## Porcupine Stocks Are in Scant Demand--Commercial Reports

## **BULLS HELD WHIP HAND** IN CHICAGO WHEAT PIT

Peas-No. 2, \$1.20 to \$1.25 per bushel, out

Buckwheat-\$1 per bushel, outside

Prices Showed Gain For the Day After an Erratic Motion Up and Down-Crop News Affected Sentiment-Corn Higher.

CHICAGO, June 12 .- Wheat prices to enced to some extent by statements that supplies in France had become almost exhausted. The close was firm.

Good support on weak spots helped to lift wheat. The bear side appeared to lack courage to press the selling, altho advices showed arso that full relief had been given to the dry sections of South Dakota, and assertions were current that the reports of damage in Kansas had been exaggerated. Bulls, however, took heart from improved cash demand here, the lightness of primary receipts, and because of decreased stocks at Minneapolis. Notwithstanding word that new wheat cut in Oklahoma was yielding 15 to 25 bushels an acre, shorts were active buyers in the closing hours.

Corn's Speculation Following.
Corn developed strength owing to speculative buying based on a theory that receipts would drop off soon.
In oats purchasing for interests that have been at similar tactics now for a week had a bullish effect. July was chiefly bought in this way.

After liberal receipts of hogs had made provisions easy, commission buying set in and reversed the course of prices. Trade-on the whole, however, was light.

# WHEAT SITUATION

Broemhall Discusses the Sallent Points of Present World Conditions.

Broomhall's special international wheat review of the world situation follows:
The feature of the week has been the good demand from the continent. France has played an important part in keeping prices firm, consequently some of the principal continental markets have shown a substantial advance; whereas the markets of the United States have declined moderately.
