Binder Twine Prices in Minnesota.

On June 5 the board of managers of the state prison at Stillwater, Minnesota, fixed the prices to be charged for the various grades of Minnesota state prison twine as follows:

	Per lb.
American hemp	5 cts.
Sisal	4½ cts.
Standard	5 cts.
Manilla and sisal mixed	5½ cts.
Pure manilla	6½ cts.

The prison factory is making about 6,000 pounds of hard fibre twine a day at present, but orders are coming in so rapidly that it will be impossible for the state to supply the demand. The state has a large stock of American hemp twine on hand, which they claim is equally as good, and with which they will try to fill orders that they could not otherwise accept. The farmers of the state are said to be taking more kindly to the prison twine this season than ever before.—Minneapolis Farm Implements.

British Grain Markets.

The Mark Lane Express, of July 1, in its weekly review of the British grain trade says: "During the past week English wheat has fallen 6d and foreign wheat 1s. Oats, barley, beans and peas have declined 6d, and corn, linseed and cotton seed 1s. To-day there was a general dullness. English wheats were offered at 6d and foreign at 9d lower. Flour declined 1s and oats 3d.

Ald. John Hallam, of Toronto, arrived from the east last week and will spend a few days in Manitoba and the west.

An error occurs in the Territorial exhibition prize list in section 1, clause 75. The section reads "25 bushels of red fye wheat" and should read "20 bushels."
