Viterbo, Italy, May 9.—Gennarro Abstenaggio, the informer, who has experienced a trying ordeal in contronting for several days those whom he accused as principals in the murder of Gennarro (Cuocolo and his wife, is ill and was unable to appear when the trial of the Camorrists was resumed today. In his absence the morning session was taken up with reading of opinions of medical experts who examined the bodies of the murdered ones. The experts found forty-seven wounds on the body of Cuocolo and thirteen on that of his wife. Death was due to dagger thrusts delivered in such a manner as to leave triangular scars. Abhatemaggio has testified that the greater number of the knife blows were inflicted by Corrado Sortino. The physicians expressed the opinion that if this were true that Sortino need not necessarily have been covered with blood and that he might have gone from the scene of the assassinations by train to Naples without attracting particular attention. A TORONTO STRIKE. Toronto, May 9.—Between eighty and ninety operators of the Canada Cloak Cempany, Limited, of 63 to 71 Wellington street west, walked out on strike a few minutes after 10 o'clock this

morning. The trouble arose over slack an work and not all the men being em-

"We were laid off for two weeks, and went back to work yesterday," stated one of the men who welked out in the procession. "Instead, of the company taking back all the men laid off they only took back about sixty. Sixteen men were not given work.

"We went to the boss and asked him to take back all the men. He said that he would not, but promised that he would not, but promised that he would not own there was work. We didn't want to work unless there was work for all, and we told him so. He wouldn't agree, so we struck."
