Streets Through Night.

(Associated Press by Leased Wire.)
Londonderry, April 20.—Quiet prevailed here last night despite the expectations that the rioting of Saturday and Sunday evenings would be renewed. The night passed without the semblance of a disturbance.
The prevalence of peaceful conditions was brought about by an arrangement between the authorities and the Roman Catholic priests, by which the police were removed from the neighborhood of the recent rioting. Two priests taking the places of the officers and remaining on patrol all night, the clergy using their influence with the people and urging them to go home and to bed. The plan worked admirably, the priests, having the streets virtually to themselves all night long.

Creating Havoc.

(Associated Press by Leased Wire.)
Little Rock, Ark., April 20.—Fifteen persons are known to have been killed and a score or more seriously injured by tornadoes which swept over north and western Arkansas late Sunday night, according to reports reaching here yesterday.
Wire communication in the storm district was seriously impaired, and it was believed last night that the services would increase the number of casualties.
Apparently there were two tornadoes. One twisted through four counties in western Arkansas while another wrought destruction in one of the northernmost counties of the state. Reports had indicated the tornadoes had cut a path about 100 yards wide through the four western counties.

GAVE NO NOTICE TO OPERATORS

Ask 6 Hour Day and Release of Political Prisoners.

(Associated Press by Leased Wire.)
Butte, Mont., April 20.—The streets of the city were thronged yesterday with idle miners, who waited out in response to a call of Industrial Workers of the World, local number 800, or were warned away from the mine by I. W. W. pickets.
Mine officials announced that approximately seventy per cent. of the miners had quit work, while the leaders of the I. W. W. asserted 85 per cent. were out. Between 15,000 and 14,000 men are out at the various mines in the Butte district, mine officials estimated.
Mining officials state that no demands were presented formally by the strikers. Their first intimation of the walk-out was contained, they declared, in handbills announcing "the strike is on."
The mine contained demands for the release of all industrial and political prisoners, a six hour day, a minimum wage scale of \$7 a day for all miners; abolition of the rustling card; abolition of contract, bonus and efficiency system; two men to work on all machines, and two men to work together in all workings.

NEW YORK, April 20.—Charged with making an unlawful profit on the resale of sugar, E. R. Shurburne, member of a Boston States Commissioner Hitchcock.
The complaint, which was made by members of the government's "flying squadron," alleges Shurburne purchased 960,000 pounds of San Domingo sugar from a produce firm at 16 1/2 cents a pound and resold it for 21 3/4 cents a pound. The complaint alleges that Shurburne made \$40,000 more than a reasonable profit by the transaction. Shurburne was held in \$1,000 bail.
The "flying squadron" also charged John McElroy, a produce merchant, with profiteering in potatoes. Government agents claim McElroy purchased potatoes at \$5.35 a hundred pounds and resold them at \$8.33 a hundred pounds. He furnished \$1,000 bail.

The Canadian Sugar Refining
Interest Conferring With the
Government Over Control

Some Difference of Opinion as to Whether the Government Should Cease Control of Sugar Exportations—An International Phase of the Situation to Be Considered.

(By Canadian Associated Press.)
Ottawa, April 20.—Representatives of the sugar refining interests in Canada have been here under summons from the Government, to consult as to the advisability of removing control from sugar, the export of which is still under Government regulation after a year measure. There is also involved a situation which may have to be discussed internationally.
It is understood that the Government has been advised by nearly all the refiners that they are not desirous that control should be continued, as it is the home market they are mainly concerned with, but there is one of the refiners in Canada understood to be anxious that control should be maintained.
Mr. Dike, of the Muller & Co. Company, Limited, of Chicago, American sugar importers, is in Ottawa, arguing that control should be removed, and claiming that certain Canadian refiners are sheltering themselves behind it in refusing to carry out contracts made for the supply of granulated sugar.

