

Perhaps you are using good tea. We think "Red Rose" extra good. Won't you try it?

RED ROSE TEA "is good tea"

The same good tea for 30 years.

2000,000 To Advance Medical Researches

Official announcement of the Banting Research Foundation by which it is planned to raise \$500,000 to provide an annuity to meet the expenses of general medical research in the Province, was made in Toronto last week by Sir William Mulock, Chancellor of the University of Toronto, before the Alumni Federation, and at the same time he made an appeal for their assistance in raising the necessary funds. The Alumna approved the move, and by a resolution pledged its support and co-operation, particularly in the work of raising money outside the city of Toronto.

Restrict Gambling On Horse Races

An amendment to the criminal code prohibiting the publication of racing tips, selections, odds or any similar intelligence on horse races, except on the premises of an association during a race meeting, was given second reading and put through the committee stage, with practically no discussion in the House of Commons. In addition to prohibiting the publication of racing news, the amendment also prohibits the circulation of information intended for use in connection with betting upon fights, games.

When the clause was reached W. C. Good, (Progressive, Brant) asked Hon. Ernest Lapointe, Minister of Justice, whether this clause was exactly the same provision that was passed by the House two years ago and subsequently amended in the Senate. "It is exactly the provision that was enacted by this House two years ago," Mr. Lapointe replied. "It is the amendment I promised to bring before the House."

The clause repeats paragraph F of section 235, of the criminal code, and brings within the scope of the penalties provided in the code any person who "advertises, prints, publishes, exhibits, posts up, sells or supplies or offers to sell or supply other than on the premises of an association lawfully conducting a race meeting in Canada and during the actual progress of a race meeting thereon, any tips, selections, odds winning money prices pari-mutuel payments or any similar intelligence with respect to or applicable to any horse race whether such race be held within or without the Dominion of Canada, and whether at the time of advertising, printing, publishing, exhibiting posting up or applying such news or information such race has or has not taken place; any information intended to assist in or intended for use in connection with book making, pool selling, betting or wagering any fight, game, sport or race other

than a horse race, whether at the time of advertising, printing, publishing exhibiting posting up, or supplying such news or information such fight, game sport or race has or has not taken place."

Clause 5 the next following, which applies to the operation of dice games, shell games, punch boards or coin tables at agricultural fairs, was allowed to stand.

Nearing A Breakdown

A Condition That Calls for a Reliable Tonic

Many women give so much of their time to the cares of their household that they neglect their own health and sometimes reach the verge of a breakdown before they realize that their health is shattered. Often the heart palpitates violently at slight exertion, the stomach fails to digest food and discomfort follows. The nerves become weak and headaches grow more frequent. The body grows weak and they are always depressed. This condition requires immediate treatment with such a reliable tonic as Dr. Williams' Pink Pills which enrich and build up the blood, carrying renewed energy to every part of the body. The value of Dr. Williams' Pink Pills in a rundown condition is proved by the following statement from Mrs. Alex McInnes, Bowman River, Man., who says:—"About a year ago I had a serious illness which left me very anaemic. I was not able to get around to do my work; in fact I could scarcely walk. I was troubled with palpitation of the heart with the least exertion. One day a friend advised me to try Dr. Williams' Pink Pills as they had done her much good. I followed this advice and took the pills for some weeks when I felt as well as ever. I have since been able to attend to all my household duties. The dizziness and palpitation have left me and I bless the day I tried Dr. Williams' Pink Pills. They are just the medicine for those who are weak and rundown."

You can get these pills from your druggist, or by mail at 50 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

LOCOMOTION OF PLANTS.

There are some plants which can secure for themselves a more suitable location if the one in which they themselves is not satisfactory. Take, for example, the Loranthus, a species of mistletoe. If this plant finds itself in a situation unfavorable to its growth, it will throw out a root by which it is enabled to move to another site, the means of locomotion being a flattened disc that acts as a sort of foot. The moving process is repeated until a satisfactory position for development has been found. Another plant, the Clusia, lodges its seeds in the branches of a tree, whence the roots grow downward and strike in the soil. From these suspended roots branches grow on all sides, until the tree by which they are supported becomes literally suffocated.

Veniot Says Elections Not On Saturday Aug. 1

The Daily Gleaner quotes Premier Veniot as stating that August 1 is not to be the date of the Provincial elections. "In the first place polling day will not be on Saturday," the Premier is quoted as having stated.

SHAD FISHING

The shad fishing during the past few years has certainly been most encouraging. This has been due chiefly to the action of the Fisheries Department in enforcing close seasons during the past few years.

Not content with improving natural propagation by prohibiting all shad fishing for a period of years, the Department is now planning through the Biological Board to increase the production of shad by artificial means. It is not proposed to build hatcheries in which to propagate shad but to compel shad to lay their eggs in suitable areas for breeding so that more of the eggs will hatch out than is usually the case. The proposal is to enclose them in warm brackish water where it has been discovered that many more eggs survive than in cold fresh water.

Dr. Leim who has worked in the shad problem for four years has demonstrated that many more fry can be produced by aiding natural reproduction, and he is this summer continuing his studies on the Annapolis river. In the four previous years he worked with shad eggs and fry in the Shubenacadie river, but he believes that his experiments should be varied by trying them in the Annapolis.

