Blue Serge Suits

They are going up in price and will continue to do so, and good goods are getting scarce every day.

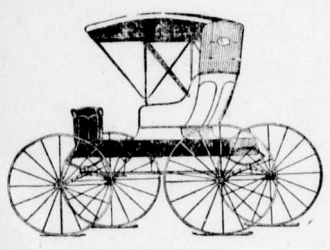

We still have old materials on hand, which are colored with the old dyes and guaranteed not to fade.

We make up in our usual painstaking manner at from . . . \$30.00 to \$40.00

Slack season is approaching, and if you want a particularly nice job, give us a chance to make you a suit.

Now is the time, don't put it off, as every Suit of old blue made up for a customer means so much goods less which cannot be replaced.

Buggies

Worth the Money

There is as much difference in buggies as in anything else, and we have no hesitation in saying the McLaughlin is the BEST in the market to-day. It is known as the Noiseless Buggy—and the only buggy made with the brass and rubber washer, the secret of which is, the hub on either end striking the oval brass washer with the rubber inside makes no noise and still it has play enough to revolve without friction, therefore you are assured of a very light draft. This is the one buggy on the market that will give you full value for the money invested. Come and take a look at it if you need a buggy.

Doctors prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Catarrh is a local disease, influenced by constitutional conditions and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is a constitutional remedy, is taken internally and acts through the blood on the Mucous Surfaces of the System. The First Line of Defence

Pure blood is the body's first line of defense against disease. Strong, healthy blood neutralizes the poisons of invading germs, or destroys the germs themselves. That is why many people exposed to disease do not contract it. Those whose blood is weak and watery and therefore lacking in defensive power are most liable to infection. Every body may observe that healthy red-blooded people are less liable to colds and the grippe than pale, bloodless people. It is the bloodless sort who are easily tired, who are short of breath at slight exertion, who have poor appetites, and who wake up in the morning as tired as when they went to bed. While women and girls chiefly suffer from bloodlessness the trouble also affects both boys and men. It simply affects girls and women to a greater extent because there is a greater demand upon their blood supply.

To renew and build up the blood there is no remedy can equal Dr. Williams' Pink Pills. They tone up the entire system, make the blood rich and red, feed and strengthen starving nerves, increase the appetite, put color in the cheeks, give refreshing sleep and drive away that unnatural tired feeling. Plenty of sunlight and whole some food will do the rest.

You can get Dr. Williams' Pink Pills through any dealer in medicine or by mail at 50 cents a box or six boxes for \$2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.
