THIS ORIGINAL DOCUMENT IS IN VERY POOR CONDITION

Accident to the Steamer "Algoma."

FURTHER PARTICULARS.

DETROIT, July 29.
The clerk of the steamer *Meteor*, just from Lake Superior, says that the steamer *Algoma* went ashore at 11 p. m., on the 23rd on Sandy Island Reef, on the rocks, 45 miles from Sault Ste Marie, in 4 feet of water. The revenue steamer, *General Dix* went to her assistance, and took off her passengers and light baggage, and brought them to the Sault. On the 26th the tug went to try to get her off, but had not been heard from when the *Meteor* left. The *Algoma* was not damaged and there is no water in her.

The following has just been received from one of the passengers on board the steamer *Algoma*:

"The steamer *Algoma* on her return from Fort William struck a sunken reef on Tuesday night in a fog off Sandy Islands. A boat was at once despatched to the Sault for help. The United States revenue cutter *Gen. Dix* promptly came to our assistance and brought most of the passengers to the Sault, a few in the meantime having proceeded to Batchewan, some six miles distant, in the steamer's boats. The *Dix* was unable to get near enough the *Algoma* to endeavor to pull her off. She, however, hailed a tug near this point, and sent her to the *Algoma*. Capt. Perry was sanguine of getting her off with the assistance of a tug. All efforts failed to get her off up to noon to day. We had been on the rock two nights and nearly two days before the *Dix* arrived. The passengers are all well and in good spirits."

STILL LATER FROM A GUELPH PASSENGER.

Mr. F. W. Galbraith, of this town was on the *Algoma*, when she struck lately, and a short sketch of her trip from Collingwood to that unfortunate point may not be uninteresting. The vessel left that town on Saturday the 20th, bound for Fort William, on the northern shores of Lake Superior. This place she reached on Sunday, and departed on her return trip on Saturday, at 2 o'clock p. m. She arrived at St. Ignace, also, on the northern shores of the lake, that night and remained there until Monday evening. Again she steamed out, and passing Michipicoten on Tuesday, where the mails were landed, she continued her course towards Batchewan, and it was between ten and eleven o'clock at night as she was turning the point to enter the Bay of that name, that she struck on the hidden rock. At the time she struck she was going at a very slow rate of speed, probably not more than three miles an hour. There was scarcely any perceptible concussion, no grinding, and no commotion among the passengers. Indeed Mr. Robert Boyd, of Paisley Block, who had been standing on the bows with Mr. Galbraith a few minutes previously and gone to bed was quite ignorant of the mishap until the morning. The vessel caught a short distance behind the paddle-boxes; the engines were immediately stopped and an attempt was made to reverse them, which, however, proved futile. A small boat was immediately dispatched to Sault Ste Marie, a distance of forty-five miles for the purpose of procuring a tug. The boat reached its destination about ten o'clock next morning, but there was no tug to be found. But the crew told their story to Capt. Slicer, of the American Revenue cutter *John A. Dix*, and he came up on Thursday. Some of the passengers had on Wednesday night taken a boat and landed on the point, and others had followed suit on Thursday morning. As soon as the cutter came up all were removed to her who wished to leave the boat, and also those who had landed on the point, and brought them to Sault Ste Marie. The captain of the cutter treated the passengers of the *Algoma* well, administering to their hunger and thirst, in the way of sandwiches and wine. Mr. Galbraith left Sault Ste Marie on Friday for Detroit, and last night returned to town. The misfortune to the *Algoma* is attributed to the absence of Capt. McLean, whose brother was at the point of death, and has since died in Detroit.

WHAT ARE THE MEXICAN LIBERALS FIGHTING FOR?

The *New York Commercial Advertiser* publishes a letter from a correspondent who has resided for a long time in Mexico, and who professes a thorough knowledge of that country and its leading men, from which we make the following extract:
"The American people are still ignorant of the question at issue in Mexico; it is not a struggle for personal liberty, religious toleration, free press, or even Republican institutions (for believe the majority of Mexicans are Republicans); it is not of those which Juarez is the champion. No; Juarez is a full blooded, copper-colored Indian, whose dream is of the supremacy of his race, to the utter extermination of the white man; and his wish is to bring back Mexico to the primitive conquest condition when Indians were the dominant race. That project seems likely to be realized; for white men and foreign capital must desert that country until the day comes when this great nation fulfills its manifest destiny and mission of civilization, by replacing that brown mongrel and bloodthirsty race, with almost its pagan rites and institutions, by the energy of the white man, and the civilizing influence of a pure Christianity."

