This settles it forever! The Moss Literary Society the other night resolved in notice him. He was accustomed all the time by Sheriff Laktre, who kept a close watch upon him. It is a queerly remarked that Wed. really fell inside a hero. The Ladies League held a meeting to determine upon a course of action and lend moral support towards matriculation.

While all this might appear some that the people had lost all interest in the case, yet this is not so. The law-abiding class are determined that justice shall be done, but are quiet. There are some here, as elsewhere, who have a morbid inclination to be hero-worshippers and they are not sensitive as to what their hero is reported that Wed. will surrender himself on the charge of rape preferred last July and stand trial and thus his bondsman, but the report has been seen substantiated.

MINNESOTA SCHOOL ABSTRACTION.—The abolition of the school system of the County Council to settle the school question has been agitating the ratepayers of the village of Mendon, and school section No. 1, for some time past. The ratepayers of the county buildings yesterday, there being present Judge Elliot and Messrs. J. C. Gentry, W. O. Carter, Stanley and Alex. McKellar. Mr. Carter, who called, did not attend. It appeared that the resolution sent by the ratepayers to the Town Council was very indefinite, as the petitioners did not state what they desired to have granted, and owing to the informality it was decided to set aside the appeal and recommend that the whole proceedings be commenced anew.

Even the matter had been gone on with the award would not take effect until December next, and as the new petition can be prepared and presented at the next meeting of the County Council, no delay will be caused.

John G. Gough. No man of the present century has exerted such a marked influence on behalf of the temperance cause as the late John E. Gough. During his early years he delivered nearly 10,000 addresses, and traveled hundreds of thousands of miles.
