More Trouble in Morocco.
LONDON, Oct. 16.—A dispatch from Tan-
ger, Morocco, says: Morocco city has been
in rebellion for a week, owing to the
Caliph's attempt to arrest the Cadi Dehama
by the Sultan's order. The Caliph is now
hemmed in by insurgents. The Sultan is
sending troops to the scene.

The Czar is Worse.
ST. PETERSBURG, Oct. 16.—A special
edition of the Official Messenger issued
this evening contains a bulletin signed
by Drs. Leyden, Zachevich, Popoff and
Befaminoff, the Czar's physicians, stating
that on consultation today they found no
improvement in the kidney disease from
which the Czar is suffering, and that his
majesty's strength has diminished since their
last examination. They hope, however,
that the climate of Southern Crimea will
benefit him.

Concessions to Princess Alix.
BERLIN, Oct. 16.—The Kreuz Zeitung
says that Princess Alix of Hesse has ob-
tained concessions from the Russian high
synod such as no princess in a like posi-
tion ever before secured in embracing the
orthodox faith. The princess, according
to the newspaper mentioned, will not de-
clare her former religion to be accurate,
nor will she state that her conversion is
due to the conviction that the truth lies
not with her own, but with the Greek
Church.

The holy synod will be satisfied with a
simple declaration that the princess joins
the Greek Church in order to be of the
same religion as her future husband, the
Grand Duke of Russia.

Joe's Pet Scheme.
LONDON, Oct. 16.—Joseph Chamberlain,
M.P., the Liberal-Unionist leader, ad-
dressed the Unionist Conference in Durham
today. He held that the Unionist party
was growing in strength at the expense of
the Gladstonians, and he insisted upon the
importance of having a definite policy of
social reforms and defined in detail the
bill which he has prepared for providing
for the furnishing of state aid to artisans
in the purchase of homes, the granting of
old age pensions, the limitation of the
hours of labor in shops and factories, the
restriction of pauper alien immigration, and
for a new employers' liability act. Referring
to the adverse opinions of certain
Unionist papers on this bill, he said that if
he thought the criticisms were approved
by any considerable number of Unionists
he would resign the responsible position
which he now holds in the party's councils.

A Jap Victory.
SHANGHAI, Oct. 16.—It is reported that
Port Arthur, the Chinese stronghold, where
the fleet of China has been refitting after
the battle fought off the mouth of the
Yalu River, has been captured by the Jap-
anese.

A dispatch from Yokohama says that a
large number of Chinese prisoners have
arrived there. The Japanese Parliament,
which was convened for a seven days' ses-
sion to consider war measures, met at
Kioshimia yesterday. Count Kusumoti
was elected President and M. Shimada
Vice-President.

A dispatch to the Central News from Wi-
ju, dated Monday, says: The opposing
armies will face each other on the banks
of the Yalu River. The Chinese have not
fired a shot, but work night and day
strengthening their defenses. Count
Yamagata, the Japanese commander in
chief, is awaiting the arrival of heavier
artillery before attacking the Chinese
position. Japanese scouts estimate that
the Chinese forces altogether number
25,000 men. The scouts have brought in
detailed information as to the condition of
the Chinese defenses, showing that they
are not so strong as the first reports in-
dicated. The Chinese artillery is shown to
be less formidable than the Japanese had
supposed. A decisive attack is expected
shortly. Various indications justify the
belief that the chief stand of the Chinese
will be at Khabenchao.

CHICAGO, Oct. 16.—Engineer John Haley
jumped from his cab when his engine was
in motion last week and was killed. En-
gineer Tom Regan was deeply affected by
the death of his friend. He retired early
last night and about midnight jumped
through his window and crashed to the
sidewalk, fatally injured. He regained
consciousness before his death, and told
that he dreamed he was on an engine with
Haley, and that he and his friend had
jumped together.

Disastrous Fires.

Catholic Hospital and a Boarding
House Burned.

Two Nuns and Probably Two Patients
Perish.

A Money Loss of Nearly \$50,000—A
Kentucky Town Badly Scorched.

HOUSTON, Texas, Oct. 16.—Early this
morning fire was discovered in the San
Jacinto boarding house on Franklin and
Jacinto streets, and before the flames were
gotten under control two lives, and prob-
ably four, were lost, and \$50,000 worth of
property was destroyed. The flames quickly
spread to St. Joseph's Catholic Infirmary
on Franklin street, and despite the efforts
of the firemen the building was totally de-
stroyed. Two sisters of the institute—
Jane and Doris—perished. Two patients
lying in an upper story of the dormitory
are missing, and it is feared they were
burned to death. Another sister named
Clothilda was frightfully burned about the
head and shoulders, but it is believed she
will recover.

From St. Joseph's Infirmary the flames
spread to the San Jacinto boarding house,
then to an adjoining store. The flames
lasted from 2:30 until 4:30, and in that
time destroyed fifteen buildings. Losses
will aggregate \$50,000, partially covered
by insurance. It is supposed the fire was
started by the explosion of an oil lamp.

SCORCHED IN KENTUCKY.
LA GRANGE, Ky., Oct. 16.—Fire broke
out in Sulphur, eight miles east of here,

braces seven stores, Deposit Bank of
Sulphur, livery stables, two hotels and six
residences. The Louisville and Nashville
Railroad depot, which was filled with
merchandise, and the water tank were de-
stroyed. Loss over \$100,000, partially
insured.

ANTIDOTE FOR DIPHTHERIA.
Said to be One of the Greatest Discoveries
in Medicine.

