

WITH THE FARMERS

MARKET PRICES FOR WEEK.

The city market square has been crowded with buyers and sellers during the past week, and trade in all kinds of farm produce was unusually active. The prices as a rule were good and buyers comparatively plentiful, so that the majority of the farmers and market gardeners disposed of their goods at a fair profit, and obtained a supply of ready money which is so acceptable to everyone this year. The ideal weather of the week stimulated trade to a great extent, and brought the farmers out in greater numbers.

There have been very few changes in the market prices in the past few days, but most of the products sold at a wide range in price according to the quality of the article. Feed of all kinds was very plentiful, and did not command a very high price. Green feed sold much more quickly than hay, and some good loads of wheat, oats and barley in sheaf, slightly damaged by frost, were disposed of. Dairy products and vegetables were very scarce. Potatoes were for sale, but practically no beets, turnips, carrots, parsnips, or other vegetables could be bought. Butchers and grocers also reported a great scarcity in these vegetables, and farmers who have them for sale could doubtless get a good price for them. One feature of last week's market was the large amount of dressed meats offered for sale by the farmers. There was a good demand for this, and many a fine looking quarter of beef or a prized portion of pork or mutton was sold to Edmonton citizens at good profit to the vendor, and cheaper than the buyer could purchase at the butchers.

The following are some of the prices which have prevailed on the market during the past week:

Hay—Through... \$ 6 to 8 per ton.
Upland... \$ 7 to 12 per ton.
Timothy... \$ 10 to 14 per ton.
Straw... \$ 4 to 8.50 per ton.
Green feed... \$ 5 to 8.50 per ton.
Beef—Forequarters... 50 per lb.
Hindquarters... 60 to 75 per lb.
Pork—No. 1... 12 1/2 to 13 per lb.
Mutton... 12 1/2 to 13 per lb.
Butter... 30c to 35c per lb.
Oats... 35c to 38c per bushel.
Coal... \$ 3.25 to \$ 3.50 per ton.
Potatoes... 40c to 45c per bushel.

SEED FAIR DONATIONS.

The Strathcona branch of the Alberta Farmers' association will hold a seed grain fair in Edmonton on February 13th and 14th. At this fair there will be competitions in all seeds and grains and suitable prizes will be offered. A competent judge, probably W. C. McKellican, of Ottawa, will be supplied by the Strathcona branch of the Alberta Farmers' association.

Besides stimulating the growth of good grain this will also give those who have good seed an opportunity to dispose of it to advantage. It has been suggested that eight or nine days before the holding of the fair, competitors might plant some grain to test it and could produce the growing grain as a proof of its germinating power. This fair will also give farmers without seed an opportunity to secure good seed under the guidance and supervision of the judges.

A large number of people and firms in Edmonton have contributed money to help make the fair a success. Among these were the following: Edmonton board of trade \$25, John A. McDougall \$25, Hon. C. W. Croft \$10, Cushing \$10, D. R. Fraser \$10, Campbell & Ottwell \$10, Merchants bank \$10, W. McKellican \$10, S. Selinger \$5, Beitz & Hoar \$5, Goodridge & Powell \$5, T. M. Turnbull \$5, Bank of Commerce \$5, Bank of Montreal \$5, M. J. Gault \$5, National Trust company \$5, Jackson Bros. (valver medal) \$5, Western Realty Co. \$5, Imperial bank \$5, Trust Co. of Canada \$5, Union bank \$5, Royal bank \$5, Johnstone Walker \$5, Ridgeway Smith \$5, D. S. McKellican \$5.

The work of arranging for this fair has been left in the hands of a committee, consisting of: The Daily (Clover) Bar, Geo. Ball (Colchester), Morris Switzer (Colchester), John Swenson (Colchester), Secretary, Shepard (East Edmonton), Secretary of the Strathcona branch of the A. F. A., and M. Hibbard (East Edmonton).

The price list, which is now being prepared, is a good one and if the farmers become sufficiently interested in the seed fair the coming one should be one of the best ever held in Edmonton.

