

ANOTHER MAN STEERS CLEAR OF COMMISSION

Mr. Tupper said he had learned that the firm of Hudson, Howell, Gensong & Marlett had succeeded his firm as advisors of the company. Witness did not know that W. R. Clarke was the actual owner of the construction company. This evidence concluded the evidence of the witness.

W. A. Faulkner was called, but did not answer his name.

Frederick A. Emerson was next called and examined by Mr. Walsh. He said he was at one time a member of the firm of W. A. Faulkner & Co., stock brokers. This partnership ceased July 1, 1909.

J. K. Cornwall gave Mr. Faulkner an option on the Alberta charter on October 29, 1906, witness being interested in the option. A syndicate was formed to take up the option on December 13, 1906, his firm being members of the syndicate.

Witness said he acted as secretary from the syndicate's inception down to when negotiations were started with Mr. Bowen. A minute book was kept of the proceedings which he believed was in possession of Mr. Faulkner. On dissolving partnership witness said he assigned his interest in the syndicate to Mr. Faulkner.

Witness said that the letter he had no papers in connection with the syndicate other than those he had submitted to Mr. Walsh yesterday.

Counsel produced a letter from Mr. Emerson, dated November 9, 1906, addressed to Mr. Hawes in Toronto, which said that as the attorney general's department of the province of Alberta was interested in the charter the syndicate was hopeful that a cash subsidy and land could be secured for the syndicate.

Witness said that the letter was probably inspired by something that Mr. Faulkner had likely told him, but he had no personal knowledge which justified him writing as he did.

Counsel produced another letter to Mr. Hawes under date of November 17, 1906, from Mr. Faulkner. This letter stated that the syndicate was applying for a guarantee of four per cent bonds by the Alberta government, and also a subsidy from the Dominion government. A guarantee of \$10,000 a mile was expected.

The letter to Mr. Hawes said that a strong syndicate of western men was to be formed, which would have influence with both governments. Amongst the members of the syndicate was Hon. Robert Rogers, minister of public works in the Manitoba government. Mr. Walsh said that from the little he knew of politics he could hardly imagine Mr. Rogers having much influence with the Alberta government.

Mr. Cornwall was engaged by the syndicate to secure a guarantee of the bonds from the Alberta government. Thirteen thousand dollars a mile was the amount to be secured. Mr. Davidson, Mr. Faulkner and Mr. Hawes cooperated with Mr. Cornwall in endeavoring to get the guarantee. A letter was read from Short, Cross and Biggar, under date of January 13, 1907, stating that they had had several consultations as to the best way to approach the government and house, and negotiations with the government would begin at once.

Witness said he went to Edmonton soon afterwards and met Hon. A. C. Rutherford and Hon. C. W. Cross, premier and attorney general respectively, and he drew from the interview that the government was favorably disposed to the proposal.

J. K. Cornwall was to receive in stock \$544,000 as his share in the railway company. This was out of a capital stock of two million dollars. This sum was to be paid provided Mr. Cornwall got a satisfactory bond guarantee. Witness said he could not say

whether Cornwall knew there was to be a construction company formed.

In connection with the banking arrangements of the company he could not speak definitely without consulting the minute book, which Mr. Minty had turned over to witness.

Mr. Walsh asked the witness what the banking arrangements were, and Mr. Tupper replied that at a meeting held in February an agreement was entered into with the Royal bank, in which certain advances were to be made; the proceeds of the bond issue of the Great Waterways railway was to be turned over to the Royal bank.

Witness said he took no part in the negotiations and did not know with what branch of the bank the arrangement was made. Witness said he did not know whether Mr. B. R. Clarke had paid for his shares or not, but he thought he paid something, as the company was in a legal position to do business.

Mr. Walsh asked witness if he was only a "nominal" director, and Mr. Tupper asked Mr. Walsh to define what he meant, which was done. Witness declined to state that he was only a nominal director.

Tupper to Be President
Mr. R. B. Bennett started to cross-examine witness as to a letter he held, in which it was stated Mr. Tupper was to be president of a construction company to deal with the Alberta and Great Waterways railway.

Mr. Minty protested emphatically at the letter being put in, charging that it was one of the letters which he had submitted in confidence to Mr. Walsh. The commission, he said, had no power to admit such letters, and he protested at any such action being taken for political purposes. If the commission allowed such a procedure it would be irregular, and the confidence that existed between solicitors and clients would be encroached upon. He protested on behalf of Mr. Clarke and other members of the Great Waterways railway. Mr. Minty said that the commission, if such a scope was allowed, might just as well enquire into the doings of the Grand Trunk Pacific Construction company and any other construction company.

Every witness resigned to Clark. The commission did not allow Mr.

Do You Realize What an Important Work the Kidneys Do?

