The Wabash Railroad Company
With its superb and magnificent new train service, is now acknowledged by all travelers to be the most perfect railway system in America. It now runs four trains each way daily, between Buffalo, Chicago, St. Louis and Kansas City, passing through Ningara Falls, Welland, Simcoe, Tilsonburg, St. Thomas, Chatham and Detroit. The "Continental Limited" is the most beautiful train ever seen in this country, all its cars have the new modern wide vestibule. All Wabash passengers trains have free reclining chair curs. Full particulars of this wonderful railroad from any R. R. Agent, or J. A. Richardson, District Passenger Agent, Northeast corner King and Yonge-streets, Toronto and St. Thomas, Ont.

Chicago Stronger on Reported Over-Estimation of Crop.

tinental Markets Little Changed -Big Decrease in Visible Supply

Monday Evening, June 27. The Chicago wheat market firmed up today on advices from sections where harvesting and threshing are going on to the
effect that incoming crops have been greatly
overestimated, and that in many parts the
yield will not anything ifke come up to
the forecasts. Good-sized decreases in the
American and English visible also helped
to imbue the situation with a good tone.
The market maintained its strength
throughout the session and closed at near
top prices for the day, July, September and
December deliveries all showing a gain of
1c per bushel since Saturday's close. Cash
wheat weakened a little, selling down 1½c.
Futures declined in Liverpool and at the
close July wheat was quoted 1d lower than
Saturday's close, the September delivery
¼d and the December option ¾d per cental lower. Parls wheat rose 15 to 20 centimes to-day. Antwerp closed 50 centimes
lower.

As compared with a week ago, the visible supply of wheat in Canada and the United States has decreased 1,864,000 bushels; that of corn has increased 252,000 bushels, and that of oats has increased 516,000 bushels. Following is a comparative statement for the week ending to-day, the preceding week and the corresponding week last, year:

Une 27, June 20, June 28, 1898. 1898. 1898. 1898. 1898. 1898. 1897. 1898. 1897. 19,089,000 0ats, bu... 7,600,000 7,093,000 9,035,000 There are on passage to the United Kingdom 23,680,000 bushels of wheat and 6,240,000 bushels of corn. There are on passage to the European Continent 16,720,000 bushels of wheat and 7,520,000 bushels of corn. Thus the total quantities of cereals afloat to-day, with comparative figures for a week ago, are:

It was a falling off in the world's snipment being about 1c better than Saturday's closing transactions. Look for more short covering if morning cables show strength. Corn—The slump in corn Saturday was caused by some of the longs selling out, feeling they would rest over Sunday. This feeling they would rest over Sunday. This morning local shorts were induenced by strength in wheat. Small increase in the visible, though only about one-quarter million bushels, with clearances nearly double that amount.

There has not been much encouragement for the holders of provisions in to-day's market. Cash demand is rather light, and foreign shipments show considerable decrease over last, especially in lard. There are no local features. Trade is light.

The feature on the Toronto stock market to-day was the wide range covered by War Eagle, whileh opened at 279, 20 points above Saturday's close, sold up to 300 and then

Montreal Live Stock.

Montreal, June 27.—There were about 530 head of butchers' cattle, 250 calves and 500 sheep and lambs offered for sale at the East End Abbatoir to-day. The butchers were out in large numbers, but owing to the dirty weather and more liberal supplies of cattle trade was rather slow and prices somewhat lower than on Thursday. Prime beeves sold at a little lower than 4½c to 5c per lb.; pretty good animals sold at from 3¾c to 4½c per lb.; the common grasshopper stock at from 2½c to 3½c per lb. A few head of choice shipping cattle were sold at 5½c per lb. Good calves sold at from \$1.50 to \$8. each, and the common veals at from \$1.50 to \$4.50 each, Sheep sold at from a little less than 2c per b. up to nearly 3½c do, Fat hogs are plentiful and sell at about 5c per lb. The feature on the Toronto stock market to-day was the wide range covered by War Eagle, which opened at 279, 20 points above Saturday's close, sold up to 300 and then dropped back to 250, recovering again and closing at 260 asked and 252 bid. There were no large offerings of stock, but the break was the result of profit taking and was accelerated by stop orders on the way down. On the Montreal Board the stock sold up to 292 in the morning and broke to 275 in the afternoon, only a 'ew hundred shares changing hands at the lower figures. A partial rally is looked for this morning. Other Canadian stocks were rather active to-day and but little changed in price. In the bank list, which was strong, Ontario sold up to 109%, Merchants' at 176% and Imperial at 200. On the Toronto Board C. P. K., Cable, Richelieu and Toronto Railway all closed slightly weaker than on Saturday.

