Members of the Dominion Grange Told to Pledge Candidates to a Platform.

ne Dominion Grange of Canada has

Grange respectfully directs the attention of all members of subordinate hot water heating, gas, etc.

\$7500-LABURNAM AVE.DETACH
grange respectfully directs the attention of all members of subordinate hot water heating, gas, etc. not ask that any member of a sub-ordinate grange shall abandon the party with which he is allied. What we do ask is that all those who are we do ask is that all those who are connected with either one of the great party organizations shall endeavor to make use of that organization to advance the reforms which the grange has been steadily urging for years. This can be done by endeavoring, where nominations have not yet been made, to secure the nomination of candidates in symmathy with our

made, to secure the nomination of candidates in sympathy with our views; by pressing, by letter or personal interview, those views on candidates already in the field; by making the questions in which we are so keenly interested subjects of discussion at meetings to be held during the campaign about to open.

"Chief among the subjects on which the grange has pronounced, so far as federal questions are concerned, are the following: 1. The salary grab. 2. Military expansion. 3. Bounties to private interests. 4. Railway subsidies. 5. increasing expenditure. 6. The tariff.

"We believe an increase in the sessional indemnity of members of parliament to \$2500 was wholly uncalled for, and has been one of the causes of the waste of time in useless discussion at Ottawa, with all this involves in adding to the general cost of legisin adding to the general cost of legislation. We believe \$1500 an ample allowance for all the time that the members of a business parliament really need to spend in Ottawa. We sto disapprove of the annual vote of \$7000 to the leader of the opposition.

"Eighteen years ago our expenditure on militia and mounted police, aside from the cost of armories, was a l'itle over \$2,000,000. In 1906, the last full year for which official figures are available, the cost of the same services was \$6,600,000. In the expenditure on armories, which is carried out under the public works department, a proportionate increase has taken place. It is now proposed to go still further in this same direction and make military training a compulsory part of the 10b.

The school system Assings this terms can be arranged.

Fractories.

Fractories. the school system. Against this tendency to emulate the military madness of European farmers, on whom the chief burden of all this falls, we should make vigorous protest.

Object to Bounties.

"According to The Canadian Year Book, issued by the Dominion Department of Agriculture, there was paid out in bounties to iron and steel manufacturers by the Dominion Government, in the 13 years from 1895 to 1907 inclusive, over nine and one-half million dollars. This money was not paid for goods bought by and delivered to the government. It was an absolutely free gift by the government to this free gift by the government to this favored interest.
"Nor is the iron and steel industry

the only beneficiary of this bounty system. From 1882 to 1907 inclusive over \$4,000,000 was paid in bounties to the fishermen of Quebec and the Maritime Provinces. In the nine years end-ing with 1907, the sum of \$772,843 was paid in lead bounties, and in three years ending with 1907, petroleum pro-ducers received \$907,757 in the same way. Farmers, on whom the chief burden of meeting these exactions "Between the beginning of the fisca year of 1884 and the end of the short fiscal year of 1907, a period subsequent to the \$25,000,000 donation to the Canto the \$25,000,000 donation to the Candian Pacific, almost the even thirty-five and a half million dollars was paid out of the federal treasury in railway subsidies. In addition to this, millions "Our brethren in Michigan some years ago carried on a similar cambian the matter of railway taxa-Many of these subsidies coming election, this particular form of

misappropriating the people's funds shall absolutely cease and determine. "Eighteen years ago the total disbursements of the Dominion Govern-ment under alal heads was less than \$42,000,000. In 1906, the last full year for which we have official figures, the of development, and it is up to farm-ers, who stay on the ground, whose capital is in a sense fixed and immov-avenue: Ernest Sellen. 361 able, to demand that a check shall be

"In 1906, the last full year for which we have the official figures, \$173,000,000 worth of goods subject to duty were imported into Canada, and the amount paid in duty in a state of the fire and, seeing the danger to launches, began towing some of nearest to points of safety. imported into Canada, and the amount paid in duties on these imports was \$46,671,000. This was at the rate of nearly 27 per cent. In other words, the first cost of a dollar's worth of goods was increased to \$1.27 by the tariff. By the time the profits of the wholesale and retail merchants were added on, the cost was at least \$1.40. And this is not all. By reason of the protection afforded home manufacturers the latter were put in a position to add a proportionate amount to the to add a proportionate amount to the launch. selling price of \$718,000,000 worth of manufactured goods produced in this country. Still in the face of all this manufacturers are seeking to secure an addition to the protection now endowed by them. The protection now endowed by them. The protection now endowed by the morning. loyed by them. They are endeavoring tion at 11 o'clock this morning.
