

Serious Charges Have Been Made Against U.S. Officials at the Falls.

WASHINGTON, May 5 .- For a considerable time serious trouble has been brewing among the inspectors and other officials at the United States immigration station at Niagara Falls. Charges of various kinds have been made by the members of one faction against the members of another. The charges alleged roughness towards aliens, not accounting for head tax inattention to duty and other offences. The matter was brought to the at tention of the department of commerce and labor, and was investigated to-some extent. Finally, sufficient data was developed to induce the de partment officials to order a general enquiry into the affairs of the sta-

tion.

After consultation with the prest dent, Secretary Straus designated Jas. B. Reynolds of New York to conduc investigation, and he will begin the work on Monday morning at Nia-

gara Falls. The situation is said by the depart ment officials to be an ugly one. Already three or four of the em-ployes of the station have been suspended, pending an enquiry into their conduct, and it is intimated that some officials of the station eventually will be discharged from the ser

Model Homes for Workingmen. The scheme of the Manufacturers sociation, for model workingmen's uses, is making good headway. At sociation, for a meeting of the committee, which has the matter in hand, it was stated that the size and style of the houses had practically been decided on. They will contain six rooms, will be built of brick and, besides being on the most convenient model possible, will be of attractive appearance.

The project now lacks only capital and about \$160,000 has been promised, among the contributors being some of the most prominent people in the city.

Whatever threatens woman's delicate sense of modesty, frightens her. For this reason many a woman permits disease of the delicate womanly organs to become aggravated because she cannot bring herself to submit to the ordeal of unpleasant questionings, offensive examinations, and obnoxious local treatments, which most physicians think necessary. Doubtless thousands of the women who have taken advantage of Dr. Pierce's offer of free consultation by letter have been led to do so by the escape thus offered from a treatment repugnant to modesty.