The dates of the other seed fairs in Alberta already arranged, are as follows:—

Raymond, January 14th.
Magrath, January 14th and 15th.
Cardston, January 16th and 17th.
Lehrbridge, January 15th.
Oads, February 4th.
Hedden, February 6th and 6th.
Hedden, February 7th.
Lacombe, February 19th and 20th.
Alberta provincial seed fair, Lehrbridge, February 18th, 19th and 20th.

WINNIPEG LIVE STOCK.

Winnipeg, Jan. 19.—The following prices were paid at the stock yards for stock brought over from Winnipeg: Hogs, 150 to 200 per cwt., \$5; 250 to 300 lbs., per cwt., \$4.60; 300 lbs. and over, per cwt., \$4; rough hogs, stags and sows taken at value. Cattle export stock, 3 cents; choice beef steers and heifers, per lb., 2 1/2 cents. Other grades in proportion. Bulls, per lb., 1 1/2 cents. Sheep—Choice sheep, per lb., 6 cents; spring lambs, per lb., 5 cents. Calves, live, choice 120 to 200 lbs., per lb., 5 to 6 cents; other grades in proportion; choice veal steers, per lb., 5 1/2 to 6 cents. Hides—Choice hides cured, per lb., 3 1/2 cents; frozen, 3 cents.

TORONTO LIVE STOCK.

Toronto, Jan. 16.—Receipts of live stock at Toronto market today were 124 cars, consisting of 1,941 cattle, 1,400 sheep and lambs, 1,700 hogs and calves. Prices continued firm, except bulls, which sold at \$4 to \$4.50, export cows \$4.50, butchers \$4 to \$4.50, stockers \$2 to \$3.50, calves \$3 to \$3.50, hogs \$3 to \$4.40, hogs \$3.20 to \$5.70.

CHICAGO LIVE STOCK.

Chicago, Jan. 16.—The cattle trade is about steady, clearance being noted. Choice lambs are steady, but the medium grades sold 10 to 15 cents lower. Sheep are steady. Normal supplies of cattle arrived today. Market is quiet and practically steady. Receipts total to 10,000, which will probably be met by the demand. The buyers went out evidently with the intention of forcing prices, but did not do so. Success of it. Shippers wanted amount of all good to choice steers, and these were sold at a good price. Medium and medium grades showed a weaker tendency from the start. Cows and heifers sold about steady with yesterday, though the salesmen said buyers were indifferent and made an effort to get the prices lower. The market for calves is about steady at yesterday's prices and feeds are not quickly changed.

FRIDAY'S GRAIN MARKETS.

Winnipeg, Jan. 17.—On the heavy Argentine offerings and the unexpected lower cables the market opened weak this morning with a good deal of bearish sentiment existing. During the early hours of trading wheat looked as if it was going to take another side, but by the close, however, a complete change occurred in the market. The advance was two fold, the wheat market developed into strong bullish one and wheat looks as if it would go much higher. The cause of the advance were two fold. Snow has issued a bullish report in which he says that in eleven elevators along the Soo line there are only 20,000 bushels in store, against 220,000 last year when all elevators were blocked and temporary. He also states that at some points not a house was full, that some elevators are empty and that the elevator industry is not doing well. Calves are steady at yesterday's prices and feeds are not quickly changed.

CREAMERY MEETING.

A creamery meeting will be held in Stettler early in February. The subjects to be taken up are dairying and poultry raising for fattening purposes. The speaker will be Mr. J. Stettler, principal superintendent of the Calgary, and Mr. A. V. Foley, dairy superintendent of Edmonton. It is thought only one or two meetings will be held at Stettler, local meetings will be held throughout the district where over required.

THERE WILL BE OATS FOR SEED.

"There will be seed oats in the spring at the Edmonton district than was at any other time in the past." This is the opinion of Mr. J. Stettler, principal superintendent of the Calgary, and Mr. A. V. Foley, dairy superintendent of Edmonton. It is thought only one or two meetings will be held at Stettler, local meetings will be held throughout the district where over required.

AMERICAN OPTIONS.

Chicago—May closed 1.04 1/2; July closed 1.07 1/2; September closed 1.10 1/2; December closed 1.13 1/2. Minneapolis—May closed 1.10 1/2; July closed 1.13 1/2; September closed 1.16 1/2; December closed 1.19 1/2. St. Louis—May closed 1.10 1/2; July closed 1.13 1/2; September closed 1.16 1/2; December closed 1.19 1/2.

