### EVERY ELECTOR ON FILE. MURRAY IS NEW SECRETARY

Plan of Organization Contemplated by the Local Liberals.

J. F. M. Stewart will commence his new duties as city organizer of the Liberal party in January. His salary is in the neighborhood of \$2000 a year. Special attention will be given to organizing the north, south and centre constituencies. It is intended to "card" every elector, so that it will be known where they reside, the nature of their qualifications as voters, whether or not they are to be in the city on election day, what way they are calculated to vote and so forth.

George P. Graham, M.L.A., of Brockville, was in town yesterday and said: "I am a member of the Liberal executive of the province, and I know of no convention. The man who is to lead the opposition in the legislature will be chosen, as it is the invariable custom, by the Liberals in the legislature." Straws seem to blow toward A. G. McKay.

"We desire to thank you and your brave men for the efforts made on our behalf at the fire of Nov. 28, and have much pleasure in contributing the enclosed \$50 to the benefit fund. Trusting the men who were affected by the smoke have been completely recovered, we are, yours very truly, Crompton Corset Co., Ltd."

## Just as Anticipated Satisfactory Results FROM COBALT ORES

The North Ontario Reduction & Refining Company purchased from the Cobalt Silver Queen Company 1902 lbs. of its low grade ore, and shipped same to the Idaho Reduction Works at Clara-ston, Wash., for treatment. In addition to recovering 95 per cent of the silver values, with which the North Ontario Reduction & Refining Company was charged, the Idaho Reduction Company will return \$71.82 for cobalt, \$71.48 for nickel, and \$5.99 for copper contained in the ore, in all \$149.29. This amount would have been lost by any other process. Our plant will have a capacity of 100 tons per day. On the above results, just figure out for yourself the profits that will be made from this return, with smelter charges added, even should we return 50 per cent. of the by-products to the mine-owner.

The North Ontario Reduction & Refining Company is erecting a plant at Sturgeon Falls to use this process. The buildings are well on the way to completion, and machinery all under specification, and Mr. O. L. Young, Manager of the Idaho Reduction Company, is in charge.

The Company has the sole right for this process for the districts of Nipissing, Parry Sound and Algoma. The buildings have been assured of a supply of ore sufficient to keep in constant operation a plant with a capacity of 500 tons per day.

The undersigned have a block of this stock for sale. Write for prospectus and price of shares.
