

# The Feel is in the Air for Overcoats

The early cool spells are really more trying on the constitution than later on when you expect the cold weather as a regular thing.

Now is the time to buy an Overcoat.

Whether it be a medium weight or a good solid one for winter use, our immense range of patterns and fabrics makes it easy for you to select a coat, and our range of prices have been graded so that every man can buy one, even if his price be as low as \$7.50.

Every correct style is here, from the nifty young man's collegian models to the styles for men of mature years and quiet tastes.

We can fit most every build of man that walks because our expert tailors know how to make garments for each figure.

We never try to force a regular make upon a stout man, nor vice versa. That style of merchandising has gone with the dark ages, when clothes making was only in its infancy and one style was supposed to fit every man.

We are featuring, among other lines, four shades of chinchillas from the famous mills of Karr & Co., of England. These cloths surpass in value anything that has ever been shown by any house in Toronto—for fineness of weave and beauty of finish.

We have also kept the prices moderate for this class of materials and good dressers will fully appreciate what we have done for them upon inspection of these magnificent Coats.

Don't be a cheap tailor man, be a good dresser and wear ready-to-wear garments that have all the chic style and snap and are all ready for you to slip into. Buy your Clothes from a reliable house upon whom you can always rely upon getting a square deal for your money. "Come on along" to

### LABOR CONGRESS ALL NEXT WEEK

Important Sessions Will Be Held in Montreal—Prominent Speakers.

TOM MANN TO BE THERE

Famous British Labor Leader Will Be Centre of Attraction.

That Tom Mann, perhaps the most prominent figure in labor circles throughout the world, will be present at the Labor Congress which opens at Montreal next week, was the announcement made to The World by James Simpson yesterday. The great St. Nicholas leader of Great Britain, who took charge of the dockers and tramway men's strike in Liverpool two years ago, and who threatened to take all the tramway men of Great Britain out unless the demands of the men were acceded to, has been on a tour of the United States, and will be one of the biggest centres of attraction at the largest labor convention yet held in Canada. Other figures of international reputation will also be there to deal with issues which loom large in the labor world, including Will Thorne, the fraternal delegate from England, who will represent the British Trades Union Congress, and J. McSorley, the fraternal delegate from the United States, who will be present on behalf of the American Federation of Labor. It is almost certain that the Montreal convention will be the largest yet held, considering the 100 which will form Montreal's quorum, the 70 delegates expected from west of the great lakes, the 50 men who will represent the territory from Fort William to Montreal, and the 75 who are expected to represent the labor unions east of Montreal.

Among the important matters which will come up for discussion are the old age pension, workmen's compensation, technical education and immigration. The action of the authorities in connection with using the militia to prevent the union men from picketing and other strike tactics during the coal strike of British Columbia, as well as the question of seeking affiliation with the trades unions of foreign countries in an endeavor to establish that long-cherished ideal of humanity, international peace, will also be under discussion, and great results are expected to accrue from the actions taken at the scene of next week's deliberations.

Some of the reports to be presented which are calculated to be a great deal of interest are those of Mr. Simpson, the labor representative on the Industrial Training and Technical Education Commission; Fred Bancroft, the vice-president of the Trades and Labor Council of Canada, on "The Workmen's Compensation for Ontario and Old Age Pensions for the Dominion," and President James Vesterous of the Canadian Trades and Labor Council, who will report to the convention on legislation in the interests of labor passed at the last session of the Dominion Parliament. P. M. Draper, secretary of the Trades and Labor Council of Canada, will also present his report as the Canadian delegate at the British Trades Union Congress held this year.

An important matter to come up will be the recent investigation conducted in the steel plants and coal mines of Nova Scotia, where both wages and working conditions are said to be greatly in need of a remedy.

Next Sunday night, on the day before the opening of the convention, Mr. Simpson will give an address in St. James' Church, Montreal, which is the largest church in Canada, and on Wednesday night of next week in connection with the convention addresses will be given by William Thorne, M.P. of England, and Messrs. Simpson of Toronto and J. M. Wilkinson of Vancouver.

### LATEST BOOK IN PICTURE AND PROSE

Interesting Story of Unusual Country and People Told in Bright Word Pictures.

As previously announced The World is presenting to its readers "Panama and the Canal in Picture and Prose." This latest book was written by Willis J. Abbott, the well-known writer on international subjects and is the acknowledged reference work of the great waterway. It is a beautiful large book, fully double the dimensions of the usual size novel, printed from new type bound in tropical vellum cloth, with the title stamped in gold and inlaid with a beautiful color panel showing the famous Colubra cut. It contains more than 500 splendid illustrations, which include magnificent water color studies reproduced in full pages in all their natural beautiful colorings.

