**RECOGNITION.**

The care of the teeth is now recognized as a necessity. In fact the large hospitals all over the world examine the patients' teeth and where it is possible put them in good condition before attempting a surgical operation. Experience has shown that the patient has a better chance for recovery with a clean healthy mouth than without it. This ought to convince the most skeptical that care of the teeth is requisite to health.

**GRACIOUS ECONOMY**

The folks who make use of our cleaning and pressing beginning to agree with this sentiment. We take such extreme care of garments entrusted to us and our methods are so strictly sanitary, we feel that we have a right to invite your custom. Phone 1488.
