## DR. BROWNE IS APPOINTED HOSPITAL SUPERINTENDENT

Arrangements Made for Treatment of party Temporary Insane at Same Meeting of Trust Board.

The new superintendent of the Toronto General Hospital is Dr. J. N. E. Browne, M.B., a graduate of Toronto University, who was appointed at a meeting of the board of trustees yesterday. Dr. Browne for some time practiced in the Yukon Territory, where he married "Faith Fenton," so well-known in Canadian literary circles. As a commencement it would be furnished with twenty beds, ten for each sex, and the patients could be used for clinical instruction. There is much for doctors to learn about such cases which, as it is, they do not have the opportunity to learn. As one of the trustees said yesterday: "Most of the doctors in the country don't know anything about it." If this is a success it would be followed up by the government which followed up by the government which it." If this is a success it would be followed up by the government, which is in favor of the hospitalization of asylums. Patients would go to a general hospital where they would not go to an ayslum, which is considered a deep and lasting discusses.

Recent experiments of the Iowa State Agricultural College, to determine the respective values of dairy type and beef type cattle, in the production of meat for food consumption, have resulted as follows:

Miss Maggie May Marshall of Cooksville. Mrs. Marshall is the mother of the girls.

Mrs. Marshall lives in the Moody homestead, which became famous at the time of the Williams murder, for which McWherrell was sent to the "pen" for life and died there. The old Williams couple lived in a house on the Moody farm. They were related to Moody and for a time he was suspected of having some connection with the crime. Moody is now almost blind.

The man who likes stylish dress cannot afford to miss seeing our display of handsome outing suit materials, which we are making up just now to your order at \$20.00.

We shall close our shop at I o'clock to-day -plenty of time though for you to look in.

Montreal "Witness" Says Revival of Ontario Liberalism Can Never Be Accomplished Under "Cot. r.e."

Montreal, July 21 .- (Special.) - The Witness wants the Ontario Liberal par ty regenerated. The paper says:

"The cause of Liberalism in the popular sense is at a low ebb in Ontario lar sense is at a low ebb in Ontario to-day, largely on account of the disintegrating influences introduced into the party organization by groups and persons formerly identified with P.P.A. and anti-Catholic associations. If it had not been for the Catholic vote the government of Sir Wilfrid Laurier would have lost the prestige of the London and North Oxford electicis, and certain it is that when crises rise London and North Oxford electic.is, and certain it is that when crises crise again the Catholic vote will be found independent and united on the side of the Liberal party as long as the Liberal party remains true to its honest traditions. The time will come very soon when the Liberal party in Ontario must be reorganized and revivified.

The trustees taiked at some length upon the duty of the Toronto General Hospital to provide some means of looking after people troubled with mental maladies in their incipient stage—such people who can't afford sanitarium treatment, and whom it is a crimato send, to asylums. They go without treatment till they are incurable and become a burden on the state.

The proposal is to get government aid to furnish the house at the General Hospital, which has been vacated by Dr. O'Reilly, for such patients.

As a commencement it would be furnished with wenty heads to such as the commendation of the Liberal electorate in its own Province of Ontario.

Among the police officials the imputation made before the board of control, that steamers were overcrowed has been received with much feeling. They claim that there are not fifteen boats leaving that port at 2 o'clock, as has been stated, and tho big loads have been carried they have not been in excess of the number according to the regulations. They will give the matter as well filled out in rump, thighs and twist; a deep even covering of flesh—lean meat muscle—with just enough fat to marble the flesh nicely and give it a smooth, bright external appearance; fine bone evidenced in refinement of head and limbs; pilable skin of medium thickness, with soft hair; a reasonable trimness of body to give good dressing percentage. These points make up the profitable steer for feeder or butcher, and should govern the breeder in the production of beef animals.