The Steamer American safely off.

The following telegram has just been received by Messrs. H & A. Allan:—
"FATHER POINT, July 29.
"Got the North American off safely at 8 p. m. on Saturday. The Austrian waited at Anticosti from 1.30 p. m. on Friday, and took the North American in tow at 11 p. m. on Saturday. She should be here very soon."
"Signed JOHN BARCLAY."

THE ROSSIN HOUSE.

This Hotel, which was burnt down in 1862 has been rebuilt, and is now open for the reception and accommodation of guests. It will assume the position it formerly occupied. Plans were devised soon after it was consumed for rebuilding it up again, but the immense capital required to effect this prevented its being accomplished for a long time. It opened on Monday the 29th of July, under the management of Mr. Geo. P. Shears, a hotel-keeper of experience, and with him at its head it will no doubt take the rank it formerly held among Canadian Hotels. The fitting up and furnishing are luxurious and costly—the Brussels Carpets on the halls and the floors of the flats alone costing \$1,500. The rebuilt Rossin House is a commodious and comfortable establishment, and a credit to the hoteliers and a credit to the

BIRTHS.

BOND—On Monday, 22nd inst., the wife of Mr. Jno. Bond, Arthur, of a daughter.
HORNELL—At Clifford, on the 16th inst., the wife of Mr. W. Hornell, of a son.

NATIVE CANADIAN WINES

THE subscriber begs to announce to his friends and the public generally that he has taken the premises on Main Street, Hamilton, formerly occupied by Messrs. Grant, Middlewood & Co., and known as the Spring Brewery offices, in which he has established his

Native Canadian Wine Depot

where he will keep on hand, for the supply of customers, wholesale and retail, the different varieties of Pure Canadian Wines. These Wines are manufactured from the most suitable varieties of grapes, cultivated in the subscriber's own vineyard, and are made of pure grape juice, without any adulteration, and are pronounced by competent judges to be equal to the best wines of France and Germany. They are wholesome, well suited for the table and sick-room, and supplied at prices so low as to be within the reach of all.

WATER POWER IN ROCKWOOD FOR SALE.

FOR SALE, Water-Power in Rockwood, close to the G. T. Railway Station, having 10 feet fall on the main stream, close to the principal street, and in the midst of the village, and being at the head of the other dams, controls the supply of water to the three other mills, and has a never failing supply of water at all seasons. By future purchase the supply of water can be raised indefinitely. Apply personally to
HENRY STRANGE, Rockwood,
Rockwood, 29th June, 1867. 715-414

PRESTON MINERAL BATHS AND SULPHUR SPRINGS.

MINERAL BATHS, now so favourably known, are open for the accommodation of the public. The Spring which supplies these Baths possesses medicinal qualities not surpassed by any other in America. The grounds are fitted up in a suitable manner, and the house is prepared to furnish every comfort and luxury to all who may avail themselves of the Preston Mineral Baths.
S. CORNELL,
Preston, 11th July, 1867.

FARM FOR SALE.

THE subscriber offers for sale a first-class farm, being Lot No. 8, East half 2nd Con., Township of Erin, containing 100 acres, from 75 to 80 of which are cleared, and, with the exception of about 10 acres, free of stumps. This farm is well fenced, and in a high state of cultivation. There is a never-failing creek and a good well and pump on the premises; also, a never-failing creek runs across the Concession about ten rods from the edge of the lot. There are two good barns—a log 20x50 and a frame 26x60—and a good log house 20x30 feet, with a back kitchen and a frame shop, four fire-rooms, &c. Also, a good young orchard of choice fruit trees, many of them bearing. This farm is about five miles from Acton Station, and about a mile and a half from the Erin gravel road. The farm will be sold on liberal terms, and a good title given. For further particulars apply personally, or by letter (post-paid) to the subscriber, on the premises.

A CARD FROM

The American Watch Company.

WALTHAM, MASS.

THIS Company beg leave to inform the citizens of the new dominion of Canada, that they have made arrangements to introduce their celebrated Watches to their notice. They are prepared to prove that their watches are made upon a better system than others in the world. They commenced operations in 1850, and their factory now covers four acres of ground, and has cost more than a million dollars, and employs over 700 operatives. They reduce 75,000 Watches a year, and make and sell not less than half of all the watches sold in the United States. Up to the present time, it has been impossible for them to do more than supply the constantly increasing home demand; but recent additions to their works have enabled them to turn their attention to other markets.