WASHINGTON, D. C., Oct. 16.—Surgeon
General Wyman has received a preliminary
report from Passed Assistant J. J. Kenyon
from the Pasteur Institute in Paris, where
he is making special study of the methods
of Prof. Roux in the treatment of dipht-
heria by means of serum injections. Dr.
Kenyon states that he is convinced that
Prof. Roux has been too modest in his
claims for the efficacy of this treatment.

He says the discovery is one of the greatest
in medicine, and has passed through the
experimental stage and laid a foundation
for a new system of preventive medicine.

CAUSE AND CURE.

Urges Against the Canadian Pack-
ing Company, London.

A Means Suggested to Meet the
Difficulty.

TORONTO, Oct. 16.—At the meeting of
the Provincial Board of Health today Dr.
Bryce submitted his report on the Cana-
dian packing establishment of London.

A report stated that owing to several
communications from the London Board of
Health, caused by the Canadian Pack-
ing Company allowing the effluent
water from their factory to run
into a creek passing through a number of
fields which cattle feed, the milk of
which is sent to London, Dr. Bryce
wrote the establishment on Oct. 12 in
company with Dr. Hutchinson and Mr.
Maren, a resident farmer along the
creek.

I found the factory to be a large one,
having a capacity for killing from 800 to
900 pigs daily, and dealing with them
all the methods of the most approved
meat establishments. The managers
and employees of the establishment
were from Denmark and exhibited the high
intelligence of their nation in practical
commercial matters. The buildings were
very brick with stone pavements, and so
rigid that the open slaughter rooms, etc.,
were daily washed.

The complaint was that the trouble was
due to washwater from the floors, which
ran into the creek. When the factory
began two years ago the effluent
water was carried directly by
a drain, to the spring creek, and as
there were 15,000 gallons of water in daily
use, more or less contaminated with
blood etc., a serious nuisance resulted.

Cog to complain the company in-
stituted method of sewage disposal, which
consisted of filtration of the water by
means of ditches before it reached
the creek. These ditches, however,
were not of sufficient capacity,
as was made evident by the fact that it
only quitted an excess of water by rain or
otherwise to carry much of the water
direct to the creek, thereby polluting the
stream.

THE REMEDY.
To remedy this the report recommended
that the ditches be increased in extent
and her improvements made whereby
pollution would be entirely avoided. The
report was adopted.

HE MUST DIE.
The Car of Russia Has Kidney Tumor
—He May Live Some Time.

NEW YORK, Oct. 17.—The Herald's Paris
correspondent says: I have seen an official
report of the condition of the Czar's health.
He is suffering from Bright's disease,
but for a tumor under the left kidney. A
week or two ago the tumor attacked the kidney
over a surface of one square centimeter.
The Russian physician, Dr. Zachevich,
thinks, and he has so informed the Czar,
that the tumor is of a cancerous character.
If this is the case a catastrophe may be
expected within the next four months. Dr.
Leyden, the German physician, does not
believe the tumor is cancerous one. He
admits that the disease is incurable, but
thinks that with care and complete rest for
the patient it may be a long time before it
proves fatal.

Mackenzie Bowell was the groomsmen, and
the bridesmaids were supported by her sister.
Many notables were present. The happy
couple left for England.

John L. Swears Off.
PHILADELPHIA, Pa., Oct. 16.—John L.
Sullivan said tonight, "I am only in the
theatrical business for the time being. I
expect to challenge the winner of the Cor-
bett-Fitzsimmons fight." Sullivan was 38
years old yesterday, and to celebrate his
natal day is sworn off drinking liquor.

Fashions' Penalties.
Mrs. Vokes—Mrs. Crummer has a terrible
cold just now.
Mrs. Gieland—How did she get it?
Mrs. Vokes—By wearing a fur-lined
jacket.

Mrs. Gieland—Impossible!
Mrs. Vokes—Not at all. She had to wear
it open so that people could see the lining.

The Riddle.
Here is a story of a school-master who
promised a crown to any boy who should
propound a riddle that he could not
answer.

One and another tried, and at last a boy
asked: "Why am I like the Prince of
Wales?"

The master puzzled his wits in vain and
finally was compelled to admit that he did
not know.

"Why," said the boy, "it's because I
am waiting for the crown."

this Oil as a family remedy is enhanced by
the fact that it is admirably adapted not

hurts, disorders of the bowels, and affec-
tions of the throat, to which the young are
specially subject.

Dress Goods.

Columns have already been devoted to the de-
tails of these stocks. It seems we're always
talking of Dress Fabrics of one kind or another, but
it is not to be wondered at with such a collection
—not such another store within your reach that
shows such a wealth of Dress Fabrics. It is our
gauntlet. We challenge all competition. The
gathering of stylish wares surpasses all former com-
peting collections. It isn't possible, in the limits of
a newspaper, to picture the exquisite taste and
unique effects of new Dress Goods. Clever genius
has been at work, and improved machinery has
helped to make stuffs better than they were. We'd
be slow indeed to offer you this season the counter-
part of what you had last. Among the more ex-
clusive lines we would like you to see our range of
Holland & Sherry's Dress Tweed Suitings and
Vestings. They are confined to us for this section
and cannot be had elsewhere. Of all desirable
weaves this season, perhaps, those English Covert
Cloths take the lead. There is a feel about them
that is almost irresistible. We have them in all
pretty shades of fawn, tan, brown, gray and blue,
also black. English Broadcloths for street wear are
among the quick-selling things. We have them in
21 different shades, 56 inches wide, 5 1-2 yards to
the dress pattern, only one of a color. To finish off
with, all we can say is that if you want to know
what is the fashion we have here the very extremes
of present styles. Not a penny wasted in buying
them. It's hardly possible for anyone to own the
stock for less than we, which means lower prices
than others can afford. Colors are good, styles ex-
cellent, qualities perfect, and values better than ever.
