COURT MARTIAL IN THE CANTEEN CASE

Evidence Shows Col. McAvity Withdrew \$889.83 from Funds, Loaned \$7,000.

St. John, May 10.—The court martial which is investigating alleged irregularities in the conduct of the Depot Battalion canteen met again yesterday in sessions which commenced at ten a. m., and concluded at 5.38 p. m.

Capt. F. W. Campbell, secretary of the newly organized regimental fund board, was the next witness. His evidence concerned the condition of the canteen committee finances as he found them to be from November last to the present time. From his evidence it was shown that though the accused (the O. C. of the Depot Battalion) had withdrawn about \$889.83 from the canteen funds, he had made a personal loan of \$7,000 to the canteen committee to meet the pressing claims of various merchants from whom goods had been purchased. The accused seemed to rely upon the other members of the canteen committee for the proper conduct of the canteen.

Andrew Forsythe, manager of the Sussex branch of the Bank of Nova Scotia, and William A. Clarke, accountant at the Prince William street branch of the same institution, also gave evidence respecting the identity of certain pass books, cheques and deposit slips which enter into the case and are embodied in the official charges.

Court adjourned to meet this morning at ten o'clock.

THE EMPLOYMENT SERVICE COUNCIL

Convention to Be Held at Ottawa May 12 to 14—Moncton Sends Delegate.

Moncton, N. B., May 9.—Ald. C. H. Melanson, President of the New Brunswick Federation of Labor, leaves this afternoon for Ottawa, where he will attend the first session of the Employment Service Council of Canada, which meets May 12th to 14th. Each province of the Dominion with the exception of Prince Edward Island, has delegates nominated to attend this important gathering. In addition to the provincial delegates, there will also be a representative from Brotherhoods, Great War Veterans' Association, Railway War Board, Canadian Manufacturers' Association, Trades and Labor Council, Department of Labor and the Soldiers' re-establishment Branch.

Ways and means of co-operating with employers and employees with a view of preventing unemployment, will be among the important matters taken up at the conference, as well as many other questions which call for action on the part of the council.

The Employment service council was created by Order in Council last December, and is regarded as a move that will go a long way towards solving many of the difficulties existing between the employer and employee. Labor leaders all over Canada speak in the highest terms of the action of the Dominion Government in providing for a conference of this nature, and considerable change in the order of things is regarded as a certain outcome of the sessions.

MARYSVILLE BOY HURT IN ENGLAND

Word Received that Gunner Fred Stafford Had Been Accidentally Wounded.

Marysville, N. B., May 10.—The box social and entertainment held by Marysville Lodge, No. 18, Knights of Pythias, in their hall on Thursday evening, was in every respect very successful. An attractive programme, consisting of selections by Kingsley's orchestra, solos by Miss Edith Staples and Miss Minnie Titus, and readings by Miss Christine Stafford, was rendered. Each number was heartily enjoyed. During intermission the boxes were sold, and upwards of \$50 was realized. A social hour was spent in disposing of the very tempting specialties which the ladies had provided. The exterior of the boxes were beautifully decorated, and the contents of each was a marvel in the culinary line. The proceeds will be devoted to the Pythian War Relief Fund.

That a sewer is needed very much at the eastern extremity of Britze street cannot be denied. The conditions in that section are both highly unsanitary and discreditable to the last degree. There seems to be a difference of opinion as to who should install the sewer, but as it is off the public street, it should not take long to think it out.

What You Get for the Last \$10

WHAT is it worth to you that your C.C.M. will be running more smoothly after long use than many ordinary wheels do when new—that it will still be giving sturdy service years after an inferior wheel is played out—that fewer repairs are needed owing to C.C.M. sincerity of workmanship in every part—that in case of accident, you can get C.C.M. service almost everywhere in Canada?

Imagine getting all this extra service for the last ten dollars you pay! Spread over the much longer life of your C.C.M., the cost to you is but a trifle!

C.C.M. Bicycles

Every running part of a C.C.M. bicycle is made true as a watch. And it keeps true. Every rider of an ordinary wheel has felt the hard pedalling caused by inaccuracies in the crank-hanger—the power plant of a bicycle. He feels an alternate looseness and tightness, indicating friction and loss of driving power. In C.C.M. bicycles the parts subject to wear are not stamped out but are accurately machine ground. Not a whit of driving power is lost.

And the "Hercules" Coaster Brake! All C.C.M. bicycles have it. It is the only brake without a side arm. Lightest and simplest of all brakes, the Hercules is sensitive, sure and powerful. The clutch engages with utmost smoothness. We back this brake with a hard and fast guarantee.

Look at a C.C.M.! After years of hard use its graceful lines are still enhanced by the sparkle of its brilliant enamel. The handle bars, and all bright parts, defy the rain—these are nickelled over a heavy coat of copper—and copper can't rust.

There's a C.C.M. dealer not far away.