The difference between their manufacture and the European, is briefly this: European Watches are made almost entirely by hand. In them, all those mysterious and infinitesimal organs which put together create the watch, are the result of slow and tedious manual processes, and the result is necessarily a lack of uniformity, which is indispensable to correct time-keeping. Both the eye and the hand of the most skilful operative must vary. But it is a fact that, except watches of the higher grades, most European watches are the product of the cheapest labor of Switzerland, and the result is the worthless Anores, Lepins and so-called Patent Levers—which soon cost more in attempted repairs, than their original price. Common workmen, boys and women, buy the rough separate parts of these watches from various factories, polish and put them together, and take them to the nearest watch merchant. He stamps and engraves them with any name or brand that may be ordered—whether London, Paris, Geneva or what not; and many a man who thinks he has a genuine "M. I. Tobias, of Liverpool," (whose only fault, that he can never regulate it to keep very good time), is really carrying a cheap and poor Swiss imitation.

How American Watches are Made.

The American Waltham Watch is made by no such uncertain process—and by no such incompetent workmen. All their operations, from the reception of the raw materials—the brass, the steel, the silver, the gold and the precious stones—to the final completion of the Watch, are carried on under one roof, and under one skilful and competent direction. But the great distinguishing feature of their Watches is the fact that their several parts are all made by the finest, the most perfect and delicate machinery ever brought to the aid of human industry. Every one of the more than a hundred parts of every watch is made by a machine—that infallibly reproduces every succeeding part with the most unvarying accuracy. It was only necessary to make one perfect watch of any particular style and then to adjust the the hundred machines necessary to reproduce every part of that watch, and it follows that every succeeding watch must be like it. If any part of any American Waltham Watch should be lost or injured, the owner has only to address the Company, stating the number of his watch and the part wanted, whether it be spring, pinion, jewel, or what not, and by return mail he would receive the desired article, which any watchmaker would adjust to its position. The Company respectfully submit their watches on their merit only. They have fully succeeded in overcoming popular prejudice in the States in favor of European watches, and solicit a thorough examination and fair trial for their manufactures elsewhere. They claim to make

A Better Article for the Money

by their improved mechanical processes than can be made under the old-fashioned handicraft system. They manufacture watches of every grade, from a good, low-priced, and substantial article, in solid silver hunting cases, especially adapted to the wants of the farmer and lumberman, to the finest chronometer for the navigator; and also ladies' watches in plain gold or the finest enamelled and jeweled cases, but the indispensable requisite of all their watches is that they shall be good Timekeepers. It should be remembered that, except their single lowest grade named "Home Watch Company, Boston," all watches made by them

Are Fully Warranted

by a special certificate given to the purchaser of every watch by the seller, and this warranty is good at all times against the Company or its agents.

THE RUSSELL WATCH!

A FEW REASONS THAT MAKE IT SUPERIOR TO ALL OTHERS.

- 1st—It proves itself a reliable time-keeper beyond all question.
- 2nd—The RUSSELL WATCH being made on correct and scientific principles, it must follow as a natural consequence that it will keep time.
- 3rd—Each part of which the RUSSELL WATCH is composed is a reflex of the perfect machine by which, under skilful direction, it is produced.
- 4th—Truth is the essential of each part.
- 5th—Uniformity and conformity must therefore characterize the several parts in fulfilling the purpose for which they are made and brought together.
- 6th—Reproduction, as regards watch work, is simply an application of the principle that "things which are equal to the same things are equal to one another," and if there is any merit, the RUSSELL WATCH possesses that merit to a demonstration.
- 7th—The greatest variety of price, quality and size, that confidence and perfection will admit, afforded by the RUSSELL WATCH.
- 8th—The RUSSELL WATCH stands pre-eminently above all competitors for public favor and patronage.
- 9th—Proofs of the foregoing—the universal testimony of all Watchmakers who have sold, and the positive statements of the thousands in Europe, the United States and Canada, who have worn the RUSSELL WATCH.

TESTIMONIAL.

To Robert Cuthbert, Watchmaker, Wyndham Street, Guelph.

If Society was as perfect in its organization, and was as obedient to the dictates of truth as the RUSSELL WATCH I bought from you is in indicating time, evil would be swallowed up in good, and happiness would become monotonous.

G. RENNIE, Guelph.