Do you know that every drop of your blood goes to the kidneys hundreds of times every day? Do you know why? To be filtered and purified from its impurities. That is the great work the kidneys have to do. They filter the blood. Then these impurities go to the bladder and are passed out of the body along with the urine.

Do you think it possible for you to be well, unless the kidneys do this work thoroughly?

It is these impurities—this unfiltered blood—that causes backaches, headaches, rheumatism, diabetes, Bright's disease, etc. They poison and interfere with the whole system.

If you have any kidney trouble let Doan's Kidney Pills do for you what they have done for thousands of others. They cure all forms of kidney trouble, and they cure them to stay cured.

Price 50 cents per box or \$1.25 at all dealers or mailed direct on receipt of price by The T. M. M. Co., Limited, Toronto, Ont.

Bennett to examine witness along the lines he began on, stating that Mr. Minty and those present would have every opportunity to explain their side of the case.

In reply to Mr. Bennett, witness said he was largely guided in his actions in connection with the company by his partner, Mr. Minty. Witness got a stock certificate and assigned it on last Wednesday, when he resigned from the company. He assigned it to Mr. B. R. Clarke. Mr. Hollis likewise assigned his stock certificate to Mr. B. R. Clarke. Witness did not know who the shareholders were in the company last Wednesday, nor could he say how much stock had been issued.

Mr. B. R. Clarke subscribed ten per cent required under the companies' act, fifty thousand dollars being subscribed. Witness could not say what was done with the money. Witness declined to state who took the chair at this meeting, but said he probably did. Mr. Clarke took \$49,500 worth of fully paid up stock. Witness said everything at the meetings went off very smoothly, causing a laugh in the court, as Mr. Bennett had endeavored to find out what had happened to the money. Mr. Bennett said that he quite appreciated the fact that everything went off very smoothly, but the point was what really happened to the \$50,000 subscribed. Mr. Bennett's reference to the great smoothness of the whole proceedings again drew a hearty laugh from the court and audience.

Mr. Tupper said that when he resigned from the directorship, Mr. Jas. MacMillan, manager of the Royal bank of Edmonton, and B. R. Clarke remained as directors. Witness could not say who succeeded himself and Mr. Hollis on the directorate, and so far as he knew the company had only two directors, Mr. B. R. Clarke and James MacMillan. Witness said he did not know of any stock certificates being signed by Mr. Clarke.

Mr. Tupper knew of no supply com-

Zam-Buk in 3 Accidents

It would seem that Zam-Buk, the famous healing balm we hear so highly spoken of everywhere, is particularly useful in the family circle. A report sent by Mrs. E. Davey, 736 Ellice Ave., Winnipeg, will illustrate this. She says: "My little boy, of three, while playing, fell from a high verandah to the ground, cutting his forehead badly. Instead of calling a doctor, who would undoubtedly have put in a number of stitches, I bathed the wound with, and applied Zam-Buk. The little fellow, although suffering keenly, soon had relief from this pain. In the course of three weeks by applying Zam-Buk daily, the wound in his forehead was nicely healed."

"Since then I have also used Zam-Buk for a boil which came on my cheek and which proved very painful and looked unsightly. Zam-Buk soon drew the boil to a head and it then quickly vanished."

"Another time my baby was scalded on her left thigh and calf of leg with boiling water. This was a severe scald and the child cried awfully, screaming from pain. Directly it was done I thought to use Zam-Buk, as we had a box in the house, and spreading some of it on the burn it was so soothing. Next morning she cried much easier and I applied a fresh bandage with Zam-Buk. I kept this treatment up daily and was rewarded by seeing a great improvement each time I dressed the wound. In a very short space of time the scalds were all nicely healed."

"I cannot recommend this wonderful healing balm too highly for family use, and I have such great faith in its healing powers that my house is never without a box."

For all skin diseases and diseases, piles, eczema, salt rheum and face sores Zam-Buk is absolutely unequalled. See box for full directions and stores, or post free from Zam-Buk Co., Toronto, for price. Refuse all substitutes.

Witness said a certificate was produced from the Royal bank saying \$49,500 was to the credit of the Canada West Construction company. Mr. B. R. Clarke was appointed treasurer as well as president. Mr. Tupper could not say what disposition was made of the \$50,000. Witness could not say when Mr. B. R. Clarke resigned Winnipeg subsequent to the organization of the company.

Witness said everything at the meetings went off very smoothly, causing a laugh in the court, as Mr. Bennett had endeavored to find out what had happened to the money. Mr. Bennett said that he quite appreciated the fact that everything went off very smoothly, but the point was what really happened to the \$50,000 subscribed. Mr. Bennett's reference to the great smoothness of the whole proceedings again drew a hearty laugh from the court and audience.

