COAL STRIKE

Coal Barons Say There Will Be No Arbitration.

MINERS MUST TAKE OLD WAGES

Employers Declare They Will Brook No Outside Interference of Any Nature.

OPERATORS' EDICT.

"We will brook no outside interference of whatever naturepolitical, humanitarian, or any other origin."-President Fowler, N. Y., O., and W. R. Company.

New York, Sept. 10.-President Fowler, of the New York, Ontario and Western Railway Company, said this evening: "The strike will end when the men come back of their own accord, and on the terms they worked on before the strike. We will brook no outside interference of whatever nature, political, humanitarian, or any other origin. When the men go back it will be at the wages and on the conditions obtained last spring. After they have returned we will take up any grievances with our own men. We have posted notices to that effect in our collieries, and that has been our

attitude right along. President Oliphant, of the Delaware and Hudson, declared also that there would be no interference on the part of Mr. Morgan. Mr. Oliphant said no outside interference would be heeded, and that the strike would be continued until the miners grow tired of it and return to work.

NO ARBITRATION.

Mr. John Markle, the head of the firm of O. B. Markle & Co., the largest of the individual coal operators in the anthracite coal field, today made a statement respecting the proposed arbitration between the employes and the employers. "There will be no arbitration," said Mr. Markle, "and no settlement of the coal strike in any way. "We have not forgotten our experiences on a former occa fon," said Mr. Markle. "There had been in istence from 1885 an agreement with the men in our employ providing for the settlement by arbitration, in an amicable way, of all differences that arose. This was the result of a local strike lasting three months in 1885. In 1887, notwithstanding the existence of this contract for arbitration, the men deliberately broke their agreement and went on strike, which lasted six months; yet we re-established the arbitration agreement after it was over and went on. In 1897, there was a widespread strike in the Lehigh region, but our men stood by their agree-ment and never lost a day's work. "In 1890 Mr. John Mitchell appeared,

and began a campaign on our property. Our employes presented a list of griev ances and I replied to them, and suggested that if our answers were not satisfactory they could demand arbiration under the existing agreement. Mr. Mitchell distinctly opposed any arbitration, asserting that we were in-

sincere. "Father Phillips, a well-known priest of Hazelton, of his own volition, urged the men to abide by their compact, and suggested Archbishop Ryan, of Philadelphia, as the third arbitrator. Mr. Mitchell opposed all of this, claiming that it was a bluff, A meeting of our employes was held, to which Mitchell came, unsolicited, and made a speech. He asked me pubicly if I would abide by the arbitraors' verdict, and when I said I would, he turned to the audience and pleaded with them nevertheless to go upon a strike. Father Phillips and I followed him, urging the men to stand by their agreement for arbitration, and the men refused to follow Mitchell's lead. Then came a round of threats, intimidation and violence. Almost rioting parties of several hundred men appeared upon our property, led by Mitchell's lieutenmen to break their agreement.

ants, in the vain efforts to compel our They inaugurated a reign of terror which finally resulted in the employes breaking their compact and throwing the projected arbitration to the winds Then Marcus A. Hanna came into the dispute and secured some concessions. The strike ended, and it was heralded as a triumph for Mitchell. Work was resumed under these conditions, Oct. 29, 1900. The result has been establishment of every kind of trades union in the coal district. From that time on there have been innumerable strikes. Mitchell has become a demigod and alone is obeyed, so that all ordinary and usual means of discipline are usually disregarded. With this history before us I am sure no reasonable man will ask us to engage in any arbitration with Mr. Mitchell or his immediate followers."

GOV. STONE'S POSITION.

Harrisburg, Pa., Sept. 10.-Governor Stone today refused to discuss yesterday's conference with the coal operators in New York. He said he would do all in his power to effect a settlement between the operators and miners, and that in order to reach J. P. Morgan it was necessary to get in touch with P. A. B. Widener. The governor said there was no truth in the report that he had an engagement to meet John Mitchell, and would not say what were the prospects of settling the strike.

