHS.

Every mother of small children knows how fatal are the summer months. Dysentery, diarrhoea, cholera infantum and stomach troubles are alarmingly frequent at this time and too often a precious little life is lost after only a few hours illness.

The mother who keeps Baby's Own Tablets in the house is safe. The occasional use of Baby's Own Tablets prevents stomach and bowel troubles, or if the trouble comes unawares, the Tablets will bring the little one through safely.

Mrs. Geo. Robb, Aubrey, Que., says:—"I have used Baby's Own Tablets for stomach and bowel troubles with the best results. I feel quite safe when I have the Tablets or by mail at 25c. a box from The Dr. Williams' Medicine Co., Brockville, Ont."

Keep the Eyes Clear. The eyes have a very important part in making a face good to look upon, or the opposite.

While nothing can safely be done to alter the shape or color, a most attractive clearness will be the result of proper attention to hygiene, exercise in the fresh air, and of a healthful tone of mind, for it must be remembered that the eyes are "windows," through which the spirit looks out.

Abuse of the eyes in childhood is responsible for many unattractive and diseased eyes. It is well to remember at all ages that, when reading, the light should always be steady—not the flickering flame of a candle—and from the side.

This last point is important, and much better than having the light at the back. A great mistake is to have an unslated lamp on the table by which to read, and a still greater mistake is to keep on using the eyes after they are tired.

Bathing weak eyes in boracic water at night is good; but never should be beguiled into using lotions or drugs that are manufactured for the purpose of making the eyes seem bright through dilation of the pupil.

Massage by circular movements at the side of the eyes, and as the beauty of any eye is spoiled by puffiness, place the fingers against the nose, and draw them lightly toward the temples, passing under and above—but not over—the puffy places.

As to clipping the eyelashes, in some cases the growth will be encouraged in this way, but in all cases the delicate point of the lash, which, in itself so small, is so effective, is sacrificed, and, moreover, the clipping must not be attempted by any but a specialist in such "beauty" operations.

The eyebrows should be brushed daily, in the shape of an arch, tapering to a point at the end over the outer corner of the eye.

Always sleep in a fairly dark room; no direct light should strike the eyes while sleeping.

Best Medicine in the World for Colic and Diarrhoea.

"I find Chamberlain's Colic, Cholera and Diarrhoea Remedy to be the best remedy in the world," says Mr. C. L. Carter of Skirum, Ala. "I am subject to colic and diarrhoea. Last spring it seemed as though I would die, and I think I would if I hadn't taken Chamberlain's Colic, Cholera and Diarrhoea Remedy. I haven't been troubled with it since until this week, when I had a very severe attack and took half a bottle of the twenty-five cent Chamberlain's Colic, Cholera and Diarrhoea Remedy, and this morning I feel like a new man. For sale at BARN'S DRUG STORE."

For that Dandruff There is one thing that will cure it—Ayer's Hair Vigor.

It is a regular scalp-medicine, which regularly destroys the germs which cause this disease.

The unhealthy scalp becomes healthy. The dandruff disappears, had to disappear. A healthy scalp means a great deal to you—healthy hair, no dandruff, no pimples, no eruptions.

The best kind of a testimonial "I used for over sixty years."