Thus far he seems to have demonstrated that by hatching eggs in slightly brackish water he can increase production some four or five fold, what occurs in most of our shad waters. His experiments will doubt be closely watched by all the people of the Maritime provinces who are interested in the shad industry.

COURTESY?

Treating a patron like a rich uncle in the hope of getting something out of him is not courtesy—that's diplomacy.

Promptly waiting upon a patron when he enters the office is not courtesy—that's duty.

Listening to complaints attentively and without remonstrance is not courtesy—that's forbearance.

Helping a pretty woman to her car or carrying her bundles is not courtesy—that's pleasure.

On the contrary, courtesy springs from the heart—not from the mind. It is born of an instinctive desire to be kind and helpful. It is not to be confused with the liquid veneer of politeness, even though the latter is not without its claim to commendation.

Only the generous in spirit are truly courteous.

Here and There

Canada spent \$49,056,179 last year for pensions and re-establishment of Veterans of the Great War, according to a report recently issued from Ottawa by the department in charge of this work.

Without a dissentient voice over 4,000 cattle owners in 200 districts have voted to make Prince Edward Island a disease-free area under the Department of Agriculture arrangement which calls for a two-thirds vote of all cattle owners.

Two thousand young buffalo from the Wainwright herd will make a 700-mile trek northward this summer to the buffalo reserve on the Slave River where they will be turned loose to mingle with the wood bison which roam that area.

"In all parts of Canada and the United States," according to Robt. G. Hodgson, editor of the Fur Trade Journal of Canada, "Muskrat farms are being established, mostly on a large scale and they are rapidly turning what was once marshland of little value into the most productive part of the farm," Mr. Hodgson adds.

The record established recently at Acme when 114 horses worked in one field at one time seeding the crop of Mrs. C. W. King, has been broken at Gadsby, Alberta. When the neighbors of J. B. Ball who recently suffered a broken arm, put in his 100-acre crop, 39 outfits were at work on one day and 175 horses. The crop was put in in a single day.

H. E. Morris, whose horse Manna made a run away victory in the English Derby, will visit Canada in the fall en route to China from which country he hails. He will sail on the Canadian Pacific S.S. Minnedosa from Southampton on October 8, stay a short time in the Dominion, and sail from Vancouver for China on the S.S. Empress of Australia, October 29.

Rebuilt in nine months after the fire that destroyed it last October, the Chateau Lake Louise hotel opened for the current season on Sunday, May 31 as the Trans-Canada train arrived from its cross-continent run. The hotel was rebuilt under exceptionally difficult conditions in temperatures as low as fifty degrees below zero during which a wooden wall heated by stoves had to be erected about the construction works.

Following the opening visit by Their Majesties King George and Queen Mary to the Wembley Exhibition, the Duke and Duchess of York also went over the grounds. Their Majesties were especially delighted with Treasure Island, the Paradise of children, and travelled over the miniature Canadian Pacific train that runs around the island, passing en route the replica of Banff Station and the reproduction of the Canadian Pacific Rockies.

Canada will be well represented at the New Zealand and South Seas International Exhibition to be held at Dunedin between November, 1925 and April, 1926. Both the Dominion Government and the Canadian Pacific Railway have announced their intention to send well-appointed exhibits to the Exposition. It is probable that the provincial governments and many Canadian manufacturers will follow suit.

A VOCABULARY GAME

Here is a game to play at a picnic or on the verandah when sitting around for a quiet time. One player begins, "I like a man who is amiable and affable;" then the second continues, "Bright and breezy"; and the third, "Cute and clean." The fourth person must take D, the fifth E, and so on until Z is reached. Of course it is difficult to think of anything for X and Z, and those who have these letters are the unlucky ones.

The most amusing way of playing this game is to play it as fast as possible, each player bringing out his two words in a flash almost without thinking; but remember that the qualities must be good, such words as "abominable" or "bad" not being accepted. Those players who cannot think of their two words within a stated space of time must pay a forfeit at the end of the game. It is a splendid game for improving one's vocabulary.

Fletcher's CASTORIA

MOTHER! Fletcher's Castoria is a harmless Substitute for Castor Oil, Paregoric, Teething Drops and Soothing Syrups, prepared to relieve Infants in arms and Children all ages of

- Constipation
- Flatulency
- Diarrhea
- Wind Colic
- To Sweeten Stomach
- Regulate Bowels

Aids in the assimilation of Food, promoting Cheerfulness, Rest, and Natural Sleep without Opiates

To avoid imitations, always look for the signature of *Charles H. Fletcher*. Proven directions on each package. Physicians everywhere recommend it.

EASTERN STEAMSHIP LINES Inc.

BOSTON—ST. JOHN N. B. (International Line)
Fare St. John to Boston \$10.00; Eastport or Lunenburg to Boston \$9.00
Staterooms \$3.50
S. S. GOV. DINGLEY (Atlantic Time)
Leave St. John Wednesday at 9 A. M. and Saturday at 7 P. M.
Wednesday sailings leave Eastport 1:30 P. M., Standard Time, Lunenburg 2:30 P. M. Standard Time due Boston Thursday about 9 A. M.
Saturday sailings direct to Boston, due Sunday about 3 P. M.
Return—Leave Boston Monday and Friday at 10 A. M. (Daylight Saving Time)
On Saturdays, passengers may leave Eastport for Boston via St. John.