WORLD'S CHAMPION COW.

The greatest achievement that has ever been accomplished by dairymen and dairy cattle has just been completed at Roseville, Wisconsin. On December 28th, the nine-year-old Holstein cow, Colantha 4th's Johanna, had 86 pounds of milk and completed her trial which had been in progress for 363 days. In that time she gave 72,432 pounds of milk testing 3.64 per cent, at 958.30 pounds of butter, as equal to 127.28 pounds of butter. The average daily production was 197.25 pounds of milk, 1.72 pounds of butter, 3.42 pounds of fat, and five and eleven eighths of milk solids in the year's milk. This cow is owned by W. J. Gillett, of Springfield state farm, and before completing the year's record she had produced 1,000 pounds of milk and 100 pounds of butter. These figures probably better than anything else recorded in the world's history, and being the wonder of the age, are being followed with the keenest interest.

EUROPE WANTS OUR WHEAT.

Winnipeg, Jan. 17.—What has in no way receded from the strong position of last week and locally the demand for all grades, but more particularly the lower grades, increased as the week advanced. Receipts have been liberal but have been readily absorbed while receipts at interior elevators are larger than they were

for the previous week, and more than double the supply.

Outward shipments all fell from the head of the lakes have run over quarters of a million, Canadian visible is today more than three millions greater than it was last year and to show how much larger a percentage of the crop is forward than at the corresponding date of last year, what has been indicated repeatedly is coming true. The British buyers have jostled to the point where they want our wheat and they are buying it accordingly.

Reports from south of the line show that the interior mills are scarce, all the large markets, more especially of the higher grades. There has been an appreciable improvement in the flour trade which simply means that the extra stock laid in in October are being used up and the buying public are again in the market, although not very keen, the demand is improving.

There has been considerable talk of the Manitoba Grain Growers' association here this morning the first resolution presented by the resolutions committee, moved by the speaker and seconded by W. Miller, called upon the federal government to so amend the Bank act as will tend to promote confidence for all time in the Canadian banking system and consequently in legitimate business enterprises.

GRAIN GROWERS' CONVENTION.

Brandon, Jan. 17.—At the session of the Manitoba Grain Growers' association here this morning the first resolution presented by the resolutions committee, moved by the speaker and seconded by W. Miller, called upon the federal government to so amend the Bank act as will tend to promote confidence for all time in the Canadian banking system and consequently in legitimate business enterprises.

AIRSHIPS FOR JAPAN.

Rumor That Number Have Been Purchased in Paris.

Paris, Jan. 17.—The rumor that Japan has purchased a number of airships built in Canada, and has ordered half a dozen more for use in connection with her military operations, has been persistent in Paris since I called today at the Japanese consulate. I inquired what was in the report. It was here said by a prominent person competent to answer the question was the embassy's military attaché, who had been in Paris in connection with the purchase of a number of airships, and asked if he had received any order from the Japanese government to purchase any more. He replied that he had not, but that the Japanese government would rather not be quoted on any international matter.

REVOLUTION IN HAYTI.

Insurgents Have Occupied Two Towns—Vigorous Methods to Suppress It.

Port au Prince, Hayti, Jan. 16.—The present government of Hayti is faced with a serious and acute military expedition composed of Haytiens who had been organized by General Goncalves and Marechal, the latter who is regarded by Jean J. Grigot, who is marching on Port au Prince. It is reported that General Grigot, commander for a serious problem in connection with this report lacks confirmation.

BIG MEN IN JEWEL ROBBERY.

Persons of High Position Thought Implicated in Dublin Affair.

Dublin, Jan. 17.—The inquiry by a vice-regal commission into the disappearance last summer from Dublin Castle of the regalia of the Order of St. Patrick, valued at \$250,000, was resumed today. The members of the commission were inclined to let the proceedings drop. The Solicitor-General, however, declared that he was in a position to bring witnesses who could give important evidence. Considerable public sympathy exists for the jewels in the position in which he has been placed by the restriction placed upon the inquiry. It is freely asserted that this course has been taken in order to avoid even greater scandals. It is claimed that persons of high social position had free access to the office from which the jewels were taken, and that the police hold the opinion that the missing property was not removed from Ireland, but is hidden here.

