We Are Ready With Our Spring Wall Papers

OUR Wall Paper Department announces the opening of the new season. It has held its ear to the ground, in the words of the old metaphor, and confidently prepared for the busy spring it hears approaching.

There will be an unusual amount of wall papering done this spring. We can judge that by the briskness of the department all February. We have our new papers in and you'll find us all ready to start right off into spring business.

Let us tell you about some of the new goods. The spring colors mostly used are light greens, champagnes, old rose, uadine pastels, plain chambrays, and velvet stripes.

The upper decorations used are scenic friezes in oil and flat effects, from conventional designs, with cloth effect backgrounds, high light colorings and warm blended brown and green or brown and yellow effects, lux velours, plain and printed.
