

GREAT CROPS OF STRAWBERRIES AND HOW TO GROW THEM

IS the title of a beautifully illustrated book of expert information written in every-day language by America's most successful strawberry grower. It explains how the Kellogg Pedigree plants are grown on the great Kellogg plant farms in Oregon, Idaho and Michigan. It contains pictures of the best varieties of strawberries, including fall-bearing kinds, and gives full descriptions. It tells how to grow big crops of fancy berries, and how to market them at big prices. Explains in detail The Kellogg Way.

OUR FAMILY STRAWBERRY GARDEN

Whether you have a small garden only or a big farm, you should grow your own strawberries. Kellogg's Big Red Strawberry Garden will produce all the delicious strawberries your entire family can eat, summer and winter. You can have shortcake, strawberries and cream, preserves, jam and canned berries, the year 'round for less than one cent per gallon. Our Book gives full information.

Strawberries

yield more dollars per acre and give quicker returns than any other crop. Set one acre to Kellogg's Pedigree plants this year, and put from \$500 to \$800 in the bank next year. Our Book tells you how. IT IS FREE.

BUY BRUCE'S SEEDS

The most successful of the market gardeners in Canada, many of them customers for two generations, and some for three, buy Bruce's Seeds, because ever since this business was established by us **sixty-four years ago**, they found they could rely on them in every way, getting better results than from any other seeds.

To these men quality and germination is the big consideration, as their bread and butter depends on their crop.

We would say to the amateur, and also the farmer, who are not customers—

"It Will Pay You to Buy Bruce's Seeds"

for it takes the same time and trouble to plant and care for poor seed as for good, and poor seed means dissatisfaction and loss for a surety.

Write for our 112-page illustrated and descriptive catalogue of Vegetable, Farm and Flower Seeds, Plants, Bulbs, Poultry Supplies, and Garden Tools and Implements, etc. It will be mailed **FREE** to all applicants. **WRITE TO-DAY.**

INTERNATIONAL Harvester manure spreaders have a score of good features in their construction. Each one is the result of careful field experiment.

An I H C spreader is low enough for easy loading, yet it has plenty of clearance underneath. The rear axle is well under the load, rear wheels have wide rims and Z-shaped lugs, insuring good traction under all conditions. Frame, wheels, and all driving parts are of steel. Apron tension is adjusted by a simple device. Winding of the beater is prevented by large diameter, and beater teeth are strong, square and chisel-pointed.

International manure spreaders are built in several styles and sizes, low or high, endless or return apron, for small farms or large. Examination will show sturdiness of construction in every detail. Repairs, if ever needed, may always be had of the local dealer.

Examine International spreaders at the dealer's. We will tell you who sells them, and we will send you interesting catalogues.
