

THE Zephyr

A HOT WEATHER
"SLATER SHOE"

Open netting top, permits free ventilation, while bracing ankle, and preventing heel from slipping or chafing, as in a low cut Oxford.

Upper of porous kid, proofed against rain or perspiration by a new chemical process.

Sole of toughest oak tanned leather, with an asbestos-like center sole, which shuts out sidewalk heat. Netting top, laces and eyelets to match kid—Seal Brown, Carmine or Black.

Lightest, coolest,
easiest summer shoe

\$5.00 per pair.

Sold by all
Slater Shoe
Agencies.
