And what do they want and why is it want ed? They want an area that will enable them to match the facilities afforded to the public by the only other railway—their ries who mover spent half the sum in acquiring the huge operty in this city, which in all must be my times greater than that now sought by C.P.R. Here would this abomination of deevery probability that that part of it not hased by the C.P.R. would long remain a is. As we heard a prominent railman say: "Why, what's the matter? so agitators remind me of a lot of little chasing a butterfly. Oh! how beauti. These agitators remind me of a lot of little dris chasing a butterfly. Oh! how beautiful! Look at his body! Look at his wings! All the splendid?" Then of a sudden some body says he has a sting in his tail, and away years standing have been cured by B. B. B.

body says he has a sting in his tail, and away they all bolt in an opposite direction, filling the air with the shricks of a Dudu.

It is to the interest of Toronto that the C.P.R. should have a good strong sound foothold in this city. In acquiring this they are at liberty to use the machinery afforded them by law. They can do no illegal thing; and it does not appear that they want to do so. They cannot do what the Grand Trunk and Northern, now lying like two sleek and well fed pet children in the same bed, perpetrated in the way of filching. Their plans, including the Don branch, the station grounds, etc., contemplate an expenditure of a million dollars or more, and in every possible way that we can see their interests and the city's are identical.

That distention of the stomach which many people feel after eating may be due to improper mastication of the food, but in most cases it indicates a weakness of the digestive organs, the best remedy for which is one of Ayer's Pills, to be taken after dinner.

But, says Mr. Brock, "Give them all they want and what will become of the scheme for the railways coming into Toronto on an elevated track?" Well, haven't the G.T.R. all they want, and isn't that position of theirs equally unfavorable to the viaduct? And is not Toronto bound to place the two companies on an equal footing? And will not both companies all the same accept the viaduct scheme? It is certainly no argument that because the Grand Trunk and Northern grabbed city proverty wholesals, therefore the C.P.R. should be allowed to do so. If that sort of lawlessness is contemplated Mr. Brock's vigilance committee has a raison d'etre.

The public is always a gullible body, ready to swallow any glittering bait that is dangled before its syes: and always variable. In England this week they hissed a judge for sentencing a murderess to death, and in an hour the same crowd was hooting and groaning at the prisoner. We would therefore ask the people of Toronto to go slowly, to take time to consider the situation, to think whether there is not room and to spare for all probable lake trade, even when the C. P. As the date of this match approaches the interest is increasing, and by to-morrow it will be at its height. Both teams are hard at work and confident of winning. The Torontos expect all of the team that played against the Montrealers to be on hand; the Cornwalls will be hare in full strength determined to win, as on this match, to a great extent, will depend their hold upon the championship, and everything augurs well for a first-class exhibition of lacrosse, The Toronto team has not yet been chosen, but the names of both teams will be published to morrow. The match will commence at \$3.50 o'clock and will be played rain or shine. The committee of the club are looking forward to having a large field, and owing to the extensive alterations which are to be made on the grounds, trust that they will not be disappointed. The entertainment on Monday evening on the grounds promises to be the best of the kind ever given in Toronto.
