HARRIS & CO. PROPRIETORS.
WATFORD, AUGUST 6, 1915.

Are We Doing Our Bit?

Is Watford doing its bit? We have made liberal contributions to the Patriotic Fund and to the Belgian Relief Fund. The ladies, under the active campaign carried on by the Daughters of the Empire, the Women's Institute and the Young Ladies' Patriotic Society, have been doing their part, and doing it well. But the call is still urgent and must of necessity become more so before we can hope to see the tide turn in favor of the armies which are battling for the cause of humanity and to save the world from Prussian despotism. Warnings come to us from men who are in the best position to know the actual condition of affairs, and all agree that we are a long way from the close of the war. The latest monition comes from "Ralph Connor" (Rev. Dr. Gordon) the noted Canadian author, who has just returned from the front with his invalided brother. Dr. Gordon says no man living, not even Kitchener, knew until three months ago how serious a business this war is. Now that Britain has realized its seriousness, she is finding the money, the men and the munitions to carry it through successfully. Only if her present strenuous attitude towards the struggle is maintained, he says, can defeat be averted. Canada need not find money, but she must help provide men and munitions.

Are we, in this favored district, doing our share to save the British Empire from defeat? Are we living up to the traditions of the brave U. E. Loyalists, whose self-sacrifice and devotion to the British flag laid the foundation of the great heritage they have left to us? From all parts of the Dominion come reports of contributions of machine guns to give our Canadian soldiers an equal advantage with the brutal hordes they are pitted against, which they have not had up to the present. Some of the cities are giving them by hundreds; and they will all be needed.

Watford has been giving in other ways, but more is required of us. While we appeal to our young men to respond to the call of King and Country, we should see to it that we, who have to remain behind, do our full share by furnishing them with everything that is essential to enable them to win the victory which alone can preserve to us the liberty and privileges we enjoy under the British flag. There must be no lagging. Organized and continued effort should be made to keep up our end of the work.

NOTE AND COMMENT

Thirty thousand American settlers have entered Canada since the outbreak of war. Immigration to the Dominion from Great Britain and continental Europe has almost ceased since August, 1914.

Ottawa Free Press: The world would be glad to find amelioration for Germany's blood-thirsty crimes. It has no desire to make them out worse than they are, because they are a blot on civilization. But, unfortunately, the facts cannot be denied.

Peter McArthur says:—The meanest man in Canada has been found. He hires children to pick raspberries for him, and it is a part of the bargain that they whistle all the time they are in the patch. As he is always within hearing, he is able in this way to make sure that they do not eat any of the delicious berries they are picking. Now, what do you think of a man like that?

Judge Barrow:—The mother who holds back her boy gives him the first letter in fear and his failure in life will be her everlasting reproach, and the father who cannot, despite all resistance, command and control his boy when his country calls him, is unworthy of citizenship in that country. No parent, can deny the right of others to demand his boy for his country's service. The public pay taxes to educate that boy, so that when he grows up he shall be of service to the State, and one of the principal services for that boy to render is to battle for his country in time of war, which he can the better do because of the education the State has given him.

The idea of setting the clock ahead an hour during the summer months, in order to give more daylight for work and pleasure, has become so popular throughout Canada that it will be brought to the attention of parliament at its next session, with a view to securing the enactment of a statute that will make the movement uniform. The plan is to turn the clock ahead an hour beginning April 1st of each year so that people will go to work earlier and thus have an added hour of recreation in daylight.

Necessity is the mother of common sense, even with the war office. For some time past it has been apparent that the available crop of recruits has been fairly well skimmed, and it has been equally apparent that many first class fighting men have been turned down because they lacked longitude or latitude. Now the war lords in London and Ottawa have had a rush of brains to the head, and realized that a sound man of five feet two, with a proportionate chest, may be just as good a man on the march or as handy a man in the trenches, or with rifle and bayonet, as a six-footer, and the standards of size have been reduced, an inch having been taken off size and half an inch off girth. Probable thousands of good men have been compelled to stay at home because they could not measure up to 5 feet 3, or swell the chest out to 33½ inches. A good many of these will now have a chance to come back and win out.

CHOP STUFF.

Wyoming is talking Hydro. St. John's Anglican Sunday school, Strathroy, has twenty-three members at the front.