(By Canadian Associated Press.)
Toronto, April 20.—Toronto's appeal against the increase in rates by the Bell Telephone Company has been prepared. The city points out that the increase in rates amounts to about \$90,000 a year, and contends that the company's financial position contradicts the company's contention that the increase was needed to meet an emergency. The city's memorandum cites figures to substantiate the contention that no emergency has existed, that the company has made errors in its calculation which vitiate its conclusions, and that the judgment in the company's favor is not founded on the evidence submitted.

(Associated Press by Leased Wire.)
Chicago, April 20.—A request for a temporary increase in wages of one dollar a day, with time and a half for overtime after eight hours, Sundays and holidays, pending the decision of the Railroad Labor Board on original wage demands, was made last night by the General Chairman's Association of the Brotherhood of Maintenance of Way Employees and Railway Shop Laborers.
One hundred thousand members of the Brotherhood in the district would leave work individually April 28, if the demands were not granted, the Chairman's Association stated in a telegram to E. F. Grable, of Detroit, President of the Brotherhood, in asking him to present the request to the Labor Board, President Wilson and the General Managers Association.

Chicago, April 20.—Strike fever among railroad employees suffered a setback today when 30,000 railway clerks and 8,000 freight handlers in the Chicago district announced their decision to permit hearing of their wage demands by the Railroad Labor Board at Washington. An authorized strike to attempt to enforce granting of increased wages was voted down last night after an appeal was received from James J. Forrester, head of the Brotherhood and member of the Labor Board.

Freight movement in the Chicago district, hampered by the unauthorized yardmen's and engine-men's strike, continued to increase today and elsewhere in the middle west and far west traffic conditions were returning to normal.
Possibility of another serious blow to the railroads in the Chicago district loomed with a threat that 100,000 members of the Brotherhood of Maintenance of Way and Railroad Shop Laborers would leave their work on April 28 unless demands for a temporary increase of one dollar a day and time and a half for overtime after eight hours' work granted.

SOLUTION OF THE
TURKISH PROBLEM

The Turk to Remain in Europe Because of the Withdrawal of the United States.

(Associated Press by Leased Wire.)
Washington, April 20.—The Allied reply to President Wilson's Turkish note is expected by diplomatic officials here to point out that without the experience by the United States of responsibility for part of the burden of the solution of the Turkish question, the Allies have found it impossible to adopt the President's suggestion that the Turk be driven out of Europe.

The Allies have taken the position, it was said, that the eviction of the Sultan from Constantinople was impossible without the assumption by some power, preferably the United States, of the obligation for the protection of Constantinople and contiguous Turkish territory.

For economic and political reasons, officials said, choice of any other power than the United States was precluded and since the United States has refused the proffered mandate over Turkey, no other solution than to leave the Turk in Constantinople, under inter-Allied control, was possible.

Supervision of the Turk, it is generally believed by officials, will devolve upon the Ottoman debt commission, which before the war, consisted of representatives of Great Britain, France, Italy, Russia, Austria-Hungary and Germany, but which now is limited to the three Allied powers.

The council of the League of Nations has agreed informally, that it cannot assume the mandate for Armenia, as was suggested by the council of Premiers at the recent Paris meeting, according to information reaching Washington. The fact that it does not control military forces and other machinery necessary to the administration of a state is understood to have been the basic reason for the decision of the League. A neutral state may be named as mandatory for Armenia.

Paris, April 20.—All the Allied powers concerned now have approved the principle of the collective representations to be made to the Berlin government regarding the execution of the treaty of Versailles, and the charge d'affaires of the several Allied nations will probably be instructed to call at once at the Wilhelmstrasse and deliver the declaration. Italy's approval of the representations, which had not been immediately forthcoming, was received today.

The declaration is not regarded as an ultimatum, and probably no time limit will be set for Germany's reply. She will be given to understand, however, that as a disagreeable alternative to compliance with the terms of the treaty regarding disarmament, the Allies will be unable to continue the relations re-established by the peace treaty.
