## The EDISON PHONOGRAPH

The Edison Phonograph is not only the greatest musician of all the ages—it is all the great musicians of the present day—playing all of the greatest music ever written.

You select your program to suit your audience when you own an Edison Phonograph. The songs you love best, sung by the singers who sing them best—your kind of music, rendered as only the Edison can render it—as true to life as the original.

The Edison tone is pure, smooth, subdued and true, because of the rounded, button-shaped sapphire reproducing point, which gives exactly the right volume of sound for the home. And the sapphire point is permanent—lasts forever. No changing needles, no scratching or wearing of records.

There are Edison dealers everywhere. Go to the nearest and hear the Edison Phonograph play both Edison Standard and Edison Amberol Records. Get complete catalogues from your dealer or from us. Edison Phonographs, \$16.50 to \$240.00. Edison Standard Records, 40c. Edison Amberol Records, 50c. Edison Gramophone Records, 40c. to \$2.50. Orange, N. J., U. S. A.

A complete line of Edison Phonographs and Records will be found at

W. McPhillips - 189 Dundas St.

## MORE LABOR MEN IN PARLIAMENT

Sir George Gibbons Thinks They Would Be in Interests of the Country.

CANADA AND THE U. S.  
It is Not Necessary in Order to Proclaim Our Loyalty to Abuse the Nation to the South of Us.

The election of more labor men to the Parliament of Canada and to the Congress and Senate of the United States, was advocated by Sir George Gibbons Friday night in an address to the Men's Club of the Church of St. John the Evangelist. A large number of the men of the parish were present. Mr. W. H. Davis presided.

In his opening remarks, Sir George paid a high tribute to the late A. Beverley Cox, who had done so much for the young men of the city. He was a type of which there are too few in these busy days.

There was a danger in Canada that men would lose their individuality. There was not the individual responsibility in this country that should exist. Canadians changed their country with as much facility as they would change their clothes. The roots of patriotism did not go deep enough. Sir George would like to see a more intense love for city and country, than was manifest in these later days.

Canada was not the fairest sense a nation. She was still part of the Empire. During the past few years, however, she had passed from a crown colony, and no effort was made to govern her from Downing street or Westminster. Her own laws, her own treaties, her own tariff arrangements, and in her relations with the United States, she acted on her own behalf. This was a proper position, and Canadians would not be true Britons if they were not the case. Britons will not be slaves in or out of the fold. With the new position came new responsibilities. These are going to grow as Canada develops and increases in population and influence.

Individual Responsibility.  
"There must be individual responsibility," declared Sir George. "The citizen should have a high ideal of citizenship. He should be loyal to his city. The man who is not loyal to his city will not likely be loyal to his country. In London we have a beautiful city, a healthy city, and it is the duty of every citizen to boom it, tell its good qualities, and not be everlastingly disparaging it, as is too often done here. Praise it to friend and foe, and the country and city will feel the benefit."

History teaches that for the major portion of the past, countries were ruled by oligarchies, Sir George declared. That time has passed. Nations are ruled now by the people. In the past few years were sufficiently educated to rule. Now education was universal and the people are competent to rule. The people of England always did rule. They were content to allow the lords and dukes to take the credit so long as they did not interfere with the people. When they did interfere the lords had to go. England is a democracy.

Labors in England.  
"In England labor is represented by a large number of trained and intelligent members," said Sir George. "That is a good thing, in my judgment. The same is true in France and Germany. One of the most remarkable things in recent years was the protest of the working classes of Germany against war, as shown in the election results. Organized labor, in England, in Germany, in France, is opposed to war. There is no doubt of that. They say that war has no profit for them. In the last analysis they know they must bear the burdens of war. This attitude is one of the guarantees of peace in the future."

"It would be a good thing for this country and the United States if labor had more trained and intelligent representatives in the houses of parliament. The United States there is not a labor man in the Senate, not a labor man in Congress; Canada is almost as bad. This should not be. The labor people form a large portion of the electorate, and they should have representation."

Big Labor Men.  
"The recent strike in England would not have been settled had not labor had such men as Ramsay MacDonald and others to represent them. They formed a sort of buffer between capital and labor, and through their efforts the strike was settled. They are a safety valve between capital and labor. There would be, in my mind, fewer occurrences such as were seen in San Francisco, if labor had parliamentary representation. In England they have the best method, and I am hoping for its adoption on this side of the line."

Friendly Relations.  
More friendly relations between Great Britain and the United States were essential. The English-speaking world, standing together, could guarantee the peace of the world and make for a higher and better civilization. In proclaiming one's loyalty, it was not necessary to disparage the United States. Canada and the country in the south, must always be neighbors—they should ever be friends. A hearty vote of thanks was tendered the speaker on motion of Inspector C. B. Edwards and Col. Fisher.

