"Rum runners being chased," was the consensus of opinion, memory traveling back to a similar occurrence in the same vicinity about a year or so ago.

Mr. and Mrs. James Daye entertained about 75 guests at a delightful surprise party at their home, 253 Main street, last evening in honor of George Montyr, a popular young North Endbarber. Violin selections were rendered by W. Dazelle and a pleasant evening spent in games and dancing. Delicious refreshments were served by the hostess.

But it was not a rum chase this time. A car, with its engine evidently in bad order, was hitting a high elip when the machine started to back-fire through the muffler, with the startling result referred to. When this was learned the alarmed residents returned —those who had been there, to bed; the others to their evening papers—all was again serene.