HIGH SCHOOL BOARD IN DIFFICULTY.

Princes Albert, Jan. 17.—The High school board is in difficulty because they neglected holding their annual meeting during the first ten days of January, as prescribed by the ordinance. At a meeting last night it was pointed out that it was not legal to proceed with the election of a chairman and the meeting was adjourned for a week pending communication with the department of education at Regina. It is possible a new election will be

RETURN MONEY TO BANKERS.

Reserve Deficit of New York Institution Has Been Wiped Out.

New York, Jan. 18.—For the first time since the beginning of the financial stringency in October, the clearing house statement yesterday showed that not only had the heavy bank reserve deficit been entirely wiped out but that a surplus of \$6,000,000 above the 25 per cent. legal requirement had been established. The figures made known exceeded the most expectant hopes of bankers and brokers, and when the statement appeared on the stock quotation-tickers it was greeted with a round of cheers in practically every banking house in Wall street.

Bankers declared that no better evidence that the clearing house statement could be obtained to show the rapid restoration of confidence and the tremendous outpouring of the hoarded money. The excellent statement forebode an early end to the rapid restoration of confidence and the tremendous outpouring of the hoarded money. The excellent statement forebode an early end to the rapid restoration of confidence and the tremendous outpouring of the hoarded money.

With the return of the money stringency there will now be plenty of cash for the business and industrial world, which were temporarily paralyzed during the money pinch now has been financed. The clearing house bank has a surplus of \$4,100,000, the largest in history. Since that time the deficit has been constantly decreasing, and with the rapid return of confidence and funds from the interior last week's surplus of \$11,545,000 has not only been obliterated, but a substantial deficit of \$2,000,000 established.

VERY SPECIAL EFFORTS.

are exerted to secure a general appreciation of the excellence of the Canadian products in this part of the world. It is to be noted that the population in the east. The wheat and flour imports of Japan have increased more than eight hundred per cent in ten years, and the trade is only in its infancy.

SHOULD LOOK TO CANADA.

Britain's Eyes Must Be Turned Our Way.

Montreal, Jan. 16.—A special London cable says that Commissioner Richard Grigg's report on Canadian trade, addressed to Lloyd George, president of the Board of Trade, will be published tomorrow. It is generally sympathetic and must do good in further advertising Canada. The features which perhaps will attract most attention is a frank avowal of the value of Canadian products in assistance of British trade. He strongly supports every measure to quicken the transit of goods between England and Canada to offset the narrowness of the United States. He also argues the cheapening of cablegrams.

LOW GRADE PRODUCTS.

British manufacturers must visit Canada more often and give Canadians what they know they want rather than what he thinks they want. He must adopt the American standard with which Canadian engineers and architects are familiar, and also Canadian currency. He must provide better and fuller catalogues of goods and also grant more elastic terms of credit.

CANADA'S FLOUR TRADE WITH JAPAN

Difficulties Which Are in the Way—W. T. R. Preston Gives Review of the Situation in the Far East.

The problem surrounding the introduction of Canadian wheat and flour in the far east, present several serious phases, for the careful consideration of the department. The personal interest of the agricultural population of the west, and the great milling interests are so very immediately concerned that it is difficult to see how the trade can be developed to any extent in the far east to Canadian products. Nevertheless, the range of the problems to be solved are not insurmountable, and it is possible that the trade can be developed to a considerable extent in the far east.

CERTAIN ADVANTAGES.

in respect to the eastern market that are not possessed by any other country. Not the least of these is the fact that the geographical relationship of the Dominion to Japan, with its nearly five millions of population, and the very near future afterwards, the equally successful solution of the other. With an appreciable knowledge by the general public of the relative quantities of Canadian flour and other wheats, the successful introduction of the Canadian products on a large scale will most assuredly follow.

CAPITAL FROM THE WESTERN PARTS.

of the United States has brought the section of large mills, installed with the latest roller machinery, and well known, and the reasons why it can be placed on the market at a lower figure than other mills are in the east can quite as obvious. These ventures are only possible because the general public has not been fully informed of the fact that the flour from Washington and Oregon wheat, in comparison with the wheat flour from the prairies of the west.
