With \$1,239,115.70 carried forward from last year, \$2,252,079.94 is shown as available for distribution, and has been disposed of as follows:
Dividends \$600,000 00 Tax on circulation. 50,000 00 Reserved for accrued taxes. \$0,000 00 Reserved for accrued taxes. 80,000 00 Transferred to officers' pension fund

Transferred to reserve fund.\$1,000,000 00
Carried forward \$22,079 94

The immediately available assets of \$59,125,031 12 are \$11,091,087.98 above the figures of a vear ago, and are equivalent to 59,94 per cent of the bank's liabilities to the public—a very strong showing.

During the year the deposits have increased from \$77,882,671.52 to \$84,710. 197.25, an increase of.48,826,525.73, representing a very substantial patronage by the public.

The bank's total assets have increased Chile Copper.

197.25, an increase of \$6.826.525.73, representing a very substantial patronage by the public.

The bank's total assets have increased from \$103.568.897.43 to \$110.966.887.56, a growth of \$7.457.990.13 for the year.

The continued quiet conditions that prevailed in general business during the year its shown in a decrease of \$3,436. 642.53 in current loans for the time being until the commercial demand for money improves. This decrease and the increase in the bank's deposits is reflected in increased investment in deminion, provincial and municipal securities, the bank's holding of which at the close of the year is shown at \$29,976.404.45.

Altogether the statement shows a very strong position for this fin@old Canadian institution. The fact that \$1,000.000 has been transferred to the reserve fund would indicate that, in the opinion of the directors, the dominion is pretty well through with the unpleasant liquidation in business that has been going on practically ever since the close of the war, and that the Bank of Toronto is in excellent position to do its share, in assisting the business expansion that in due time will come to Canada.

CHICAGO

Chicago. Dec. 31.—Wheat prices took an upward swing today after a wavering start. The rise in the market accompanied considerable new buying on the part of speculators, who of late have been sellers to realize profits. Liverpool reports of a scarcity of offerings from Argentina were a stimulating factor. The opening, 1½c lower to 1¾c higher, new style, was followed by numerous irregular changes in which December touched \$1.88 and May \$1.82. Corn and oats showed relatives weakness as compared with wheat. Fairly liberal offerings of corn to arrive attracted notice. Corn opened unchanged to ½c lower and later showed some loss all around.

Oats started 3½c off to ¼c up. and then held near to the initial figures.

AGAIN TURN UPWARD

New York Dec. 30. - Bond prices turned upward today, although year-

turned upward today, although yearend readjustments gave the market a
spotty appearance.

Trading in foreign obligations took
on a new lease of life, with an upward
spurt in French government and
municipal bonds.

Despite intermittent profit-taking in
convertible railroad liens, the carrier
group as a whole resumed its upward
movement under the leadership of the
speculative favorites. "Katy" adjustment 5's, after mounting 3 points to a
new high record, closed with a net
gain of 2 points, with advances of 1
to 2 points embracing Peoria and Eastern income 4's, St. Louis Southwestern
3½'s, Baltimore and Ohio first 5's, New
Haven 3½'s and Southern Pacific cellateral 4's.
