GUIDE-ADVOCATE, WATFORD, JUNE 2, 1916

HILDE= 21000cate HARRIS & CO. PROPRIETORS.

WATFORD, JUNE 2, 1916

NOTE AND COMMENT

Berlin may devise explanations galore but she will never be able to convince the world that anything but a German torpedo caused the sinking of the Cymric.

Advices from the British War Office indicate that a very consider-able number of horses for military purposes will be required from Canada this summer. Buying on a somewhat extensive scale is to be resumed by the British Remount Commission, with headquarters at Montreal. About sixty thousand horses have been purchased in Canana for war purposes by the allied governments since the outbreak of the war, while more than six hundred thousand have been purchased in the United States. Probably another twenty thousand will be purchased in Canada this year. This insures a steady market and continued good prices for horses suitable for artillery and transport work.

-The question was recently raised in the Ontario Legislature of whether or not a farmer should be penalized for putting a system of tile drainage on his farm. If, instead of placing his money in a bank, which immed-iately transports it to the city to

 build up city industries, he invests it in drains on his farm, thereby adding wealth to his community and increas-ing the production of foodstuffs for the Empire, should he be pounced upon by the tax collector and fined for so doing? That is exactly what is being done to-day. If a farmer installs a tile drainage system his assessment is increased and his taxes raised. This is but an instance of the way in which our present system of taxation militates against industry. So long as a man shifts along without putting any improvements on his farm his assessment is left practic-ally untouched. But once let him begin to improve his property, to build a home or drain a field, and down comes the assessor and up go his taxes. Our legislators seem to think that the best way to encourage the development of a country is to penalize industry and to put a premium on indolence.—Echo.
