He elected to be tired by his worship and pleaded guilty. He was sentenced to three months at the reformatory, in addition to his previous sentence, and also given an indeterminate sentence of two years, less one day.

Timothy Ryan, another escaped inmate of the reformatory, was also before the magistrate on a similar charge. He got away on June 18 and reached the United States safely, but his conscience troubled him and he came back and gave himself up to the authorities. He pleaded guilty and received the same sentence as McDonuld.

WANT THREE SCHOOLS

Thought There Will Not Be Objection by Education Board.

Toronto's Exhibition grounds will form a great military camp again this winter, and it is probable that the military authorities will be granted the use of three public schools in the western section of the city by the board of education tonight. The fair grounds and buildings have already cen placed at their disposal, and yesterday a request for the use of Jesse Ketchum, Crawford and Givens streets

Ketchum, Crawford and Givens streets schools was received by the board from Major-General Logie.

Jesse Ketchum school has been left by the officials just as the troops vacated in the spring, and Secretary W. C. Wilkinson telegraphed General Logie that it, at least, would be at his disposal. Givens street school was also used last winter, but Crawford street school has not been occupied by the troops. In addition to being suitably located, the latter is not attended by a great many pupils, and an easy distribution among the other schools in the locality can be made it is this fact that probably prompted General Logie to select the school.

Chairman Houston of the board of education stated to The World last night that there was little doubt that the application for the use of the buildings would be granted.

NEW YORK FACES GREAT CAR STRIKE

Elevated Systems Vote to Quit.

MAY NOT BE TIE-UP

Shontz Asserts That, Under Police Protection, Cars Can Be Run.

NEW YORK, Sept. 6.—A strike was declared at 9.50 o'clock tonight by unionized employes of the subway and elevated railway lines operated by the for the purpose of obtaining the necessary money to fulfil the contract with Three Tugs, Endeavoring to Clear city. About 1500 of the 11,700 carmen in the company's pay voted at a mass meeting to quit work immediately.

Officials of the union asserted that with the possible exception of the lines in Brooklyn, New York's electric transportation facilities would be completely paralyzed by morning. They were confident, they said, that the motormen and conductors on the surface lines in Manhattan, Harlem and the Bronx also would strike thru sympathy.

Shontz Professes Confidence. Theodore P. Shontz, president of the Interboro Rapid Transit Co., declared that with adequate police protection the company would be able to cope successfully with the situation and "guarantee transportation to the pub-lic." He said that only a small number of the company's employes had be-

As soon as the strike vote was announced scouts were sent from the union meeting place to notify crews on subway and elevated railway lines. After a conference during the after-noon between Frank Hedley, vice-president and general manager of the Interboro Rapid Transit Co., and officials of the union, Mr. Hedley announced that all negotiations looking to a peaceable adjustment of the differences virtually had been broken off. He then hurried to police head. quarters and made an appeal for police protection for the company's cars and employes. To Chief Inspector of Police Schmittberger, Mr. Hedley

quoted as saying the strike might break out any minute. Theodore P. Shonts, president of the company, issued a statement, in which he declared that 9264 of the 11,700 car men employed by the Interboro had signed "working agree-ments" testifying to their loyalty, Strauss Intervenes,

Oscar S Strauss, chairman of the public service commission, held a conference witth representatives of union and requested that a strike call be held pending another attempt by himself and Mayor Mitchel to settle the trouble. The labor leaders, it was gave him little encouragement asserting they did not see how a strike could be averted.

The labor leaders asserted that many workers had been discharged today because they refused to take off their union badges. A meeting of the employes of the Third Avenue Railway Company to vote on the question of a sympathetic strike, it was announced, has been called for tomorrow,

A Sympathetic Strike. Employes on the "Green car" line of the New York Railway Co., shortly after 11 o'clock tonight also voted to go on strike at once. This is one of the most important of the surface car lines in the city. The men acted thru fensive will probably not begin from all sides till the Italians have effected contact with the army based on Saloniki so as to permit a general sweep an annulment of individual contracts sympathy for the subway and elevated trons. Should the strikers succeed in their threats, more than 12,000 employes will be affected and New York will face the worst tie-up of its transportation lines in its history.

The fall parades of the 9th Mississauga Horse Regiment commenced last night. Lt.-Col. John Moss was in command, and officers. This regiment is getting ready for the authorization of a new overseas battalion, and with that in view they are taking on recruits for both the cavalry and infantry training. Recruits should apply at the riding school in the armories on Monday and Thursday evenings.

With the resumption of street corner racetings, recruiting is beginning to pick up in Toronto. Yesterday 49 applied for overseas service, and of this number 22 were attested. The other 27 were given buttons as being medically unfit for service.

NOT PLEASED WITH VISIT TO CITY HALL

Members of Express Campaign Committee Express Disappointment.

Disappointment was expressed yesterday at the unsatisfactory manner in which the deputation of the citizens' express and freight campaign executive committee was received by the board of control, at whose written invitation they appeared at the city hall to further discuss the express and freight delivery situation.

Clifford E. Blackburn, a member of the deputation, in discussing the proceedings, said: "I hope the mayor will be able to bring the board of control up to his own standard.

"The mayor carried the hydro-electric by-law by a publicity campaign," said Mr. Blackburn, "and a publicity campaign will win the people's fight for the extension of express and freight delivery limits, but the necessity of immediate action is great and the matter urgent. Can we wait until the board of control wakes up?" asked the speaker. "They seem now to be fighting for the corporation and against the people.

"No more going to the board of control of r me," emphatically declared Wm. Foster, another member of the deputation. "I have no time to waste.

"The board seems to take us for children. They say: 'No money for advertising the people's rights.' Who paid for the toy-ride to Camp Borden?" queried Mr. Foster. "I did not go down on the deputation because I felt it would be time wasted," said George R. Ellis. "In my opinion when the oracle of the city's legal department declared that ho money could be granted for advertising the campaign the board of control were bound to obey."
