

recent times, but which lent an antiquarian setting to the place. They found also, in graves, the bones of two persons, which tradition has erroneously regarded as those of Brebeuf and Lallemand, forgetful of the fact that their bones were found by the searching party from Ste. Marie in 1649, and taken to Quebec.

37. Passing to the high ground east of the Sturgeon River, one finds the most northerly site of the group on the land of Frank Joseph, the west half of lot 6, concession 10. Here, on a patch of ground, cultivated only during the past two seasons, they have found stone axes, an iron tomahawk, a tobacco pipe and some fragments of deer bones.

38. Some ashbeds of Huron camps are met with on the farm of Alex. Begg, the west half of lot 5, concession 10. They have found pottery shreds, pipes, stone axes and numbers of iron tomahawks. Southwest of this site, which is not large, there is a small huckleberry marsh: it is on the opposite side of the road, on lot 4, but near the site.

39. A site of moderate dimensions occurs on the northwest quarter of lot 4, concession 10,—the farm of James Stewart. On a patch of high ground, toward the centre of the farm, they have found pottery fragments, iron knives, iron tomahawks, etc. Similar relics have been found on the adjoining fifty-acre farm, or southwest quarter of the same lot 4, which is cultivated by Mr. Begg; and also a few on the east half, owned and occupied by Robert C. Stewart.

40. Across the road, on the east half of lot 4, concession 9, James Paden, the owner, has found iron tomahawks, pottery fragments, etc., in ashbeds and patches blackened by Huron camp-fires. These occur on the highest ground—a large knoll at the rear of his farm.

41. A similar small site occurs on the east half of lot 3, concession 9. In the extreme southeast corner, the usual relics have been found; and a part of this site extends into the adjoining land of Joseph Greatrix, where he has found the kinds of relics mentioned under the last site, besides stone axes. On its north side this village was near another huckleberry marsh.

42. Another site, distinct from the one last mentioned, is on the farm of Joseph Greatrix, the east half of lot 2, concession 9. Mr. Greatrix has lived on this farm for 25 years, and has frequently found, at the rear of it, the usual remains of camps and the same kinds of relics as occur at the other villages of this group.
