I have driven over the magnificent roads of Europe as well as the poorer roads of Canada.

I have, therefore, had a chance to study the different conditions under which cars are used.

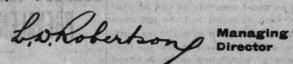

A Car that is right for Europe is wrong for Canada.

The Comet is the only car built which has the fine material and workmanship of the European Cars and a design suited to Canada.

Because the Comet is composed of European material, but is especially designed to suit Canadian conditions. If you are interested in high-class automobiles, I would like the

opportunity of showing you the Comet. Let me give you a demonstration—show what the car will do. I only ask you to make a fair comparison.