While the older members of the family will gladly welcome this book, the children should also familiarize themselves with its contents, for it contains valuable knowledge concerning Panama and the canal zone telling you of their appearance, their dress, their home life, their social life, their industries, their sports and pastimes. This is not only entertaining but it is highly important information from an educational viewpoint and should be read by every man, woman and child who is interested in the world's development and progress.

Under usual conditions this beautiful big book would readily sell for at least \$4, but realizing the world-wide interest in the Panama Canal, daily newspapers throughout the United States and Canada are making this great distribution for the benefit of their readers, recognizing the fact that exact knowledge on this timely subject is an essential part of the education of all who would advance. So for a short time this volume will be presented to readers for only six certificates and the small expense amount named therein to cover the expense of distribution.

Get the certificate today. It is printed elsewhere in this issue.

### CHURCH STREET PROPERTY JUMPS

Assessment on Labor Temple Land is Four Hundred a Foot.

The city assessment department is a very busy office these days while the members of the staff are preparing the assessment rolls for ward three for the return of the city clerk. Property owners in ward three are receiving their assessment notices, and one remarkable feature is the sudden rise in Church street values. One striking increase is that of the assessment on the Labor Temple. When this property was taken over by the company in 1904 the land was assessed at \$70 a foot, but ten years later it had risen to \$100 a foot. The total assessment of the property, including the building, has increased from \$15,100 in 1903 to \$25,000 in 1913. It is likely the returns will be ready for tomorrow.

### CANADIAN GENERAL ELECTRIC. Takes Over the Stratford Mill Building Company.

Some time since the Canadian General Electric Company, Limited, acquired, by agreement with the Allis-Chalmers Company of the United States, the right to manufacture and sell exclusively in Canada their various lines of manufacture. The Canadian General Electric Company, at their various works have sufficient equipment for manufacturing most of the apparatus for which these rights were acquired, such as hydraulic machinery, saw mill machinery, mining machinery, etc., but have no equipment for the manufacture of flour mill machinery, grain elevator equipment, etc., such as manufactured by the Allis-Chalmers company, and in order to be fully equipped to take care of all business offering in this line, the Canadian General Electric Company have just acquired by purchase all the plant and assets of the Stratford Mill Building Company, at which plant in future will be manufactured not only the well-known lines of flour mill machinery,

### hereof manufactured by the Stratford Mill Building Company, but also the wider range of machinery and equipment as produced by the Allis-Chalmers Company.

Mr. William Preston, who has been the president of the Stratford Mill Building Company, will continue actively identified with the flour mill machinery business, as manager of the flour mill machinery department of the Canadian Allis-Chalmers Co.

### RAILWAYMAN'S PROMOTION.

KINGSTON, Sept. 15.—(Special).—W. P. Stewart, son of James Stewart postmaster, has been appointed as assistant superintendent of the C.P.R. at Farnham, Que. He was formerly assistant superintendent at Ottawa.

### SKULL CRUSHED BY TRAIN.

KINGSTON, Sept. 15.—(Special).—While walking on the track William H. Peward, living near Napanee, was struck by a train there on the G.T.R. and had his skull crushed. He was brought to the Hotel Dieu here. His recovery is doubtful.

### FROST DOES MUCH DAMAGE.

KINGSTON, Sept. 15.—(Special).—Heavy frosts all over the County of Frontenac last night did serious damage to tomatoes, potatoes and corn. Farmers say the damage will be severely felt.

### LONG MOTORCYCLE TRIP.

SPOKANE, Wash., Sept. 13.—Mr. and Mrs. E. B. Turner have arrived in Spokane after a motorcycle trip of 1700 miles, from San Jose, Cal., to their home in this city. They rode tandem style. Mr. Turner occupying the rear seat. The trip was made in twenty-five running days. The couple bore a letter from Mayor William J. Hindley of Spokane. Their baggage consisted of two blankets, a frying pan, coffee pot and a small supply of food. Mr. Turner sustained a broken shoulder blade and arm in a collision in Oregon, but the remainder of the trip was made without mishap.

SHE HAS A SILVER JAW.

JOLIET, Ill., Sept.—Elizabeth Newcomb has a solid silver lower jaw as a result of a third operation for a disease contracted in match factories. The case has received the attention of the dental fraternity and numerous photographs of the operation were taken. Physicians say the girl, who is seventeen, will retain her jaw and be able to use her sterling silver jaw as well as if it were not artificial.