Wall-street stocks were irregular. Tobac-

day.

Wall-street stocks were irregular. Tobacco advanced two points, Pullman three and B.R.T. 1½, the latter on increased earnings. The Grangers were neglected and Pacifics were weak. Jersey Central and L. & N. each lost about a point.

In London to-day Americans closed from ¼ lower to ¼ higher than on Saturday.

Consol's closed 1-16 higher in London. In Paris 3 per cent. rentes were at 102f 55c.

Tobacco is being advanced by insiders, who claim enormous profits and talk of arranging matters with western manufac-turers, which will be satisfactory to all

Messrs. A. D. Ames & Co.'s London cable quoted the G.T.R. 4 per cent. guaranteed stock at 77% and the second preferred shares at 50%.

Henry A. King & Co. report to-day's fluctuations on the New York Stock Exchanges follows:

Henry A. King & Co., 12 King-street east, received the following despatch to-day from New York. New York Stocks, Chicago Grain and east, received the following despatch to day from New York.

The advance in Tobacco and rubber had but fittle effect on the general list. Buying in these stocks was by the interests which have been bulling them of late. P.O. v. as supported on the new suit, and, as sumil, rallied on covering. Rapid Transif reflected Sunday's carnings. The Pacifics stocks weakened on knowledge that N.P. would not pay a dividend on the common at present. The Grangers were neglected. News that Commodore Watson would command an expedition against the Spanish coast had little effect, divough containing some important possibilities. Third week carnings generally showed increases. The Atchison statement was up to expectations.

War Eagle in Montreal.

Montreal Gazette, June 27.

The number of shares of War Eagle dealt in last week overshadowed the dealings in all other stocks combined, but when one remembers that they are one dollar shares, and not \$100 shares, as most of the other securities are, the amount of money involved shrinks in comparison. The Stock Exchange cannot help but congratulate themselves upon their decision to list only such mining stocks as are on a dividend-paying basis. This enables the investor to draw a marked distinction between a developed property and a "prospect." The speculators have been so used to dealing in mining stocks on a basis of five cents per share that they look upon War Eagle selling at \$2.50 a share as a high-figure. A glance through the list of mining stocks listed on the Boston Stock Exchange, which is where most of the leading American mining securities are held, shows that there are a number of stocks there selling in the hundreds of dollars per share, "Calumet and Heela," the par value of which is \$25 per share, sells at \$575 per share, and this notwithstanding the fact that the mine has already been working on its ore reserves for some 30 years, and has paid out during that time about \$53,000,000 in dividends. The Boston and Montana, another stock of \$25 par value, sells at \$212 per share, and has paid out in dividends \$7,625,000. The Homestake, a mine in which a great many Montrealers are interested, has paid near'y \$7,000,000 in dividends. The price at which these stocks are quoted indicates that they have a future as well as a past. Since the War Eagle passed into the hands of the Gooderhams in November, 1896, they have pushed the work of development, with the idea of having the ore reserve in the mine run from five to ten years ahead of the dividend payments, the plan being that for every ton of ore taken out another ton is developed to replace it, so that the mine has always five or ten years of ore ahead. This is made possible by the immense quantifice of low-grade ore and the great depth attained. his is made possible by the immense qualities of low-grade ore and the great depth