Refreshments were served after the meeting.

FOREST.  
Forest, Feb. 3.—Messrs. G. W. Mitchell and John Rawlings leave on Monday next for the west.

His lordship the Bishop of Huron will hold confirmation service in Christ Church next Sunday.

W. E. Saunders of London, gave a most interesting lecture here recently on "Birds." There was a large attendance and the address was much enjoyed.

Individual communion service will be used in the Methodist Church next Sunday for the first time. The service has been given by the Junior League of the church.

## PARKHILL HOME WAS DESTROYED BY FIRE

Charles Barnes' House Was Ignited By an Overheated Stovepipe.

[Special to The Advertiser.]  
Parkhill, Feb. 3.—The house of Mr. Charles Barnes, on concession 16, was destroyed by fire. The fire started early in the evening from an overheated stovepipe, and members of the family noticed it in time to remove some of the furniture from the lower floor. Nothing upstairs was saved, as the flames spread so rapidly that little could be done, and the men were forced out of the house by heat and smoke.

Mr. Angus McKay is quite ill at his home.

John S. McDonald and family will remove to the West shortly.

Mr. John Dignana, of Hamilton, is at his home here attending his father, who was recently stricken with paralysis.

Mrs. Donald McKinnon visited at the home of John Morrison, Centre road, recently.

Miss Flossie McKinnon is in Toronto.

Miss Sarah Morrison, of Centre road, will attend the millinery opening in London next week.

## FULL INVESTIGATION MAY BE DEMANDED

Sarnia People Are Irate Over Suppression of Analysis of Water Supply.

[Special to The Advertiser.]  
Sarnia, Feb. 2.—It is expected that the question of an efficient market for Sarnia will be taken up in earnest by the town council on Monday night. It is also hinted in some quarters that there may be an investigation into the question of the suppressed water analysis made by Dr. V. C. Vaughn, at the University of Michigan.

The publication of these two-year-old reports after their production had been forced by the typhoid investigating commission, has caused much comment.

It is not thought that the report of the investigation will be ready for more than a week.

A piece of flannel dampened with Chamberlain's Liniment and bound on to the affected parts is superior to any plaster. When troubled with lame back or pains in the side or chest give it a trial, and you are certain to be more than pleased with the prompt relief which it affords. For sale by all dealers.

Only one-eighth of the arable land in the country tributary to Regina, is yet under cultivation. What will Regina be when the other seven-eighths are cultivated?

REGINA has doubled its population in the past eighteen months. It will double again in the next fifteen.

REGINA is not only the capital and seat of government, but is the natural distributing centre and commercial hub of this vast and immensely wealthy province.

REGINA has grown as the province has grown, and in the future must grow in like manner.

IT WILL INCREASE TO 100,000 POPULATION WITHIN THE NEXT FIVE YEARS.

Building lots bought in Regina for 100 dollars four years ago are today selling for 1,200 dollars.

Continued growth means continued increase in land values, and big profits for those who invest in real estate at present prices. When population doubles, real estate values quadruple. Today is the time to buy land in Regina.

REGINA is the Capital, the Legislative, Financial and Trade Centre of Saskatchewan. There is no other city in the West that has its great future more plainly written in the present than Regina.

REGINA'S municipal public buildings would do credit to any city five times its size. These have all been constructed without cost to the citizens out of the sale of the townsite lands.

The city hall cost over \$200,000. The central fire hall is one of the most complete in the Dominion, and cost \$30,000. The North Side fire hall was built this year, and cost about \$15,000. An incinerator plant has been built at a cost of \$40,000, which is one of the most modern scientific systems of disposing of garbage. Other public buildings have been built free of cost to the citizens, and the city yet possesses an asset in its unsold property of close upon \$1,300,000.

## HOTELMEN BLACKLIST GODERICH MERCHANTS

Men Who Took Part in Recent Local Option Campaign Are Affected.

[Special to The Advertiser.]  
Goderich, Feb. 3.—The hotelkeepers of this town have practically blacklisted every merchant that identified himself in the late local option campaign, and have cut off all trade and commerce with them, and named them to this effect. They have cut out all local newspapers, and their accounts and contracts, and have taken the "bit in their teeth" to fight those who fought them.

They have also notified the council to instruct the chief of police to see that all hotelkeepers keep hotel and live up to the law. Since this notice was served on the town, two hotelkeepers have been up before the magistrate, and against one no case was proven, and the other is not yet disposed of.

