REV. ALEX. GILRAY,

College Street Presbyterian Church, writes:

Dear Sirs,— It is with much satisfaction that I learn that you have decided to establish a branch office in Toronto, believing as I do, that the more widely your Acetic Acid remedy is made known, the greater will be the gratitude accorded to you for the relief experienced by many sufferers in Canada. We have used your Acid for over eighteen years, and are now prepared to state that it is worthy of a place in every family. We have found it thoroughly safe and effective and have commended it to many,—for which we have been thanked. We wish you success in your new quarters, as we feel sure your success will bring relief here as it has already done to large numbers in the old land and other countries. Much will depend on the patient and persevering use of the Acid as set forth in your little book.

ALEX. GILRAY, 91 Bellevue Avenue, Toronto, 28th Nov., 1893.

"To Save Time is to Lengthen Life"

HEALTH AND HOUSEHOLD HINTS.

Violet and orris make the best combination for bureau and chiffonier sachets. The orris imparts a delicious odor of cleanliness, and the violet gives just the suspicion of actual fragrance that is needed.

Water bottles and vases that become discolored and dirty should have a raw potato cut in bits and put inside with a tablespoonful each of salt and washing soda and two of water. Shake well and rinse in clear water.

Coffee stains should not be obstinate if treated as follows: Rub the stain before the cloth has been laundered with a mixture made by dissolving the yoke of an egg in a little lukewarm water. Wash with clean warm water and the stain will vanish with it.

To clean gilt frames rub them with a little sal volatile mixed with cold water, or, after dusting the frames well, paint the gilding with a camel's hair brush dipped in the following mixture: One gill of water in which one ounce of common salt, one ounce of alum and two ounces of purified nitre have been dissolved.

An old and tried cleaning solution for black dresses is a handful of fig leaves boiled in a quart of water till only a pint is left. Dip a brush or bit of sponge in this and rub the spots and stains. Black cloth that is only dusty and generally grimy may be washed in soap bark water, drying without rinsing.

The most thorough housekeepers are learning the value of charcoal as a preservative and purifier and absorbent of moisture. Many keep a shallow vessel filled with it broken quite fine in the ice chest and food cupboards throughout the summer. A few pieces of it are often put into poultry or game that has been drawn, when, if wrapped in confectioner's paper and hung in a cool place, they will keep sweet several days. Fresh fish may be cleaned, sprinkled with salt, wrapped in paper, and then covered with charcoal.

Cabbage is as delicate as cauliflower in the summer and fall if boiled in plenty of water, to which a teaspoonful of soda has been added, as fast as possible for 20 minutes or half an hour, then drained and dressed. In winter it should be cut in six or eight pieces, boiled fast in plenty water, for half an hour, no longer. Always give it plenty of room, let the water boil rapidly when you put it in the pot, which set on the hottest part of the fire to come to that point again, and you will have no more strong, rank, yellow stuff on your table, no bad odor in your house.

Creamed Potatoes.—Good creamed potatoes are usually acceptable to the most pampered taste, and good for breakfast, lunch, tea or a simple dinner. To make them appetizing, cut cold boiled potatoes in slices of uniform thickness, or chop them medium fine in a bowl. Make a white sauce in a saucepan by mixing a tablespoonful of butter with the same quantity of flour, or with as much flour as the butter will take up. Cook them together, and when smooth, add cold milk, milk and water, or cream, and stir all the time until the sauce comes to a boil. Season to taste with white pepper and salt, and drop in the potatoes. Turn them over carefully in the sauce, and leave there till they are heated through. Serve at once. For some tastes the potatoes are improved by adding a little chopped parsley.

Neapolitan Pudding.—One pint of orange juice (requiring seven or eight medium-sized oranges), one-half box of gelatine, the white of one egg, one cupful of sugar, one-half cupful of cold water, one cupful of boiling water, a few drops of rose-colored extract, and the grated rind and juice of one large lemon. Soak the gelatine in the cold water; add the boiling water, the juice of oranges and lemon, and the sugar. Strain and divide into three equal parts pouring one-third into a flat-bottomed dish and setting away to harden. To the second third add a few drops of the coloring extract and set this also in a cool place. Let the remaining portion get thoroughly cold, and as soon as it shows symptoms of forming into jelly, add it to the beaten white of egg, and whip until light and spongy. Pour this into a small mould, which has been dipped in cold water, and set upon ice for several hours. Remove from the mould, cut the colored jelly into small cubes, and heap about the base.

NORTH AMERICAN LIFE ASSURANCE COMPANY.

The year 1893 was the most successful one in the history of this thriving Home Company, as will be seen from the following figures: During the year \$71,000 was added to the net surplus, which now aggregates \$297,000. Over 68 per cent of the total income was added to the assets and reserve funds.

All death claims and matured endowments were more than provided for by interest receipts.

The result of the year's work should be exceedingly satisfactory to the company's policy-holders.

In either of these, with a little *Pearline*, you can wash clothes more easily, more quickly, and more cheaply, than in any other way. You can, we say—but perhaps you don't have to. Then (?) the ease of it doesn't affect you so much. But the quickness, the thoroughness and the economy of it does. The less time that's spent on your clothes, the less it costs you—it's money in your pocket every time they are saved from the wearing rub, rub, rub of the old way. But the *water* doesn't make any difference. Use what's handiest. Hot or cold, hard or soft, salt or fresh, rain or shine, it's all the same if you have *Pearline*. When you don't have it—then there is a difference. Beware of imitations. 304, JAMES PYLE, N. Y.

- SOLE MAKERS** Of high class Syrups in Tins, 2 lb. and 6 lb. each

FOR COMMUNION PURPOSES.

BRITISH DOMINION WINE.

Manufactured from the Best Canada Grapes without the use of either artificial coloring or distilled spirits in any form.

After repeated chemical analyses of the Wines made by Robert Bradford of No. 565 Parliament St., Toronto, I do not hesitate to pronounce them to be unsurpassed by any of the native Wines that have come under my observation.

Analyses show them to contain liberal amounts of the ethereal and saline elements, sugar and tannic acid etc. characteristic of true Wine and which modify materially the effects which would be produced by alcohol alone.

Retaining to a high degree the natural flavor of the grape, they serve the purpose of a pleasant table Wine as well as that of a most valuable medicinal Wine.
