The Collegiate Year is divided into two sessions.

THE REGULAR SESSION opens Wednesday, September 8th, 1880, and closes March, 1881 (obligatory).

THE SPRING SESSION opens March 15th, 1881, and closes June 23rd (optional).

All candidates for the degree of Doctor of Medicine at the DETROIT MEDICAL COLLEGE must successfully complete the following system of training:

PRELIMINARY EXAMINATION must be passed by all candidates for admission who cannot present satisfactory documentary evidence that their acquirements are equal, if not greater than the standard adopted. Date of Examination, September 6th and 7th, 1880.

GRADED COURSE covers three regular sessions of six months each. The course of instruction has been so arranged as to carry the student progressively and systematically, from one subject to another in a just and natural order.

DAILY PRACTICAL WORK in Anatomical, Chemical or Physiological Laboratories during the first two sessions.

DAILY CLINICAL LECTURES during the first two sessions.

DAILY CLINICAL WORK in the HOSPITAL WARDS or DISPENSARIES during the entire last session. For this purpose the Senior Class is divided into small sections, and each section placed in charge of a Clinical teacher for one month. Then the sections change teachers, so that during the session every member of the Senior Class is taught to do clinical work in Diseases of the Eye and Ear, in Diseases of the Larynx, in Diseases of Women, in General Medical Cases, in Surgical Cases, in Diseases of the Skin and in Diseases of the Nervous System and in Obstetrics. Thus the student makes, or assists in making, examinations and in carrying out treatment, writes prescriptions and histories of cases, dresses wounds, applies bandages, watches the progress of pathological processes, internal or external, assists at operations, etc.

DAILY LECTURES AND RECITATIONS on the several scientific and practical branches of Medicine and Surgery during the entire three courses.

EXAMINATIONS at the end of each course on the studies of that course.

DIVISION OF STUDENTS.—The students are divided into three classes according to time of study and proficiency in study. Each class has its lectures, recitations, clinics, and Laboratory work distinct from the others. The small size of the several classes brings the student into intimate personal relations with his several teachers.

Three Hospitals—Harper's, St. Mary's and St. Luke's—with two large free Dispensaries, afford abundance of clinical material. All lectures are delivered on Hospital Grounds. The peculiar feature of this school is the intimate relations between its Didactic, its Laboratory and its Clinical teaching.

FEES. —For Regular Session, Registration, (yearly)	\$ 5 00
Lecture Fees	75 00
Final Examination	30 00
Lecture Fees to Third Course Students	50 00

Hospital Tickets free to all who take out other Tickets.

For Spring Session, the fees are \$10 to those who attend the Regular Course. All others are required to pay \$25, but \$15 of this will be credited on the fees of the next Regular Course attended. All fees payable before Matriculation Examination, to the Secretary, but are returned if the applicant fails to pass the examination.

Announcement and Catalogue, or more detailed account of the above can be promptly obtained by addressing the Secretary,