After Councillor.  
One of the councillors has been notified to vacate his chair or proceedings will be taken against him for receiving payment for a contract with his firm and the town. This councillor was a particularly active local option supporter. It is rumored that proceedings are to be taken against the whole council to unseat them for a financial transaction that is illegal.

The special committee appointed last week to report on the reduction of licenses reported last night that two hotels be cut off, and as it is in the hands of the commissioners to decide, it is not known which will be the victims.

The \$1 a day hotels have raised their rates to \$1.50, and increased the price to farmers as well.

Skating is very popular in Goderich this winter, and the new large rink is much appreciated. A large number of adults are to be seen on the ice, people who have not had skates on for 20 and as far back as 30 years, grandmothers and grandfathers skating with their great-grandchildren.

Oddfellows' Dance.  
A very pretty dance was held in the Oddfellows' Hall last evening, and was largely attended. The Blackstone Orchestra furnished the music. The lady patronesses were Mrs. W. M. Elliot, Mrs. V. M. Roberts, Mrs. Geo. Williams and Mrs. Jos. Kidd.

R. R. Sallows and Robert Elliot were nominated to run for councillors to fill the vacancy made by the resignation of Ald. Kelly some time ago.

The Goderich Board of Trade, in compliance with a resolution before them a week or so ago, have issued a circular to all the boards in Ontario, asking their co-operation in seeking legislation from the Ontario Government to compel all departmental stores doing business by catalogue to pay taxes in each municipality in which they do business.

Toronto Excursion, Feb. 6.  
Special train will leave London via Canadian Pacific on Tuesday, Feb. 6, at 9:50 a.m., arriving at Toronto at 1 p.m. Rate: adults, \$2.50; children, \$1.50. Tickets good only going on special train. Return limit, Feb. 7. Secure tickets at C. P. R. City Office corner Dundas and Richmond.

Several Passengers Killed by Outrage on Manchurian Railway.  
[Canadian Press.]

London, Feb. 3.—A railway bridge was blown up to the east of Mukden, Manchuria, this morning at 3 o'clock and a train was wrecked, several passengers being killed.

According to a news agency dispatch from Tien Tsin received here today the outrage was committed at Chulinsu, where the railroad from Shan Haiwan to Mukden passes over a river. The crime had been carefully prepared, the viaduct being undermined and charges of dynamite placed in position. When the train was in the centre of the bridge the fuse was fired and the whole structure blew up.

It is not known whether rebels or bandits are responsible for the outrage.

## REGINA

THE City that is growing more rapidly and more surely than any city in Canada.

The best place to make an investment.

## Watch Monday's Papers

for an announcement that is of deepest interest to every reader of this paper.

## Western Canada Realty Co.

169 1/2 Dundas Street, London  
Phone 3489

REGINA is situated 115 miles from the international boundary, 356 miles west of Winnipeg, 484 miles east of Calgary, and 1,741 miles west of Montreal.

REGINA had a population on June 30, 1911, of 30,210. In 1901 the population was 2,249, a growth in the last decade of 1,400 per cent.

There are only 13 cities in Canada larger than Regina.

Great railroads make great cities. Regina will very shortly have 21 railway lines.

More agricultural implements are distributed from Regina than any point in the world.

Over 800 commercial travellers make Regina their headquarters.

During the first ten months of 1911 permits for 150 buildings, such as stores, warehouses, apartment blocks and public buildings, were issued, more than forty of which cost over \$20,000. Five of them represented an expenditure of over \$100,000 each, while one, the Methodist College, went over \$275,000.

Regina's building expenditure for 1911 was over \$166,000 per thousand of population.

Here are a few buildings for 1912:

G. T. P. Hotel, \$750,000.  
G. T. P. Station, \$60,000.  
Anglican College.

The Massey Ladies' College.  
Roman Catholic Cathedral, with Bishop's Palace.

New Theatre.  
Numerous new warehouses.

Several large apartment blocks.  
Several new public schools.

C. P. R. Shops, which will employ, at commencement, 600 men, and hundreds of others.

REGINA is the sixth city of the Dominion in postal revenue. The report of the postmaster-general, just issued, shows Regina to be sixth in point of revenue, with \$103,568. Note these figures of six cities, showing gross revenue for year:  
TORONTO ..... \$1,547,880  
MONTREAL ..... 918,173  
WINNIPEG ..... 731,055  
VANCOUVER ..... 306,826  
CALGARY ..... 154,693  
REGINA ..... 103,568

The railway facilities are an important factor in the development of a distributing point. Regina is the largest distributing point of the Middle West. Her territory comprises 60,000 square miles, extending 115 miles south, 130 miles north, 100 miles east and 250 miles west, embracing 230 towns and villages, and has a population within this area of over 400,000.