AT WORK. Scranton, Pa., Sept. 10.-Work was resumed today at Brisbane, one of the largest collieries belonging to the Delaware, Lackawanna and Western Company. No information was given out at the colliery as to the extent of operations begun there, but it is said that a sufficient number of men

ure of Governor Stone's plan to reach a settlement has put a damper on the hopes of those who were confident that the strike would end by the 15th of

ENGINEERS STRIKE. Portland, Ore., Sept. 10 .- The marine engineers of Portland, about 150 in number, have voted to go on strike. They claim that their employers have not lived up to the terms of the agreement by which a strike of two months ago was settled. The engineers say that the companies agreed to take back all of the old men, but have not done so. It is believed that the strike will the up nearly every boat on the Wil-

liamette and Columbia Rivers.

The Soufriere volcane is quiet, but nobody ventures near Wal-libou, Richmond, or the obliterated estates, which are partially obscured by a vast cloud of steam, extending from the summit of the Soufriere to the sea. In the absence of scientific opinion it is uncertain whether lava has been ejected. The matter ejected during the afternoon of Sept. 3 was of sulphur color. Descending the mountain it ran out to the sea, a distance of about fifteen miles. course of the stream is now a deep ravine. A big upheaval at the base, in the same direction, was witnessed from another mountain on Sept. 8.

THE ALASKAN VOLCANOES. Passengers on the last trip of the steamer Bertha from Alaska say that the volcanoes in Redoubt, Iliamna and Augustine Mountains were in active eruption. Great columns of steam issued from all three, and Redoubt was throwing clouds of smoke for miles into the air. STOLE \$44,000 IN GOLD.

Paris papers mentioned a rumor that Patrie publishes an interview with an official of the bank who said: "The robbery amounted to \$44,000 in gold. It was not the work of burglars. The

gold was taken in the day time, evidently by a person or persons having access to the cash vault, but suspicion yet rests on nobody." KILLED 166 WHALES. A great whale hunt took place at Hillswich, in the Shetland Islands last Saturday. When on that day a school of herring whales was reported ap-

proaching the coast the entire fishing population put to sea aboard of everything that would float. They drove the whales ashore and slaughtered 166 of them. The longest whale measured 35 feet. THIRTY MEN KILLED.

PILGRIMS ROBBED. In a dispatch from Vienna the cor respondent of the London Daily Ex-press describes a fiendish crime committed at Maria Rabna, in Hurgary. Two hundred pilgrims were journeying to the shrine of the Virgin. They were unable to find other lodgings, and spent the night in a barn. A body of Wallachian gypsies appeared on the scene and robbed the sleeping pilgrims. They then set fire to the barn, and an indescribable panic ensued. Eight of the

CAPE COLONY AFFAIRS. London Times says the political situa- yesterday's crowd. tion there is unchanged. Two meetings held between the Sprigg Ministry and the Progressives only widened the breach. Premier Sprigg refused to move one iota from his present position, and reconciliation is impossible. Regarding a motion approving Sprigg's action in opposing suspension, the Progressives offered to abstain from speaking if Sprigg would move the previous question. This he de-clined to do, and it is gravely feared the debate fixed for Thursday will be largely personal. The Bond caucus resolved to support Sprigg, but on the tacit condition that he shall not introduce measures disapproved by the

Wednesday night. The directors, it is understood, have decided to give Mr. Hill a prolonged rest, which he evidently is badly need of. With that end in view they have temporarily relieved him of the duties of the management in order that he may, by freedom from worry, have an opportunity to more speedily re-

cover his wonted health. Today the weather the fine and warm The Cape Town correspondent of the and there likely will be a repetition of

Smallpox in Detroit.

Detroit, Mich., Sept. 10 .- Detroit has been free from smallpox for several weeks, but a new case was discovered yesterday. The victim was sent to the smallpox hospital at once. He is Charles Russel, of First street. It is thought that Russell contracted the disease in Essex County, Ontario, where a number of cases are now in quarantine, and where he was visiting relatives recently.

Verdict for \$4,984,000.

New York, Sept. 11 .- A judgment for \$4,984,000 in favor of Charles B. Brown has been entered in an action brought by him in the supreme court against the Memphis, El Paso and Pacific Railway Company. Brown claimed to be the owner of 1,667 bonds of the defendant company, valued at \$1,000 each, which were issued in 1867. The bonds when they reached maturity were not paid, and Brown sued to recover their value, with the costs of the suit and the interest, which had accumulated
