Chicago Market Stampeded By Report of Federal Inquiry

Rumer That Government Will Investigate Big Wheat Accumulations

CHICAGO, Nov. 2.—Twice to-day the wheat market broke more than a cent a bushel in a few minutes. The selling dampedes resulted from nervousness about reports of a federal enquiry into hig cash wheat accumulations here and elsewhere. The close was weak and fan from last night's figures to %c below. Corn showed a net decline of %c to 1½c, and oats a drop of %c to ½c. At the end of the day hog products aried from 2½c to 5c lower to 5c advance.

Prices revised daily by E. T. C

The most abrupt and hardest fall in heat took place just before the last one. A strong recovery had been in ogress for hours, when suddenly pit aders became frightened at supposed gns of liquidation on the part of bull signs of liquidation on the part of built aders. Almost instantaneously offerings became wildly urgent on every side, and there was a nearly vertical descent, from the top to the bottom prices of the day. Causes contributing to the weakness were big receipts in the northwest and generally favorable weather in the winter wheat country. Another reason was the absence of any cash demand in Chicago. No. 2 red winter was vainly offered in unlimited quantities at 2c under Dec. That month fluctuated from 95%c to 96%c, and closed at 95%c, a net loss of %c.

General Conditions Favorable.

Clear, cold weather, increasing marketings and improving condition and quality of corn, made the market for

ketings and improving condition and quality of corn, made the market for that cereal heavy. Eastern demand, too, was slim. December ranged from 61%c to 63%c, closing 1%c down at 62c. Cash grades were fairly steady. Oats fluttered erratically trying to follow the price changes in wheat and corn. There was considerable unloading by longs. High and low levels for the December delivery were 46%c to 45%c, with last sales 45%c, a fall of %c from 24 hours before.

hours before.

In provisions there was free selling by local and foreign holders, who considered yesterday's bulge excessive. The ensuing decline, however, brought out sufficient support to effect a practical offset. In the end prices averaged just about the same as last night.

Northwest Receipts.

Higher on com. Antwerp wheat closed like lower, Herlin &c lower and Buda like lower, Herlin &c lower and Buda like lower.

Hest like lower and Buda like lower and Buda like lower and Buda like lower.

The Price Current, Cincinnati, says:
Past week favorable for prosecution of fall farm work. There is nothing that has medified indications of very satisfactory position of winter wheat; which is now in good condition to meet cold weather. Corn husking operations progressing more rapidly, quality varied, but previous estimate of yield maintained.