In Woodstock hardly a day passes but that an automobile is auctioned on the market, says the Sentinel-Keweenaw.

Col. A. D. McRae, son of Mrs. Mary McRae, of Glencoe, has been gazetted in London, England, as head of the Canadian Army Service Corps.

The Wyoming Wednesday half holiday scheme for August, failed to take effect owing to the lack of unanimity on the part of the business men to sign the petition.

Capt. W. Bryant, of Thedford, has made application for a commission in one of the two new battalions (the 70th and 71st) to be formed in Western Ontario for overseas service.

Alex. Ferguson, aged 81 years, a pioneer of Moss township, is dead. He lived south of Alvinston with an aged sister, who survives him. Their home was destroyed by fire a month ago.

Harwick township Board of Health has ordered all schools situated in Harwick to provide means by which children attending school may wash their hands and dry them during the day.

Peter Glabb, a former proprietor of the Chapman House, Sarnia, had his left hand amputated at the general hospital following an accident at his farm, when his hand was shattered by an exploding shotgun.

There is a great scarcity of apples in this district this year. There is not nearly enough to supply the local demand. It is reported that there is an abundant crop east of Toronto, where there was a scarcity last year.

Reeve F. Chalk, V. S. of Forest, has offered his services to the Militia Department and left last Monday for London to receive instructions. He will have the rank of Lieutenant and will be placed in charge of remounts.

Ross Weir, of London, who was severely injured in a motor cycle race at Forest on July 1st, is in a very critical condition at Victoria Hospital, London. It has been discovered that his back is broken. But little hope is entertained for his recovery.

Mr. John Oliver, of Wyoming, met with a serious loss last week. One of his valuable heavy draught horses which was pasturing on the farm of Henry Dennis, townline, by some means broke one of its legs, which necessitated it being shot.

The recent action of the Lord's Day Alliance in stopping Sunday papers from reaching Tilbury during war time has aroused the ire of citizens of that town. A branch of the Rational Sunday League, it is announced, will now be organized to fight the Alliance and secure what the citizens term "freedom and liberty."

A deputation of Forest citizens waited on the council Monday night at its regular meeting, and asked the council to vote a sufficient sum to purchase a machine gun to present to the war office. The request of the deputation was granted, the gun to cost \$1,000. A subscription list has been started to purchase another gun from the citizens, and Dr. Hubbard has donated \$100.

Investigation in Germany has shown that the partridge eats the seeds of many noxious weeds and insects destructive to the plant life, therefore, deserves protection.

A reel within a ball takes up the slack in the wire in a new electric-light fixture which permits a lamp to be moved to almost any part of a moderate sized room.

Overheating is prevented in a new electric motor by blowing through its coils air cooled by passing through a water-cooling apparatus.

The Storm on Atlantic Coast

New York, August 4.—Many lives were lost, ships were sunk at sea and millions of dollars damage was done by the storm, which had its climax to-day in the greatest downpour of rain that has struck the Atlantic coast in recent years.

The storm raged practically all along the coast from Florida to Maine. Virtually every state on the eastern seaboard had its toll of death and destruction and cities several hundred miles inland were struck by cloudbursts.

The greatest damage was at Erie, where more than 50 lives are believed to have been lost and \$3,000,000 damage done by a cloudburst.

At Baltimore over 100 racing motor boats, yachts and other pleasure craft were torn loose from their moorings and driven ashore. The loss to vessels, piers and other property there is estimated at \$200,000.

A hypocrite is a man who acts differently when he knows someone is watching him.

Our Duty to the Blind

From Vienna, from Paris an Montreal come reports of arrangements that have been made for the aid and instruction of soldiers blinded in war. The French report states that a larger proportion of the combatants been, and will be, made blind by war than in any previous war, on account of the difference in weapons and character of the fighting. Ontario provided amply for the instruction of blind children, but has not been in provision for ameliorating the condition of the adult blind. Many added claims of the soldiers who come home from Europe sightless in this matter cannot be long delayed. Our blind soldiers and fellows must not be left to wear out their idleness and sorrow, when time and proper instruction can enable them to resume their places as useful members of the community. The Ontario for the Blind at Brantford is making for the education of children who are so defective that they cannot be in the regular public schools. School is not intended for them, cannot do what is required for them above referred to, without reducing their efficiency as soldiers.
