

Ottawa, April 23.

Mr. Mills resumed the discussion on the Elections Bill. He showed the inconsistency of Dr. Tupper's opposition to the adoption of the Provincial franchise in Dominion elections, and exposed the partisan manner in which the late Government had selected the time for holding the elections and the Returning-officers engaged in those elections.

Mr. Palmer, approved of the ballot, and would give the right to vote to widows and single women, who at present had no one to represent them. He approved of the adoption of the Provincial franchise.

Mr. Cameron (Huron) congratulated the Minister of Justice on the approval accorded to the Bill from all sides of the House. He was, however, unfavorable to the abolition of the property qualification so long as property was the basis of the franchise. He did not approve of the abolition of the public nominations, which he believed were useful in bringing the candidates face to face. He recommended a more stringent supervision of the voters' lists, and an amendment in the form of the oath. He was not enamoured of the ballot, but hoped it would correct some of the evils at present prevailing. He advocated compulsory voting.

Sir John A. Macdonald, urged the retention of public nominations. Once abolished them, and no election would be uncontented. In the case of Ministers it was very important they should not be needlessly opposed on going for reelection. He showed that in this particular the English precedent did not apply, owing to the very different state of things existing in the other country. He preferred a uniform franchise, based on property. If the Provincial franchise were adopted it should be the one in force at a definite time, in order that the electoral vote for the Dominion should not be subject to local changes. He thought, however, that means should be provided for conducting a scrutiny in case of an election being contested. With respect to the clauses for preventing corrupt practices, he feared they erred on the side of too great stringency.

Items from Ottawa.

Pere Richot has put in an affidavit before the Northwest Committee contradicting the statements made in Lord Lisgar's letter concerning the amnesty to Riel.

The Dawson Road matter came up in the Public Accounts Committee this morning, and the Chairman asked Cunningham what grounds he had for the statement made by him concerning alleged frauds in its management. Cunningham replied that he believed he could prove fraud had been committed by accounts being post-dated two years, and certified to long after date of such charges. A sub-committee was appointed to investigate the whole matter, with power to send for persons and papers.

By a return asked for by Mr. Young, we learn that articles paying duty imported to Canada from the United States during the quarters ending the 31st of December in the years 1871, 1872 and 1873, were valued at \$2,345,036 in 1871, \$3,069,518 in 1872, and at \$3,786,572 in 1873, making a total increase on 125 articles of \$717,091. This increase is not on all articles, as a decided falling off appears in some things. Does this prove that Canada has not been the slaughter-house for American manufacturers that it has been represented to be?

Bishop Tache produced to-day, before the Northwest Committee, an original letter, written by Sir John Macdonald to him (Tache), in which was enclosed \$1,000, to be given to Riel as an inducement to leave for the United States. The letter has been placed on the file.

HARRISTON ITEMS.—Dr. Rutherford is leaving Harriston for a while, as he proposes to go England. We are glad to notice that our old friend Mr. Robert Haig has opened an office in the village, where he will transact all business as Notary Public, Commissioner in B. R., Village Clerk, Issuer of Marriage Licenses, Conveyancer, &c. Those having business to transact with him may be assured that he will do it promptly and efficiently. Messrs. Patmore Bros. now go more extensively into the manufacture of carriages, buggies and other light work than they did before.

THE OWEN SOUND Advertiser thinks that as the town possesses excellent fishing, boating and scenery, an effort should be made to beautify it and fit it for a summer resort.

Special Notices.

AS NUMEROUS CASES OF POISONING Have occurred from the sale to the public of Hypophosphites, containing strychnine, without being properly labelled, purchasers of Dr. Whistler's Compound Phosphates and Calisaya are requested not to confound the two preparations, as is frequently done, under the name of Phosphates, both of the same medicinal properties. Phosphates are necessary elements of the animal organism, and absolutely essential to the phenomena of life. They enter into the composition of every solid and fluid of the human body, and are the natural exciting agents of the functions of nutrition, and determine perfect cell formation and the growth of tissues. For supplying the waste resulting from mental and muscular exertion there can be no substitute for Phosphates while they are chemically combined as in this. Attributing the effects of strychnine to the action of hypophosphites has led to fatal diseases and errors in practice, and greatly misled the public as to their true merits.