Mr. Tupper said that when he resigned from the directorship, Mr. Jas. MacMillan, manager of the Royal bank of Edmonton, and B. R. Clarke remained as directors. Witness could not say who succeeded himself and Mr. Hollis on the directorate, and so far as he knew the company had only two directors, Mr. B. R. Clarke and James MacMillan. Witness said he did not know of any stock certificates being signed by Mr. Clarke.

Save Two Hours of Dust Cloth Drudgery with Two Cents Worth of No-Mor-Dust

Don't wait to be taught by your neighbors what you can learn for yourself by a simple easy trial. Try it. You can't risk a penny—because you get your money back—a cash forfeit—if it fails.

Think what it means to you—think how much of your work and your strength and your time it will save—if No-mor-dust will really do for YOU what we promise here.

Read again this marvelous test—the test that all your neighbors are talking about.

DUST FIRST—SWEEP AFTERWARD

Dust your piano, your pictures, your mirrors before you sweep. THEN sweep the room with No-mor-dust. Then look at your piano, mirrors and pictures. You will find them free from dust and clean as before you swept.

Your work is going to be lighter. You'll spend less time in drudgery. You'll have more time to rest.

That's what the No-mor-dust test means to YOU.

Isn't the sweeping that's so hard, it's the tiresome dusting—over and over and over every time you sweep.

This wonderful test proves positively that with No-mor-dust you can sweep without raising any dust.

You can't do that with tea leaves—you can't do that with wet paper—you can't do it with anything else.

But you can do it with No-mor-dust, and we are going to prove it to you with an offer that makes it absolutely impossible for you to lose any money by your trial.

Try it at Our Risk

Get a 15c package of No-mor-dust before you sweep today.

Try it and if it does not do all that we say we refund your money and the trial will have cost you not one cent.

You can sweep the dirt right out of carpets and rugs with No-mor-dust.

You don't have to break your back taking up and putting down your carpets—you don't have to break your carpets and rugs to pieces. That used to be the main part of Spring housecleaning—the back-breaking taking up and putting down of carpets.

Renovates Your Carpets

But not any more. Now you do it with No-mor-dust.

Your rugs and carpets lie just where they are. No-mor-dust lifts the dust out of them, freshens their colors and leaves them clean.

Just to see it done will be a revelation to you.

For Any Floors

For linoleum and oilcloth floors No-mor-dust is just as good as it is for wood floors and carpets. It takes the dirt off, gathers up the dust and freshens the colors.

Unhealthy germs are annihilated by No-mor-dust. All dust harbors germs. No-mor-dust does more than pick up the dust and dirt. It kills the germs. While No-mor-dust is pleasant and absolutely harmless, it has great germicide, disinfectant and purifying powers.

No injury of any sort can come to carpets, rugs or any kind of floors by cleaning them with No-mor-dust. No-mor-dust cannot hurt the colors or the texture. It has no injurious chemicals to fade the carpets or stain the floors.

Nothing Else Like It

No-mor-dust is not like anything else you have used before. People who see it work are dumb with amazement.

It does not just "lay" the dust and keep it from rising. It picks up the dust and grit and carries them away.

That is not an exaggeration. That is exactly what No-mor-dust does.

And that is what we are going to prove to you.

No-mor-dust picks up every tiny speck of dust and every grain of dirt—grits hold and keeps hold.

Used in Office Buildings

Superintendents of big buildings use No-mor-dust because it saves constant dusting, and therefore saves labor, which means money. If the building superintendent can

save money in this way, isn't it worth while to save your time and labor? Isn't your labor worth money to you?

It "looks like green sawdust." It comes in a round green box. You don't have to wet it. No-mor-dust is ready to use.

The big 15c box of No-mor-dust is enough for a week in an average size house. It takes all the dust out and it keeps the rooms dustless.

No Trouble to Use

Just spill it out of the box and make a line of No-mor-dust along one side of the room. Then sweep it across the room with an ordinary broom.

When cleaning carpets with No-mor-dust, sweep with the grain of the carpet.

Where to Buy It

If your grocer has not No-mor-dust send postal order to P. O. Box 318, 318 Michigan Street, Buffalo, and a package of No-mor-dust will be delivered at your door; 15c C. O. D.

Remember we will not let you risk one penny when you make this test of No-mor-dust. We want you to know—by your own experience, right in your own home—all that No-mor-dust will do for you. Nothing that you read about No-mor-dust will give you such a clear idea of how it saves work, saves time, saves carpets, etc., like one single day's use of No-mor-dust in your own home.

Costs You Nothing if Test Fails

If No-mor-dust, used in your own home, under your own broom, does not fulfill every statement made here, and if after you have given your first package of No-mor-dust a fair trial you are disappointed in any way whatever—you can write to us, just say that you tried it fairly and are disappointed—send the package of No-mor-dust to Chemical Co., out from the package—and immediately we will refund to you the price you paid for your first package, plus the postage you have used in writing to us.
