The name of David Morton & Sons, Hamilton, is now so well known throughout the Dominion that a short sketch of their Lusiilton, is now so well known throughout the Dominion that a short sketch of their Lusiness career will prove interesting. Thirty-four years ago the senior member of the firm commenced business as a soap manufacturer in Hamilton, with a thorough knowledge of the business, having had a practical experience of about fifteen years in Scotland and the United States. The beginning was on a small scale, but by indomitable perseverence difficulties were overcome, and trade steadily increased. Twenty years ago their "Viotor" brand was placed on the market, being the first wrapped soap in Canada. It proved a grand success, bringing the firm into note as manufacturers of the highest grade of laundry soaps; this brand is still one of their leaders. Seven years later their "N. Liberal Tariff Platform.

We, the Liberal party of Canada, in convention assembled declare:

That the customs tariff of the Dominion should be based, not as it now in, upon the protective principle, but upon the requirements of the public service.

That the existing tariff, founded upon an unsound principle and used as it has been by the Government as a corrupting agency, wherewith to keep themselves in office, has developed monopolies, trusts and combinations;

It has decreased the value of farm and other landed property;
It has oppressed the masses to the enrichment of the few;

It has checked immigration;
It has caused great loss of population;

It has impeded commerce;
It has discriminated against Great

That the highest interests of Canada de-mand a removal of this obstacle to our country's progress, by the adoption of a sound fiscal policy, which, while not doing injustice to any class, will promote do-mestic and foreign trade and hosten the return of prosperity to our people. That to that end, the tariff should be re-luced to the needs of honest, economical and efficient government.

That it should be so adjusted as to make

That it should be so adjusted as to make free, or to bear as lightly as possible upon the necessaries of life and should be so arranged as to promote freer trade with the whole world, more particularly Great Britain and the United States.

We believe that the results of the protective system have grievously disappointed thousands of persons who honestly supported it, and that the country in the light of experience is now propared to declare of experience is now prepared to declare for a sound fiscal policy.

The issue between the two political parties on this great question is now clearly

defined.

The Government themselves admit the failure of their fixed policy, and now profess their willingness to make some changes, but they say that such changes must be based only on the principle of

This issue we unbesitatingly accept, and upon it we await with the fullest confidence the verdict of the electors of Canada. Worms cause teverishness, moaning and
