

**NOURISHMENT.**

THIS WORD EMBRACES MORE THAN ORDINARY SPECIFICS.

Nourishment is the Corner-stone of Health—What Food is Intended to Do—Avoid Secret Mixtures When Trying to Get Well.

The ordinary specific or secret nostrum affords only temporary relief. For instance, you may buy some ordinary specific to cure a cold and find temporary relief in the stimulant or tonic contained in the mixture, but the remedy does nothing to cure the weakness that allowed you to take cold. Consequently when you are subject to another attack you will succumb in the same way with more serious results.

This is what leads to consumption. The same illustration applies to hundreds of other complaints. If you are poorly nourished, you will lose flesh, take cold easily, and gradually grow weaker until your health is seriously impaired.

Nourishment means everything to health. Food is designed to nourish the body, overcome wasting and give to every part of the wonderful human machinery the right substance to keep it in working order. But we all know food frequently falls short of the mark. It may be that the digestive organs are out of order. There may be some increased demand upon nourishment made by some unnatural condition. The most learned physician is frequently puzzled to know the cause of a decline in health, but one of the first things he thinks of is to prescribe a nourishment that will counteract the wasting or other unnatural condition.

In all cases of wasting Scott's Emulsion is the most effective cure. It has many uses because it is both a concentrated food and medicine, but the word "wasting" signifies much that Scott's Emulsion is especially designed to overcome.

All of the stages of the decline of health, even to the early stages of Consumption, are cured by Scott's Emulsion. Loss of flesh and strength are speedily overcome and as a cure for all affections of throat and lungs, like Croup, Croup-Sore Throat, Weak Lungs and Bronchitis, Scott's Emulsion is unequalled.

Babies and children find in Scott's Emulsion the vital elements of food that make sound bones and healthy flesh. Rickets, marasmus, and all wasting tendencies in children are cured also. Babies and children thrive on Scott's Emulsion when all the rest of their food seems to go to waste.

Scott's Emulsion is not a secret mixture. All its elements can be traced by the chemist. It contains no worthless or harmful drugs. It has been prescribed by physicians for twenty years and has a clean record back of it.

For sale by all druggists, 50 cents and \$1.

How startling is the tolling of the death bell! Not one is alarmed! If you could see the anxiety of your guardian angel you would pity that radiant creature who loves you more than you deserve. Does the danger of dying in your sin bring no alarm? Has an eternity of suffering no feature of dread? My friend, it is a frightful thing to be in enmity with the living God, even for one moment. If you saw the terrible flash of his sleepless eye as He looks deep into your heart with an infinite loathing for your shocking sins, you would turn white. Will you have the hardihood to insult that awful Being by remaining in different.

How little do we think of the dead? Their bones lie entombed in all our towns, villages, and neighborhoods. The lands they have cultivated, the houses they have built, the works of their hands, are always before our eyes. We travel the same road, walk the same path, sit at the same firesides, sleep in the same rooms, ride in the same carriage, and dine at the same table, and seldom remember that those who once occupied these places are now gone—alas! for ever. Strange that the fleeting cares of life should so soon rush in and fill the breast, to the exclusion of those so near!

Many take the blossom for the fruit. Credulity is not faith, but properly nurtured and developed, it may ripen until it shall be the faith that shall remove mountains.
