

Defeat. A picnic will be held on Saturday, July 27th, in connection with the public school here.

Some friends of Mr. and Mrs. G. M. Kiley, from the vicinity of Clinton, paid them a visit at the beginning of this week.

We are glad to learn that Mrs. R. D. Cameron has almost fully recovered since getting her arm broken.

Gabriel. HYMNICAL.—On the 18th inst., E. N. Shaw and Miss M. A. Patton, were united in wedlock by Rev. J. A. Turnbull, at the residence of the bride's brother.

Dunlop. W. L. Coombs, of Hyde Park, was here last week enjoying the lake breezes, and the society of some of our belles.

Dungannon. W. Lockard and wife and two daughters, of Flesherton, Co. Grey, are visiting at Wm. Malouff's and several other friends here.

Our base ball club are to play a match with the Manchester boys next Saturday. Our boys will need to practice pretty faithfully if they expect to accomplish much.

We are sorry to learn that Thos. Trevelyan, of Cranford, is prostrated by severe illness.

Thomas Davidson, of Wawanosh, who was nearly killed by a runaway team, is rapidly improving in health.

West Wawanosh. The picnic under the auspices of St. Augustine R. C. church in Hickingbottom's grove, on Wednesday last was largely attended, notwithstanding the inclement state of the weather in the morning.

The chief event of the day was the vote for the "popularity pipe" between Messrs. Schmidt, of Wingham, and Whitey, of Lucknow, which resulted in favor of the former by about \$3. The vote realized \$100. Altogether the receipts of the picnic amounted to about \$500.

Auburn. Mrs. Jas. Gibson and Mrs. P. Wallace have returned from Marysville, Mich., where they had been at the deathbed of their aged father, Robert Wallace, who died on the 11th inst. After two months' illness he passed peacefully away.

Leburn. THE SCOTT ACT.—Carvassers in favor of the Scott Act got 45 signatures in this ward last week for it. It is estimated that the ward will give a considerable majority for the Act.

Miss E. Black and Miss Cassady, of Goderich, visited friends here during the week.

LITERARY ENTERTAINMENT.—Owing to the heavy rain, the entertainment in the Presbyterian church was postponed on Monday evening for a week. Next Monday a splendid programme will be offered.

A few days ago one of our townsmen visited the pretty Swiss village, and on passing its seat of learning noticed a pig taking part in the recess amusements of the pupils. He concluded that the "learned pigs" of the side-shews must have had such a training.

Lochalsh. Fall wheat in this section is far from being a good crop. It is true that there are several fine fields to be found, but they are scarce, the large majority being considerably below the average.

D. G. McBeath, our tailor, is kept on the jump, so to speak; orders are pouring in from all directions, and he will soon either have to get a staff of assistants, or turn away customers.

There is very little talk or agitation concerning the Scott Act in this district as yet. We have no hotel here, and therefore, see comparatively little drinking & drunkenness.

At the Zoo, Detroit, on Saturday, Harry Rowell commenced a tramp that if he completes his task, will not be terminated until August. He has undertaken to walk one mile each hour for 1,000 hours. He covered his first one between 1 and 2 o'clock in 11 minutes.

THE WORLD OVER.

As Mirrored in the Columns of our Own, side Contemporaries.

Billy Madden writes from Pleasure Bay, N. J., that Charlie Mitchell, who boxes Sullivan on June 30 at Madison Square garden, is in the best of condition.

The gallery began to creek during service in the Methodist church at Anglesea on Sunday. A panic ensued, and scores of persons jumped from the high windows. Many were trampled and severely injured.

It has been discovered that a young married woman who was supposed to have died at Wheeling, V., last Monday was buried alive. Her husband is prostrated and his life is despaired of.

John Durie, a coal-black negro, and Annie Jefferson, a handsome white woman, were married at St. Louis on Sunday last. Immediately after the ceremony the bride purchased a new suit of clothes for the groom.

The editorial of today is crisp without being flippant, strong without being ponderous, and comprehensive without being long. Within these limits there is still room for the great editor, but outside of them he cannot longer get his readers to follow him.—Louisville Post April 24

Governor Robinson, of Massachusetts, at a recent meeting of the State Medical Society gave his sentiments on the woman question. He said: "If a woman can cure me or any member of my family, God bless her for doing so! Why, who objects to a woman joining a fellow? If a woman wants to be a fellow with other fellows let her do it."

The wife of Mr. Spurgeon, the famous London preacher, furnishes an apt illustration of the work a feeble woman may do. She has long been an invalid, but, by making photograph frames and by other means, she has established a "book fund," from which she supplies poor ministers of various denominations.

"The Great Political Superstition," is the title of the article by Herbert Spencer, to appear in the July Popular Monthly, concluding his current series. In this article Mr. Spencer maintains that "in a popularly governed nation, the government is simply a committee of management," having no intrinsic authority, and that the doctrine of such a body being the source of individual rights is absurd.

New York, June 24.—Mrs. McKelvie, of Garden City, who eloped a few days ago with her brother-in-law, Dunham, was brought back last night by a detective. When she arrived at the depot McKelvie was in waiting with a revolver and a bottle of vitriol. He intended to kill Dunham and disfigure his wife. Mrs. Dunham was also present, and attacked her sister with an umbrella when she came in sight. A reconciliation was effected between the parties, however.

Temperance does not find favor with some of the managers of public schools in England, and children have been dismissed for wearing the blue ribbon. Mr. Mundella, the Minister of Education, then did, what might be expected from the representative of a Liberal government, whose sympathy with the temperance cause is well known. He reprimanded the children, instructed them to wear their blue-ribbons, he rebuked the managers severely, and prohibited any further interference with children wearing the precious little badge of freedom.

