This is the harvest season for candidates in The World's big contest. There are only ven more working days for those eager to win one of the important prizes, to get the benefit of the large special ballots. After those eleven days are over the value of the ballets will depreciate 25 per cent. In eleven days things of vast magnitude have been accomplished in all lines of human endeavor. Candidates who are wide awake to their opportunities will recognize the chance they have now of piling up thousands of votes by availing themselves of these special ballots. After the time has gone by you will long regret it that you did not put in more diligent effort for these few remaining days.

The unprecedented success ofthe contest up to the present time may best be seen in the length of the list of candidates found on another page of this ssue. Look over it. Names are to be picked out that will interest you because you know them.

phy at Bisley.

August 6. Whether this is the camp that the two Canadian boys are to shoot at forthe Lord Roberts Trophy does not seem to be clear to the school offi-cials who sent Galer Hagarty and Captain Flood to England on a hurryup request from the militia authorities on May 12. It was said that the competition for the Lord Roberts Trophy was to take place on May 24, but the cable despatches have not give en an account of the event, and it has begun to dawn on the Toronto people interested that young Hagarty and Flood are in for a long holiday before they get a chance to contest for the prize with the crack boy shots of

Waiting For News. Principal Hagarty, father of Galer, has been watching the papers and awaiting private cables from his wife and boy announcing the result. He told The World last night that he was sat-isfied that the competition was on this week, but owing to the late arrival of the Canadian contingent—they reached Liverpool on Saturday last—they would not likely be called upon to compete till the last days of the meet. He thinks his wife would have cabled had there been a postponemer

Chief Inspector J. L. Hughes said he understood that the contest was to take place on May 24.

Mr. Hagarty also observed that the Ottawa authorities must have been in touch with the committees in England, as they sent out full instructions for the guidance of the boys from the time they were to leave Toronto until they were safe in the world's metropo-ils. They were to be met by a repreentative of the Lord Roberts committee in Liverpool and again in London at the Euston Station.

It is understood, however, that the haste that was necessary at the last ant was due to official blund at Ottawa, since the invitation to the Canadian schools to send representatives lay in a pigeon hole of the de-partment of militia since last fall, and was only accidentally brought out a few days before the sailing of the Vir-ginian, which was to take the boys to the old land. Whether the officials also blundered in regard to the date