An official circular announces the following changes in the management of the Grand Trunk Railway: W. J. Spicer becomes general manager of the lines west of Detroit and St. Clair rivers; James Stephenson, general passenger agent, succeeds him, and is in turn succeeded by Wm. Edgar, at present assistant general passenger agent at Toronto. No appointment has yet been made in the place of Mr. Edgar, and possibly no appointment will be made to abolish the office at Toronto.

In 1881 Louis Saloshin, an Atlanta printer, inclosed \$1 in a letter sent to R. H. Boardman, who was running a lottery scheme in Louisville. Last week the letter was returned to him from the dead letter office. Stamped across the face of the envelope was the word "Fraudulent." Written upon its back, in Postmaster-General Gresham's hand-writing, were the words: "Yeoman standing by a postoffice official is, if you earn your money keep it." Inclosed was the dollar.

New York, June 23.—The World's Washington special says it is reported that Tammany Hall has called a meeting of prominent Democrats in New York this week for the purpose of consultation regarding the Presidential nomination movement. It is supposed to be the inauguration of opposition to Cleveland. It is alleged to be incited by the desire to justify the rebellion against unit rule in the New York delegation, if the majority of the delegates are found to be in favor of Cleveland. It is said Morrison, Carlisle, Bayard, and Dorsheimer have been invited to attend the conference.

One of the most singular cases which has come under the observation of the local medical fraternity of Leominster, Mass., is that of a young man named Arthur Silver, who has for the past week been slowly but surely bleeding to death. The efforts of the physician have thus far proved unavailing, and so great is the loss of blood that the recovery of the unfortunate young man is despaired of. About a week ago Mr. Silver went to a dentist to have five teeth extracted. He was placed under the influence of gas, and the doctor proceeded, but it is asserted only one tooth was extracted, though why the operation should have stopped there is the question the friends of Mr. Silver vainly ask. Immediately after the dental operation profuse bleeding set in, and the dentist was unable to stop it. The doctor positively states that he performed the operation in a proper manner, and denies that the present trouble was brought about by the extraction of the tooth. An examination of Silver's mouth shows a large granular cut and a deep excavation in the gum. From both of these wounds the bleeding is profuse. The affair has caused great excitement.

SERVED HIM RIGHT.

The Murderer of Mollie Gherkin, Hanged by a Mob in Indiana.

Vincennes, Ind., June 24.—Yesterday Oliver Canfield, who butchered Mollie Gherkin, while in jail told officer Rumar that he would like to see the girl, and he was granted the privilege. When he entered the room where she was lying he laughed at her. Officer Rumar took him out of the room and asked him what he thought about it. "I would like to finish her," said Canfield, with a fiendish grin, and then he burst out laughing. Canfield's crime is the most diabolical ever recorded here. He took his victim in his arms and held her for five minutes. She has been conscious but once since she was shot. Canfield was taken from jail by a masked mob at 1 o'clock this morning and hanged. There was no opposition to the mob except that the sheriff refused to deliver the keys of the jail. In consequence to this, the mob had to break the jail doors. This occupied at least 40 minutes. Canfield was covered in his cell and made an attempt at prayer. He was hastened out to the street, where several hundred of the best citizens of the place were waiting to see the execution. This being the fiftieth, or semi-centennial year of the Incorporation of Toronto as a city, the Industrial Exhibition Association of that city have determined on making their next Annual Fair and Exposition, which is to be held from the 15th to the 20th of September next, at such a magnitude as will excite any of its predecessors. On account of the large number of applications already received from intending exhibitors, it has been decided to enlarge several of the buildings, and an immense programme of special attractions of a novel character is being prepared. The Governor-General and the Marquis of Lansdowne are to open the Exhibition on the 10th of September. Among the attractions already announced are an International Firemen's Demonstration, a Colley Show and Field Trials by the farmers; a great interest to the farmers; Ballon Ascensions, an Electric Railway, &c. The manager, Mr. Hill, is to visit New York and other places next month in search of other special attractions of the latest and most interesting character. Special days have been set apart as the Farmers' Day, the School Children's Day, the Societies' Day, &c. The price lists, containing full particulars of the great Fair, have been issued, and can be obtained from the Secretaries of all Agricultural Societies and Mechanics' Institutes in the Province, or they will be sent to any who will prepare for the same by a letter to Toronto. See advertisement in any other column. A full programme of all the special attractions will be published about the middle of August. This will undoubtedly be the greatest event of Toronto's semi-centennial year.

The affairs of the office of John Anderson, registrar of North Wellington, are to be investigated by John Winchester, inspector of shrievalties. The investigation will open at the town of Arthur on July 3.

EPPE'S COCA.—GRATEFUL AND COMFORTING.—By a thorough knowledge of the natural laws which govern the operations of digestion and nutrition, and by a careful application of the fine properties of well-selected Cocoa, Mr. Eppe has provided our breakfast tables with a delicious and healthful beverage which may save us many heavy doctors' bills. It is the best diet for such articles of diet that a constitution may be gradually built up until strong enough to resist every tendency to disease. Hundreds of subtle maladies are floating around us ready to attack wherever there is a weak point. We may escape many a fatal shaft by keeping ourselves well fortified with pure and healthful food, and by a regular course of Eppe's Cocoa. Made simply with boiling water or milk. Sold only in Packets and Tins. (1 lb. and 1 lb.) by Grocers, labelled—JAMES EPPE & CO., Homoeopathic Chemists, London Ene.
